Good evening,

I am strongly **against** any rate increases to include natural gas. Corporate greed is what is killing this economy and this country. Families will not be able to afford to heat their house.

If approved, it's sickening to know that Liberty will be making an additional 27.6 million per year in revenue, when families will be living paycheck to paycheck to afford their utilities.

I hope that you deny their request to raise the rates, and listen to the people of the communities in which you serve.

Regards,
Michael Brand
