Dear PUC,

I am writing this email with concern about Liberty's recent request for a rate increase. As a resident of 15 years in New Hampshire I have concern over this increase. Most specifically due to their recent increase. In my instance, our electric bill doubled. It went on average from \$175-\$250 per month, and with the most recent rate increase, it has averaged \$350-\$450 per month. We are a family of four who is conscious about the use of our electricity. Please take into consideration the financial burden and stress this will put on families if approved. I was waiting for the rate to decrease and receiving this letter of intent to increase the rate is very alarming.

I hope this email makes a positive impression and impact.

Thank you for your time,
Heidi Zagorski
