Subject: Support for CPCNH Proposal in Net Metering Docket (PUC Docket DE 22-060)

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission will soon issue an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by several parties in addition to other proposals offered by the Community Power Coalition of New Hampshire (CPCNH) and the NH Department of Energy.

I urge the PUC to accept this Settlement Agreement with the proposed modifications by the Community Power Coalition of New Hampshire.

Hanover has worked hard over the past 10 years to enable resident to obtain energy independence and reduce the community's reliance on non-renewable energy sources. At the Hanover's Town Meeting on May 9, 2017, the community voted to commit a goal of 100% reliance on renewable sources of electricity by 2030 and renewable sources of fuel for heating and transportation by 2050. Hanover conducted several successful Solarize programs and is a founding and active member of CPCNH, which we joined in an effort to provide a path for residents and businesses to achieve this goal. Net metered residents inquire daily as to when they can participate in community power programs.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket as a public comment.

Sincerely,

Peter Kulbacki, P.E.

Director of Public Works
Town of Hanover
