Re: **Docket No. DE 22-060; Electric Distribution Utilities  
Consideration of Changes to the Current Net Metering Tariff Structure**

Dear Chairman Goldner:

On behalf of Liberty Utilities (Granite State Electric) Corp., d/b/a Liberty, attached is the Company's revised compliance tariff filing in response to the Commission's December 24, 2024, Procedural Order. The table on Page 36B has been corrected to reflect the fees set forth in the Settlement Agreement and Order No. 27,074 (November 18, 2024). With respect to the Commission's directive to provide justification or citation for the "\$118,000" in base rate recovery, the Company notes that it erred in setting the correct amount and supporting citation. The correct amount presented in the record was \$118,005. This reflects the amount included in the test year revenue requirement proposed in Docket DE 23-039 for the one full-time employee devoted to administration of interconnection applications. No other costs are incurred to administer interconnection applications (e.g., no specialized software is utilized, no mailing costs). Furthermore, the \$118,005 base rate recovery amount was presented in Exhibit 3, Attachment C of the Joint Utility Rebuttal Testimony, at Bates page 0051, not Exhibit 1 as previously indicated.

Attached is the compliance tariff filing with the corrections identified.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "M Sheehan", written in a cursive style.
