Daniel Goldner, Chairman
New Hampshire Public Utilities Commission
21 South Fruit Street, Suite 10
Concord, NH 03301-2429

RE: Docket No. DE 22-060 - Consideration of Changes to the Current Net Metering Tariff Structure, Including Compensation of Customer-Generators
Joint Utility and DOE request for extension to reply to record requests

Chairman Goldner:

On June 21, 2023 the New Hampshire Public Utilities Commission (“Commission”) issued a procedural order with two record requests, asking that “the New Hampshire Department of Energy, Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty (Liberty), Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource), and Unitil Energy Systems, Inc. (UES) . . . collaborate and provide a coordinated response . . . on or before the close of business on July 12, 2023.”

It was just discovered that there was inconsistent data provided for the table for record request #1, which requires correcting. The electric utilities apologize for this oversight. However, to account for this correction and give the Department of Energy sufficient time to review and analyze the data, the electric utilities and the Department request an extension of one week, moving the submission date to July 19, 2023.

Consistent with current Commission policy this filing is being made electronically only; paper copies will not follow. If you have any questions, please contact me. Thank you for your assistance with this matter.
