These tariff pages implement an increase in the Company's system benefits charge effective January 1, 2023, as approved by the Commission in the Order.

Redlined tariff pages denoting the changes were filed with the Commission on December 1, 2022. Redlined tariff pages denoting the tariff changes effective January 1, 2023 and incorporating the authorization footnotes in compliance with the Commission's rules are included in this submittal for easy identification of the changes.

Supplemental Information on the Filing

The enclosed "Summary of Rates" report summarizes all the rates and charges in the Company's tariff by rate class and rate component. In addition, we have enclosed a schedule of "Typical Bill Comparisons" based on the rates in effect on November 1, 2022 and the new rates. The monthly bill amount (including default energy service) for a residential customer served under Rate R and using 600 kilowatt-hours, previously \$202.93, will increase to \$203.18, an increase of \$0.25 or 0.12%.
