2023 Energy Service Solicitations

Procedural Order Re: Motion for Rehearing or Clarification

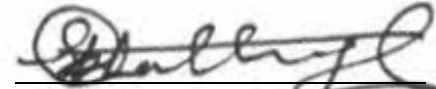

On July 6, 2023, Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource) filed a motion for rehearing or clarification of Order No. 26,851 (June 22, 2023), in which the Commission ordered Eversource to file “a summary comparison of the monthly average ISO-New England market electricity prices with the power supply charge components for Eversource’s Small Customer Group” by the 10th day of the following month on a monthly basis during the sixth-month default service rate period beginning on August 1, 2023. Eversource requested that the Commission modify this order to require these filings 30 days instead of 10 days after the end of each month, because ISO-New England does not publish the relevant information on its website until later in the month. Neither the New Hampshire Department of Energy nor the Office of the Consumer Advocate objected to Eversource’s request.

The Commission GRANTS Eversource’s motion for clarification. Order No. 26,851 is modified so that, on a monthly basis over the six-month default service rate period, Eversource is to file by the 30th day of the following month, a summary comparison of the monthly average ISO-New England market electricity prices with the power supply charge components for Eversource’s Small Customer Group.

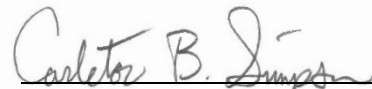

So ordered, this twenty-seventh day of July, 2023.
