My wife and I live at 89 Cross Road Lebanon NH.

We want to opt out of Liberty Utilities and into our local Community Power Coalition but we can't. We are hostage to Liberty Utilities because we have solar panels and Liberty Utilities is unable to give the Community Power Coalition the information to allow us to continue net metering. We are also on Liberty Utilities Tesla Battery Program. We don't trust that Liberty Utilities is charging us correctly for how they are dispersing our power to the batteries, our home, and the power that is sent back to Liberty Utilities.

We have communicated with the Public Utilities Commission before about these concerns, the result of these communications is that we feel the Public Utilities Commission is more on the side of Liberty Utilities.
