Procedural Order Re: DOE Request to Extend Deadline

On September 11, 2023, the Commission issued a procedural order requesting that the New Hampshire Department of Energy (DOE) file an analysis and recommendation on the petition for approval of an interconnection agreement in this docket by September 29, 2023. On September 28, 2023, the DOE filed a letter requesting that the Commission extend this deadline to October 13, 2023. The DOE noted that 47 U.S.C § 252(e)(4) provides state authorities ninety days to review interconnection agreements from the date of filing. As the petition in this docket was filed on August 28, 2023, the DOE's requested deadline of October 13, 2023 is well within this ninety-day timeframe. The DOE argues that, as a result, neither the public nor any party will be negatively affected by this extension. The Commission GRANTS the DOE's request.

So ordered, this twenty-ninth day of September, 2023.

Daniel C. Goldner
Presiding Officer
Chairman
