Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement. Solar arrays are an important way for towns and entities with land like landfills and public schools (At least 3 Unitarian Churches have installed them.) to reduce their carbon footprint. NH notoriously lags behind our surrounding states in this. To remain stubbornly in the past for political reasons is economic and climate suicide.

Sincerely,
Robin Schnell
