ELECTRIC DISTRIBUTION UTILITIES

**Investigation of Whether Current Tariffs and Programs are Sufficient to Support
Demand Response and Electric Vehicle Charging Programs**

**Procedural Order Re: Motion to Amend Procedural Schedule to Extend Deadlines for
Filing Initial Comments and Reply Comments**

On March 17, 2023, Unitil Energy Systems, Inc. (UES), Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource), and Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty (Liberty) (collectively, the Electric Utilities) filed a joint motion to amend the procedural schedule in this docket to extend the deadline for initial comments from March 21 to March 28, 2023 and the deadline for reply comments from May 2 to May 9, 2023. The Electric Utilities represented that this amendment was necessary because key personnel were occupied responding to the severe winter weather in New England the week preceding the initial comments deadline. The Electric Utilities indicated that the New Hampshire Department of Energy, Clean Energy New Hampshire, and Community Power Coalition of New Hampshire assented to the request. No party objected to the motion.

On March 21, 2023, prior to the Commission's ruling on the motion, Eversource and other participants to this docket filed their initial comments. Liberty and UES did not file initial comments, and instead renewed the motion to extend the deadline for filing initial comments. Liberty and UES both indicated that they needed additional time to prepare their initial comments.

Since the Electric Utilities have provided good cause for an extension, and no party has objected, the Commission GRANTS the motion and amends the procedural schedule

in this docket so that the deadline for initial comments is March 28, 2023 and the deadline for all responses to those comments is May 9, 2023. Any party that has already filed initial comments may supplement their initial comments by April 5, 2023, if they wish to do so.

So ordered, this twenty-eighth day of March, 2023.
