Governor Sununu,

I recently learned that the NH Public Utilities Commission is about to release an Order concerning PUC Docket DE 22-060 on Changes to the Current Net Metering Tariff Structure. I understand a Settlement Agreement has been filed by the three investor-owned electric utilities, Clean Energy NH, Conservation Law Foundation (CLF), the Office of the Consumer Advocate (OCA), and the NH Hydro Association.

I urge the PUC to accept this Settlement Agreement.

This is important to us because having our own solar panels is an important part of keeping our costs down as retired people on fixed incomes. We were able to take advantage of state and federal tax credits and rebates while we were still working. It has made a BIG difference because of Net Metering. Net Metering just makes so much sense! We generate a lot of power that goes back to the grid, during high use times. So we are helping NH's solar capacity and energy availability! If every house had solar panels, all of our costs would be lower.

I am copying the PUC Clerk on this email so that my concern and support for the Settlement Agreement will be entered into the docket.

Sincerely,

Sherry Godlewski
