To Whom it May Concern,

We just received notice that Liberty Utilities is asking to increase their rates again this year. We are a family of five on one income. Our rates doubled last year with the last rate increase. We live in a modest home and I feel that our energy usage is fairly standard. But the increase in last year's rate has made our energy bill absolutely ridiculous. And allowing Liberty to increase their rates again is unsustainable. PLEASE do not allow them to increase their rates again.

Also, I have read through the docket, and am upset at their request to withhold what they financially compensate their directors. This to me is a huge red flag, and as a customer whose town has no other choice of energy company, I want to know where my money is going.

To summarize my requests:

- 1: DO NOT allow Liberty Utilities to raise their rates again.
- 2: DO NOT allow Liberty Utilities to keep their financial compensations private.

Thank you,
Katherine Rasco
