RE: Docket No. DE 22-066 - Request for Approval of Durham Community Power Electric Aggregation Plan - Town of Durham
Comments of Public Service Company of New Hampshire d/b/a Eversource Energy

Chair Goldner:

Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource” or the “Company”) provides the following comments on the Community Power Aggregation Plan filed by the Town of Durham in this docket on October 12, 2022 (“Durham Plan”), consistent with the requirement of RSA 53-E:7, II requiring utility comments on such a plan be filed within 21 days of submission of that plan.

Eversource has reviewed the Durham Plan and found it to be consistent with the Puc Chapter 2200 rules. The Company is working diligently to make the requisite modifications to its enterprise IT and billing systems to comply with all data request provisions in the Puc 2200 rules that the Company is able to comply with by the time such data requests are made by the aggregations.

Due to the age and capabilities of these systems, the Company notes that it filed a petition for a waiver of Puc 2203.02(b)(5) with the Commission, as a portion of the data required is not captured by Eversource’s systems and no modification can be made to comply with this provision of the rules. However, with the exception of this one portion of one rule provision, Eversource anticipates successful and timely completion of all implementation work required to comply with the Puc 2200 rules so that it may effectively serve these new aggregations without delay. Consistent with current Commission policy these comments are being filed electronically only; paper copies will not follow. If you have any questions, please contact me. Thank you for your assistance with this matter.
