RE: Docket No. DE 23-004, Public Service Company of New Hampshire
d/b/a Eversource Energy Proposed Purchase of Receivables Program
Status of Phase 2 Tariff and Contract Approval and Program Implementation

Dear Chairman Goldner:

On behalf of Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource”), I write to urge the Commission to approve the proposed tariff amendments and supplier contract revisions submitted in Phase 2 of this proceeding that provide for the implementation of Eversource’s purchase of receivables (“POR”) program. All parties have supported those tariff amendments and contract revisions, as confirmed by the record adduced during the January 29th hearing held before a Commission hearings examiner.

Eversource has continued to work toward a target effective date of May 1, 2025, but that go-live date is subject to execution of the revised contract forms by all suppliers using consolidated billing service as well as Commission approval of the updated Discount Percentage Rate applicable to POR payments to suppliers. Further delay may also result in logistical consequences and potentially increased costs associated with necessary internal systems modifications.

Accordingly, Eversource respectfully requests that the Commission approve the proposed tariff amendments and revisions of the Electric Supplier Services Master Agreement form at the earliest possible time.

This filing is being made electronically only and, pursuant to Puc 203.04, no paper copies are required to be filed. If you should have any questions, please contact me.

Sincerely,

/s/ David K. Wiesner

David K. Wiesner
Principal Counsel
