RE: Docket No. DE 22-060 - Consideration of Changes to the Current Net Metering Tariff Structure, Including Compensation of Customer-Generators
Eversource redacted attachment for response PUC 1-002

Chairman Goldner:

Yesterday Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource”) filed a response to question PUC 1-002 and included with that response a confidential excel file that was submitted only to the Commission. In the cover letter to yesterday’s filing and in the response itself, Eversource asserted that redaction of the excel file was not possible. This assertion was based on the assumption that the request was to black out the data in the data fields, which cannot be done in excel – the data remains discoverable even when covered. However, it is possible to clear the data from the confidential fields and then black them out, which Eversource has done in the public excel file attached to this filing. I apologize for the misunderstanding and the delay in providing this file.

Consistent with current Commission policy this filing is being made electronically only; paper copies will not follow. If you have any questions, please have the clerk’s office contact me. Thank you for your assistance with this matter.
