Subject: Concerned about the future of net metering in NH (PUC Docket DE 22-060)

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Governor Sununu,
(cc: NH-PUC, NH-DOE)

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement as put forward by Community Power Coalition of NH:

- Support enabling net metered customers to participate in their Community Power programs and request that the improvements to load settlement be implemented to enable this.
- Customer generators > 100 kW should be compensated for avoided transmission costs, capacity costs, and other benefits they create.
- Battery storage should be enabled through this proceeding to maximize the value of local energy resources in New Hampshire

By copying the PUC Clerk on this email I am hoping that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,
Marta Ceroni, Enfield, NH
