Please....these increases HAVE GOT TO STOP!

The company is Algonquin Power & Utilities Corp. which Liberty is a subsidiary of. Do you know what their Net Income was at the end of 2023? It was 186 million but that's not the number that is shocking. What's shocking is that the number is up from a year ago 350%!! Their Net Profit Margin up 380% from the previous year!!

Maybe if the CEO Arun Banskota didn't get paid over 1.5M a year or the other 5 Execs who get paid even more than him like Ian Robertson who makes over 4.5M. But that's just their pay. In 2021 Mr. Banskota made close to 6M in total compensation. Maybe if they weren't so greedy they can afford to conduct business with the current already outrageous rates.

Just saying....
