Subject: Op-Ed: Northern Pass Lite: Phase I -- we don't want new giant metal towers; stick with identical wood replacements

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

To whom it may concern,

My wife Gail Sawtelle (copied) and I are landowners in Easton NH which has an Eversource easement for power towers. This is referenced by Kris Pastoriza's op ed dated 7/14/2023 located here <https://indepthnh.org/2023/07/14/op-ed-northern-pass-lite-phase-i/>. I have copied Kris on this email.

The existing wooden towers appear to be in great shape. We don't want new giant towers replacing these wooden ones. This appears to be a way around the ruling against the Northern Pass by the NH Supreme Court. If the current towers need to be replaced, please replace them with identical wooden towers.

Sincerely,

John Prestidge and Gail Sawtelle
