Governor Sununu,  
(cc: NH-PUC, NH-DOE)

We recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. We understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

**We urge the PUC to accept this Settlement Agreement.** Three years ago, we invested \$45,000 to have solar panels installed on our own home. Thanks to net metering it has been possible for us to use all the power we produce even if we can't use it at the moment it is generated, and without the need for cost-prohibitive batteries. It has allowed us to keep our home net zero. Changes to the net metering tariff structure would prevent us from accessing the benefits of our solar system and would significantly impact us financially.

We are copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

John Bryan  
Amherst, NH
