TAB 11

PWW

Filing Requirement Schedules

Puc 1604.06 and Puc 1604.07

Regarding: Puc 1604.07(a)(11) Schedule 3 - Rate Base; Puc 1604.07(a)(12) Schedule 3A - Working Capital; and Puc 1604.07(a)(13) Schedule 3 Attachment - Pro Forma Adjustment Rate Base; these schedules are no longer included in PWW's rate filings because of prior approvals to no longer produce these schedules as follows:

(1) In PWW's last rate case, the Commission agreed that "return on rate base and depreciation components no longer pertain to PWW because, under PWW's current ratemaking methodology, a debt service component effectively replaced return on rate base and depreciation expense." See, Secretarial Letter dated May 31, 2019 in Docket No. DW 19-084 granting waiver of Puc 1604.07(a) (11)-(13).

(2) As to future PWW rate cases, the settlement agreement approved by the Commission in Order No. 26,383 (July 24, 2020) in Docket No. DW 19-084 stated: "[t]he Settling Parties agree and recommend that the Commission require PWW to file its subsequent rate cases in accordance with the procedures and methodologies described in this Agreement, unless otherwise modified by the Commission, and consistent with the computations set forth in the exhibits and attachments to this Agreement." See, Docket No. DW 19-084, Exhibit 9, Settlement Agreement at 52 (emphasis added). See also, Order No. 26,383, where the Commission approved this term: "[w]e expect that future rate case proceedings will follow the procedures and methodologies outlines in the Settlement Agreement and incorporate those terms into this order by reference." Order at 18.

**Pennichuck Water Works, Inc.
Rate Impact on Average Single Family Residential Customer**

Customer Impact

| | <u>DW19-084 Rate Model</u> | |
|--|----------------------------|--------------------|
| Overall Revenue Requirement/Increase (1) | \$ | 42,028,403 |
| Current Water Revenues with CBFRR, excluding QCPACs (2) | \$ | 39,122,488 |
| Overall Revenue % Increase | | 7.43% |
| | <hr/> | |
| | Base Rates (3): | Proposed Rates (4) |
| Monthly 5/8 inch Meter Customer Charge | \$ 26.90 | \$ 28.97 |
| Monthly Volumetric Charge based on Usage (5)(6) | \$ 34.22 | \$ 34.22 |
| Total Average Single Family Residential Monthly Bill | \$ 61.12 | \$ 63.19 |
| Current Monthly QCPAC Surcharge (7) | \$ 0.83 | |
| Total Average Single Family Residential Monthly Bill w/QCPAC Surcharge | \$ 61.95 | |

Customer Impact from New Rates:

| | | |
|---|---------|--|
| Increase to the Total Average Single Family Residential Base Monthly Bill | \$ 2.07 | over tariffed rates granted in DW22-032 |
| Increase to the Total Average Single Family Residential Monthly Bill | \$ 1.24 | over tariffed rates granted in DW22-032 with QCPAC's granted in DW23-015 |

Notes:

- (1) Overall Revenue Requirement using DW19-084 Rate methodology.
- (2) The Current Water Revenues reflect the current tariffed rates granted in DW19-084. The Current Water Revenues do not include the impact of the QCPAC surcharge for QCPAC's placed in service during 2019, 2020 and 2021. The Current Water Revenues are as detailed on Schedule 1C.
- (3) Base rates based on tariffed charges granted in DW19-084 and adjusted annually based to reflect changes to public fire protection rates
- (4) Per Schedule 9 of the 1604.08 schedules the effective rate increase for a volumetric charge for the residential GM customer is 7.68%
Per Schedule 9 of the 1604.08 schedules the effective rate increase for a 5/8" meter charge for the residential GM customer is 7.68%
- (5) Volumetric Charge per CCF granted in DW22-032 (In effect as of August 1, 2023) \$ 4.41
- (6) Average Single Family Residential Monthly Usage (CCF) based on 5 year average 7.76
- (7) Based on the QCPAC granted in DW20-020, DW 22-015 for used and useful 2022 Capex. The QCPAC impact is expected to be 1.36%
- (8) Volumetric Charge per CCF granted in DW22-032 4.41

- Notes:
- (1) The 12/31/2022 City Bond expense is PWW's share of the payment to City Bond per Sch 1 Attach A, Pg 2
 - (2) The 12/31/22 Operating expense reflect the operating expenses incurred in 2022 inclusive of amortization expense and non material operating expenses.
 - (3) The 12/31/2022 non material operating expenses. See Tab titled "2022 Non MOE" for calculation of these expenses.
 - (4) The Material Operating Expense Factor (MOEF) approved in DW19-084
 - (5) The 12/31/2021 Debt Service (principal and interest) paid on debt instruments that were in place before the end of 2021 per 1604.06 Schedule 5.
 - (6) The Debt Service Factor approved in DW19-084.
 - (7) Pro Forma adjustments to 2021 Material operating expenses reflecting projected changes to those expenses within 12 months of 12/31/2021 per 1604.06 Sch 1.
 - (8) MOEF approved in DW22-032
 - (9) Pro Forma adjustments to 2022 amortization expenses reflecting projected changes to those expenses within 12 months of 12/31/2022 per 1604.06 Sch 1.
 - (10) Pro Forma adjustment based on adding in the 2023 Principal and Interest payments on 2023 Series Bonds to reflect full year 2023 Prd per 1604.08 Sch 5
 - (11) Pro Forma adjustments to 2022 Other Operating Revenues Per 1604.06 Schedule 1 Attach A Pg 1
 - (12) Pro Forma to Test Year QCPAC revenues per 1604.06 Sch 1C and 1604.06 Sch 1, Attach A, Pg 1. This proforma accounts for a full year of QCPAC Revenues from DW23-015
 - (13) Reflecting pro forma test year operating expenses associated with 5 year average per 1604.06 Schedule 1
 - (14) Reflecting pro forma 3 year credit/debit to Revenue requirement based projected 2023 Year ending BSF balances per Sch 1 Attach A Pg 3
 - (15) Reflecting changes associated with New Special Contract Fixed Contract Fees per 1604.06 Schedule 1C
 - (16) Pro Forma increase to Customer Class Revenues are based on those derived from G-M volumetric and Fixed meter charges, Special Contract Volumetric and Fixed meter charges per 1604.06 Sch 1C
 - (17) Change in fixed fee based on filed or pending filed special contracts for Anhusser-Bosch, Town of Hudson, Town of Milford and PEU
 - (18) Rate increase is the percentage increase to all customer classes exclusive of Special Contract Fixed Fees.

Pennichuck Water Works, Inc.
Overall Rate of Return
For the Twelve Months Ended December 31, 2022

Rate of Return - Sch 1A

| <u>Capital Component</u> | <u>Amount</u> | <u>Ratio</u> | <u>Rate</u> | <u>Average Cost Rate</u> |
|-------------------------------|-----------------------|----------------|-------------|----------------------------------|
| Long-term Debt | \$ 123,919,050 | 98.87% | 2.69% (2) | 2.66% |
| Short-term Debt | \$ - | 0.00% | 0.00% | 0.00% |
| Preferred Stock | \$ - | 0.00% | 0.00% | 0.00% |
| Common Equity | \$ 1,410,543 | 1.13% | 6.12% (1) | 0.07% |
| Overall Rate of Return | <u>\$ 125,329,593</u> | <u>100.00%</u> | | <u>2.73%</u> |

Notes:

(1) The return on equity based on Order 25,292 in DW 11-026 is as follows:

| | |
|-------------------------------------|--------------|
| Average 2022 30 year Treasury bonds | 3.12% |
| Plus 3.0% | <u>3.00%</u> |
| Total | <u>6.12%</u> |

(2) Per Order 25,230 in DW 10-091, the interest rate as reflected on Schedules 5 is calculated on debt net of debt issuance costs

|---|--------------|---------------------|
| I. Based on 10.20% being applied to 5 Year average revenues See Sch 1C | \$ 3,597,593 | |
| | | \$ 3,597,593 |
| II. Adjust PWW test year rates to reflect full year impact of new special contract fixed fees for AB, Milford, Hudson, and MVD | \$ 684,340 | |
| Therefore: | | \$ 684,340 |
| Total Water Sales Consolidated Adjustment - | | \$ 4,281,933 |

B. QCPAC Revenues

| | | |
|---|---------------------|--|
| I. Eliminate QCPAC Recoupment Revenues from 2022 associated with DW21-23 and DW22-006 | \$ (883,860) | |
| Add Full Years Expected Revenues for DW 23-015 | <u>\$ 514,458</u> | Based on DW 23-015 filing, actual results of April 26. |
| Change in QCPQC Revenues | <u>\$ (369,403)</u> | |
| Therefore: | | \$ (369,403) |

C. Volumetric Revenue Adjustments to 5 year Aerge

| | | |
|---|----------------|-----------------------|
| I. Adjust PWW test year rates to impact of 5 year average on volumetric sales for all volumetic customers, GM, AB, Milford, Hudson, and MVD volumetric sales | \$ (1,641,969) | |
| Therefore: | | \$ (1,641,969) |

D. Other Operating Revenues

I. Per Schedule 1B, the following pro forma adjustment reflects the inclusion of jobbing revenues net of expenses adjusted 2023 Union increase of 3.3% inclusive of the 25% make up in revenues due to wage increases as follows:

| | |
|---|-------------------|
| | 2022 |
| Jobbing Labor Expense | 85,673 |
| Labor Direct Overhead @ | 63.74% 54,608 |
| Total Labor and Direct Overhead | <u>\$ 140,281</u> |
| Impact of 25% Mark up to Revenues | \$ 35,070 |
| Proforma increase to Jobbing Labor Exp. | \$ (1,157) |

Therefore: **\$ (1,157)**

II. Increase in Misc Fees Revenue

Schedule 1
Attachment B

| | |
|------------------|-------------------|
| | Proformas |
| Test Year | based on 5 |
| Proformas | Year Ave. |

I. Union Salaries

A. In 2021, the Company signed a three year contract with the United Steelworkers Union which called for a 3.3% increase 1/1/2023.

To calculate the pro forma adjustments for production union payroll, the payroll data was extracted from the work order detail report for the year 2022 per Schedule 1B

Therefore:

| | |
|---|-----------|
| Annualize impact of wage increase granted on 01/01/2023 | \$ 23,749 |
| | \$ 23,749 |

Total Production Union Salaries Pro Forma:

\$ 23,749

II. Non-union Salaries

A. During the test year and subsequent year, the Company experienced hirings, terminations and salary increases for production non-union personnel per Schedule 1B. The impact of the changes on base salaries are summarized below:

| Department | Base Salaries | | Proforma |
|------------|---------------|------------|-----------|
| | 2023 | 2022 (1) | |
| Production | \$ 809,523 | \$ 780,949 | \$ 28,574 |

(1) Base Salaries exclude overtime, taxable fringe and other compensation items. Base Salary info can be found on Sch 1 Attach G, Pg 3
 Production Non Union Salary Expense is shared with the affiliates via the Management Fee per Sch 1 Attach H

Total Production Non-Union Salaried Pro Forma:

\$ 28,574

III. Operating and Maintenance Expenses:

A. Effective during 2022, the rates for water purchased from the Manchester Water Works, Derry Water Works, and the Merrimack Village District are projecting increases on both volumetric and meter charges. The calculation of the pro forma adjustment is as follows:

| Provider | 2022 Purchased Water Expense (1) | Percent increase in rates in 2023 | Proforma Increase |
|------------------------------------|----------------------------------|-----------------------------------|-------------------|
| TOTAL DERRY WATER - | \$ 169,493 | 5.10% | \$ 8,644 |
| TOTAL MANCHESTER WATER WORKS - | \$ 185,813 | 9.00% | \$ 16,723 |
| TOTAL MERRIMACK VILLAGE DISTRICT - | \$ 152,323 | 7.66% | \$ 11,668 |
| MILFORD WATER DEPARTMENT - | \$ 28,240 | 29.00% | \$ 8,190 |
| | | | \$ 45,225 |

Therefore:

\$ 45,225

B. Adjustment to purchased water expense associated with 5 Year Average Flows

| Provider | Proforma 2023 Purchased Water Expense | % Change | Proforma Decrease |
|------------------------------------|---------------------------------------|----------|-------------------|
| TOTAL DERRY WATER - | \$ 178,137 | 9.97% | \$ 17,761 |
| TOTAL MANCHESTER WATER WORKS - | \$ 202,536 | 9.97% | \$ 20,194 |
| TOTAL MERRIMACK VILLAGE DISTRICT - | \$ 163,991 | 9.97% | \$ 16,351 |
| MILFORD WATER DEPARTMENT - | \$ 36,430 | 9.97% | \$ 3,632 |
| | | | \$ 57,938 |

Therefore:

\$ 57,938

C. During 2023, the Company negotiated a new electricity supply charge rate (per kilowatt hour) effective Dec 1, 2023 for G and GV Accounts through November 30, 2025

The calculation of the pro forma adjustment is as follows:

| | Total 2022 KWH | 2022 Rate per KWH | 2022 Rate per KWH | Change in Rate | Proforma Change in Electric Supply Costs |
|------------------------------------|----------------|-------------------|-------------------|----------------|--|
| PWW Electric G Accounts Total KWH | 2,795,629 | \$ 0.09020 | \$ 0.09599 | \$ 0.00579 | \$ 16,187 |
| PWW Electric GV Accounts Total KWH | 9,955,026 | \$ 0.09100 | \$ 0.09599 | \$ 0.00499 | \$ 49,676 |
| | | | | | \$ 65,862 |

Therefore:

\$ 65,862

D. Adjustment to electrical expense associated with 5 Year Average Flows

| | Total 2022 KWH | % Change | Change in KWH | 2023 Rate per KWH | Proforma Change in Electric Supply Costs |
|------------------------------------|----------------|----------|---------------|-------------------|--|
| PWW Electric G Accounts Total KWH | 2,795,629 | -5.18% | (144,912) | \$ 0.09599 | \$ (13,910) |
| PWW Electric GV Accounts Total KWH | 9,955,026 | -10.70% | (1,064,778) | \$ 0.09599 | \$ (102,208) |
| | | | | | <u>\$ (116,118)</u> |

Therefore:

\$ (116,118)

E. Effective January 1, 2022 the cost for chemicals at the water treatment plant changed:

The calculation of the pro form adjustment is as follows:

| Chemical | 2022 Unit Cost | 2023 Unit Cost | Change in Chemical cost from 2022 to 2023 | Percentage Change in Price from 2022 to 2023 | 2022 WTP Chemical Costs | Proforma Change in WTP Chemical Costs based Unit Price Change |
|----------------------------|----------------|----------------|--|--|-------------------------|---|
| 50% Caustic Soda pH adjust | \$ 0.4075 | \$ 0.4063 | \$ (0.0012) | -0.29% | \$ 608,017 | \$ (1,790) |
| Ferric Chloride | \$ 0.3660 | \$ 0.5680 | \$ 0.2020 | 55.19% | \$ 671,078 | \$ 370,376 |
| Polymer | \$ 2.1360 | \$ 2.1360 | \$ - | 0.00% | \$ 19,084 | \$ - |
| Sodium Hypochlorite | \$ 0.1244 | \$ 0.1937 | \$ 0.0693 | 55.71% | \$ 89,963 | \$ 50,116 |
| Zinc Ortho-phosphate | \$ 0.9000 | \$ 1.1486 | \$ 0.2486 | 27.62% | \$ 88,242 | \$ 24,374 |
| TKPP | \$ 2.7600 | \$ 3.1700 | \$ 0.4100 | 14.86% | \$ 63,776 | \$ 9,474 |
| | | | Total Proformed Change in WTP Chemical Costs | - | | <u>\$ 452,550</u> |

Therefore:

\$ 452,550

F. Adjustment to chemical costs associated with 5 Year Average Flows

| | 2022 WTP and CWS Proforma Chemical Costs | Percentage Change in WTP/CWS Pumpage (5 Yr Ave to 2022) | Proformed Change in WTP Chemical Costs based on 5 Yr Ave |
|-------------------------------|--|---|--|
| Total 2022 WTP Chemical Costs | \$ 2,013,417 | -10.70% | \$ (215,353) |
| Total 2022 CWS Chemical Costs | \$ 14,346 | -5.18% | \$ (744) |

Therefore:

\$ (216,096)

TOTAL PRODUCTION EXPENSE PRO FORMA:

\$ 615,960 \$ (274,277)

I. Salaries¹

During the test year and subsequent year, the Company experienced hirings, terminations and salary increases for administrative and general non-union personnel per Schedule 1, Attachment G, Page 2 is as follows:
The impact of the changes on base salaries are summarized below by department:

| | | | |
|------------------------|----|-----------|------------------|
| 2023 Estimated Expense | \$ | 1,723,609 | |
| 2022 Actual Expense | \$ | 1,646,757 | |
| Additional expense | \$ | 76,852 | |
| Therefore: | | | \$ 76,852 |

II. Benefit Allocation¹

To reflect the benefits costs associated with the increase in payroll, summarized on Schedule 1B.

| | Non-Union | Union | Total | |
|-----------------------|------------|-----------|------------|------------------|
| Payroll Pro Forma | \$ 105,900 | \$ 72,386 | \$ 178,286 | |
| Benefits Pro Forma | 48.97% | 63.74% | | |
| Benefits \$ Pro Forma | \$ 51,859 | \$ 46,139 | \$ 97,998 | |
| Therefore: | | | | \$ 97,998 |

III. Regulatory Commission Expense²

In 2022, the Company recorded regulatory commission expense based on quarterly assessments. Based on the latest assessment, the Company expects to incur higher levels in 2023 as follows:

| | | | |
|--|----|---------|-----------------|
| Unaudited Actual 2023 NHPUC Fiscal Yr Assessment | \$ | 180,540 | |
| 2022 Regulatory Expense | \$ | 176,174 | |
| Additional Projected 2022 Expense | \$ | 4,366 | |
| Therefore: | | | \$ 4,366 |

IV. Pension Expense¹

In 2022, the Company is expecting a decrease in pension expenses and health retirement plans based on actuarial valuation. The pro forma adjustment to reflect the increased costs is as follows:

| | Pension | Health Retirement | |
|---------------------|--------------|-------------------|---------------------|
| 2023 Budget Expense | \$ 1,403,976 | \$ 259,428 | |
| 2022 Actual Expense | \$ 1,621,243 | \$ 495,750 | |
| Additional Expense | \$ (217,267) | \$ (236,322) | |
| Therefore: | | | \$ (453,589) |

V. Insurance²

In 2023, the Company is expecting an increase in insurance expenses. The pro forma adjustment to reflect the increased costs is as follows:

| | | | |
|---------------------------------|----|---------|------------------|
| Budgeted 2023 Insurance Expense | \$ | 757,476 | |
| 2022 Actual Insurance Expense | \$ | 660,286 | |
| Additional Insurance Expense | \$ | 97,190 | |
| Therefore: | | | \$ 97,190 |

VI. Group Health Insurance²

In 2023, the Company is expecting an increase in Group Health care costs reflective of the full time employees added during 2021 and 2022 per Sch1, Attach G, Pg 3 and a change in premium.

| | | |
|--|---------------------|-------------------|
| 2023 Budgeted Group Health Insurance Expense | \$ 2,558,854 | |
| 2022 Actual Group Health Insurance Expense | <u>\$ 2,089,820</u> | |
| Therefore: | <u>\$ 469,034</u> | \$ 469,034 |

VII. Group Dental Insurance²

In 2023, the Company is expecting an increase in Group Dental Insurance costs reflective of the full time employees added during 2022 and 2023 as well as a change in the the Company premium.

| | | |
|--|-------------------|-----------------|
| 2023 Budgeted Dental Insurance Expense | \$ 241,039 | |
| 2022 Actual Dental Insurance Expense | <u>\$ 232,819</u> | |
| Therefore: | <u>\$ 8,220</u> | \$ 8,220 |

TOTAL ADMINISTRATIVE & GENERAL PRO FORMA: \$ 300,071

1. Changes in Salary, Benefit, Pension, Early Retirement, Computer Maintenance and Outside Services expense are shared with the affiliate Companies through the management fee allocation per Sch 1 Attach H

Schedule 1
Attachment H

I. Management Fee Allocated to Affiliates (Rule 1601.01, Section 26)

A. Schedule 1B reflects the payroll pro forma adjustment. Per the management fee (1604.01 Section 26) the allocation to affiliates, including benefits, is as follows:

| | | |
|--|--------|-----------|
| Non Union O&M Payroll Pro Forma | \$ | 105,900 |
| Benefits Pro Forma | \$ | 51,859 |
| Total Pro Forma | \$ | 157,759 |
| % Allocated to Allocated to Affiliates | 27.23% | \$ 42,958 |

Therefore: **\$ (42,958)**

B. In 2023, the Company is expecting a decrease in pension expenses and health retirement plans based on actuarial valuation. The pro forma adjustment to reflect the increased costs is as follows:

| | | | Pension | | Health Retirement |
|---------------------------|--------|-------------|---------|----|-------------------|
| 2023 Budgeted Expense | \$ | 1,403,976 | | \$ | 259,428 |
| 2022 Actual Expense | \$ | 1,621,243 | | \$ | 495,750 |
| Additional Expense | \$ | (217,267) | | \$ | (236,322) |
| % Allocated to Affiliates | 27.23% | \$ (59,162) | | \$ | (64,351) |

Therefore: **\$ 123,512**

C. In 2023, the Company is expecting an increase in insurance expenses. The pro forma adjustment to reflect the decreased costs is as follows:

| | | |
|------------------------------|--------|-----------|
| 2023 Budgeted Expense | \$ | 757,476 |
| 2022 Actual Expense | \$ | 660,286 |
| Additional Insurance Expense | \$ | 97,190 |
| % Allocated to Affiliates | 27.23% | \$ 26,465 |

Therefore: **\$ (26,465)**

D. In 2022, the Company is expecting an increase in Group Health Care expenses as follows:

| | | |
|---------------------------|--------|------------|
| 2023 Budgeted Expense | \$ | 2,558,854 |
| 2022 Actual Expense | \$ | 2,089,820 |
| | \$ | 469,034 |
| % Allocated to Affiliates | 27.23% | \$ 127,718 |

Therefore: **\$ (127,718)**

E. In 2022, the Company is expecting an increase in Group Dental Insurance expenses as follows:

| | | |
|---------------------------|--------|----------|
| 2023 Budgeted Expense | \$ | 241,039 |
| 2022 Actual Expense | \$ | 232,819 |
| | \$ | 8,220 |
| % Allocated to Affiliates | 27.23% | \$ 2,238 |

Therefore: **\$ (2,238)**

(1) The annual interest expense is calculated based on the outstanding balance at year end multiplied by the stated interest rate. The calculated interest expense will differ from interest expense recorded in the test year due to loan repayments made during the year. Additionally, SRF/ARRA interest rates are given a provisional interest rate of 1% until the final rate has been determined and this condition may create differences between calculated and booked interest rates.

(2) Principal payment shown is net of debt principal forgiveness

(3) Portion of Annual Principal and interest payments for debt associated with plant placed in service between 1/1/2022 and 12/31/2022 based on a 35 year bond with an actual total all in interest rate of 5.005716% Average Coupon rate as the all-in TIC (Total Interest Cost) for the \$ 5,930,000 Principal PMT (\$65,578) Interest PMT (\$296,839)

(1) The annual interest expense is calculated based on the outstanding balance at year end multiplied by the stated interest rate. The calculated interest expense will differ from interest expense recorded in the test year due to loan repayments made during the year.

Additionally, SRF/ARRA interest rates are given a provisional interest rate of 1% until the final rate has been determined and this condition may create differences between calculated and booked interest rates.

(2) Principal payment shown is net of debt principal forgiveness

(3) Portion of Annual Principal and interest payments for debt associated with plant placed in service between 1/1/2022 and 12/31/2022 35 year bond with an actual total all in interest rate ##### Average Coupon rate as the all-in TIC (Total Interest Cost) for # \$ 5,930,000 Principal PMT (\$65,578) Interest PMT (\$296,839)

RATE SCHEDULE
GENERAL SERVICE - METERED
SCHEDULE G-M

Availability:

The rate is available for metered water service in the franchised area subject to the terms and conditions of this tariff.

Character of Service:

Nashua Core System: Water is fully treated, filtered, and purified and is transmitted by gravity and pumps to the individual service pipes.

Community Water Systems: Water is ground water from a well site. Water quality meets or exceeds all federal and state standards for drinking water. Outdoor use of water may be restricted during dry summer periods.

Rate:

A minimum customer charge shall be made for each customer whom service is rendered under this tariff, based on the meter size shown below:

| Meter Size | Monthly Customer Charge |
|---|-------------------------------------|
| 5/8" | \$ 26.90 29.02 |
| 3/4" | 38.94 43.52 |
| 1" | 62.70 72.54 |
| 1" meter with private residential fire service ¹ | 39.26 32.70 |
| 1 1/2" | 122.24 145.08 |
| " | 200.10 232.13 |
| 3" | 366.95 464.26 |
| 4" | 605.23 725.40 |
| 6" | 1,200.93 1,450.80 |
| 8" | 1,915.95 2,321.29 |
| 10" | 2,749.94 |

1. This rate is grandfathered to single-family residential homes that have a single service with a single curb stop and a 1" meter to allow the passage of fire flows for a single-family residential sprinkler system. The rate for this class will be the tarified rate of a 5/8" meter and a private 1 1/2" fire service. This is grandfathered to homes that had this type of service prior to 12/31/2018.

Volumetric:

In addition to the standard customer charge, the monthly volumetric charge based on usage will be as follows:

Core Volumetric Charge: ~~\$4.39~~**5.272** per 100 cu. Ft.

Non Core Volumetric Charge: **\$6.326 per 100 cu. Ft.**

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on the water bill.

Issued: ~~October 16, 2023~~**November 21, 2023**

Issued by: Donald L. Ware

Effective: ~~November 24, 2023~~**Janaury 1, 2025**

Title: Chief Operating Officer

RATE SCHEDULE
MUNICIPAL FIRE PROTECTION
SERVICE SCHEDULE FP-M

Availability: This rate is applicable to general fire protection.

Character of Service:

The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water.

Rate:

The charge shall be made up of two parts as follows:

1) Hydrant charge

For each hydrant connected to the distribution system

~~Current~~^{All Groups}
Rate
\$ ~~28.20~~ ^{35.09}
per month

2) Inch-Foot Charge

The number of "inch-foot" nits in the distribution system is to be obtained by multiplying the number of linear feet of pipe of each diameter (4" and larger) by the diameter in inches. The total number of "inch-foot" units in the distribution system will be determined as of January 1st each year, and will be the base for computing the "inch-foot" charge for the entire year with one-fourth to be billed each quarter or one-twelfth to be billed each month.

Charge for each "inch-foot" unit to be

~~Current~~^{Group 1}
Rate
\$ ~~0.19463~~ ²³²⁴⁷ per year

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on the water bill.

Title: Chief Operating Officer

Authorized by NHPUC Order No. ~~26,862~~ in Docket No. DW ~~22-032~~ dated ~~July 27, 2023~~ and NHPUC Order No. ~~26,425~~ in Docket No. DW ~~19-084~~ dated ~~November 24, 2020~~.

RATE SCHEDULES
PRIVATE FIRE PROTECTION SERVICE
SCHEDULE FP-NM

Availability:

This rate is available for private fire protection and sprinkler service subject to the Private Fire Protection Regulations of paragraph 31 of this tariff.

Character of Service:

The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or waste or unlawful use of water.

Rate:

The charge shall be determined by the size of the fire service tap to the property as follows:

| | <u>Monthly Customer Charge</u> |
|--------------------------|-----------------------------------|
| 1 1/2" connections | \$ 11.18 3.68 |
| 2" connections | 26.62 7.85 |
| 3" connections | 44.69 22.79 |
| 4" connections | \$ 106.53 48.57 |
| 6" connections | 178.75 141.08 |
| 8" or larger connections | 263.19 336.25 |

Terms of Payment:

Bills under this rate are net; will be rendered monthly and are due and payable at the office of the Company on the due date as stated on water bill.

Superseding Original Page 45A

GENERAL SERVICE – METERED
TOWN OF PITTSFIELD FIRE DEPARTMENT
SCHEDULE GM

Application:

This schedule is applicable to metered water service for the Fire Department in the Town of
Pittsfield, NH.

Character of Service:

Service shall consist of the production, treatment, and distribution of water for all residential,
commercial and industrial requirements of customers whose premises abut any public street, road or way in
which the Company has mains; provided, however, that such service shall only be rendered pursuant to the
Terms and Conditions prescribed in other sections of this Tariff and the Rules of the New Hampshire Public
Utilities Commission for Water Service.

Rates:

The Fire Department for the Town of Pittsfield shall be charged only for usage over 14 ccf of water per month.
There will be no charge for the monthly customer charge.

Volumetric Rate:

The volumetric charge based on usage over 14 ccf shall be:

Volumetric Charge: ~~\$6.83~~ **6.326** per 100 cu. ft.

Terms of Payments:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of
the Company on the due date as stated on water bill.

Issued: ~~March 25, 2022~~ **November 21, 2023**

Issued by: Donald L. Ware

Effective: ~~March 25, 2022~~ **January 1, 2205**

Title: Chief Operating Officer

Authorized by NHPUC Order No. ~~26,597~~ in Docket No. ~~DW-21-134~~, dated ~~March 25, 2022~~.

RATE SCHEDULE
GENERAL SERVICE – NON-METERED

Pennichuck Water Works, Inc. (PWW) will charge current unmetered customers a monthly rate as specified below based on the average single family residential usage as specified below until such time as meters are installed.

Commercial, Industrial, and Private Fire Protection customers will be charged an average rate as calculated for a similar customer in PWW.

PWW will make every effort to install meters in a timely manner and in no such case should these rates remain in force for more than a twelve month period.

| | <u>Current Rate</u> |
|-----------------------------------|--|
| 5/8 inch Meter Charge | \$ 26.90 29.02 |
| Volumetric Charge | \$ 4.39 5.272 |
| Average Single Family Residential | 7.76 61 CCF \$ 34.07 40.12 |
| Total Monthly Charge | \$ 60.97 69.14 |
| Annually | \$ 731.64 829.64 |

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date stated on the water bill.

SCHEDULE FIRE PROTECTION – METERED
LONDONDERRY**

Availability:

The rate is applicable to all municipal fire protection service rendered in the Company’s service areas for purposes of public safety, where such service is paid for from tax revenues by and of the Town.

Character of Service:

The Town shall notify the Company, in writing, of an appropriate vote by the governing body of the city, town, village or other political subdivision stating where hydrants are to be placed. Such notification must be received by the Company before the installation of any hydrant affected has begun. The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water. The installation and maintenance of fire hydrants, and the supplying of water through such hydrants, is for the sole use of authorized fire fighting personnel for the control and extinguishment of any fire, or for any other use authorized by the Company.

Rate:

The charge shall be made up of the following by town:

1. Monthly Hydrant Charge

For each fire hydrant installed, payable in advance, from the month of installation.

**Current
Rate
\$35.09**

2. Inch-Foot Charge

The number of “inch-foot” units in the distribution system is to be obtained by multiplying the number of linear feet of pipe of each diameter (6” and larger) by the diameter in inches. The total number of “inch-foot” units in the distribution system will be determined as of January 1st each year and will be the base for computing the “inch- foot” charge for the entire year with one-fourth to be billed each quarter or one-twelfth to be billed each month.

Charge for each “inch-foot” unit to be

**Current
Rate
\$0.12915per year**

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on water bill.

Special Provisions:

All hydrants, lead valves, branches and other appurtenances shall be and remain the property of the Company.

RATE SCHEDULE
GENERAL SERVICE - METERED
SCHEDULE G-M

Availability:

The rate is available for metered water service in the franchised area subject to the terms and conditions of this tariff.

Character of Service:

Nashua Core System: Water is fully treated, filtered, and purified and is transmitted by gravity and pumps to the individual service pipes.

Community Water Systems: Water is ground water from a well site. Water quality meets or exceeds all federal and state standards for drinking water. Outdoor use of water may be restricted during dry summer periods.

Rate:

A minimum customer charge shall be made for each customer whom service is rendered under this tariff, based on the meter size shown below:

| Meter Size | Monthly Customer Charge |
|---|-------------------------|
| 5/8" | \$ 29.02 |
| 3/4" | 43.52 |
| 1" | 72.54 |
| 1" meter with private residential fire service ¹ | 32.70 |
| 1 1/2" | 145.08 |
| " | 232.13 |
| 3" | 5464.26 |
| 4" | 725.40 |
| 6" | 1,450.80 |
| 8" | 2,321.29 |

1. This rate is grandfathered to single-family residential homes that have a single service with a single curb stop and a 1" meter to allow the passage of fire flows for a single-family residential sprinkler system. The rate for this class will be the tarified rate of a 5/8" meter and a private 1 1/2" fire service. This is grandfathered to homes that had this type of service prior to 12/31/2018.

Volumetric:

In addition to the standard customer charge, the monthly volumetric charge based on usage will be as follows:

| | |
|-----------------------------|-------------------------|
| Core Volumetric Charge: | \$5.272 per 100 cu. Ft. |
| Non Core Volumetric Charge: | \$6.326 per 100 cu. Ft. |

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on the water bill.

MUNICIPAL FIRE PROTECTION
SERVICE SCHEDULE FP-M

Availability: This rate is applicable to general fire protection.

Character of Service:

The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water.

Rate:

The charge shall be made up of two parts as follows:

1) Hydrant charge

For each hydrant connected to the distribution system

All Groups

Rate

\$ 35.09

per month

2) Inch-Foot Charge

The number of "inch-foot" nits in the distribution system is to be obtained by multiplying the number of linear feet of pipe of each diameter (4" and larger) by the diameter in inches. The total number of "inch-foot" units in the distribution system will be determined as of January 1st each year, and will be the base for computing the "inch-foot" charge for the entire year with one-fourth to be billed each quarter or one-twelfth to be billed each month.

Charge for each "inch-foot" unit to be

Group 1

Rate

\$ 0.23247 per year

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on the water bill.

Group 1 – City of Nashua, Town of Merrimack

PERMANENT
RATE SCHEDULE

MUNICIPAL FIRE PROTECTION SERVICE
SCHEDULE FIRE PROTECTION – METERED
LONDONDERRY

Availability:

The rate is applicable to all municipal fire protection service rendered in the Company’s service areas for purposes of public safety, where such service is paid for from tax revenues by and of the Town.

Character of Service:

The Town shall notify the Company, in writing, of an appropriate vote by the governing body of the city, town, village or other political subdivision stating where hydrants are to be placed. Such notification must be received by the Company before the installation of any hydrant affected has begun. The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or the waste or unlawful use of water. The installation and maintenance of fire hydrants, and the supplying of water through such hydrants, is for the sole use of authorized fire fighting personnel for the control and extinguishment of any fire, or for any other use authorized by the Company.

Rate:

The charge shall be made up of the following by town:

1. Monthly Hydrant Charge

For each fire hydrant installed, payable in advance, from the month of installation.

Current
Rate
\$35.09

2. Inch-Foot Charge

The number of “inch-foot” units in the distribution system is to be obtained by multiplying the number of linear feet of pipe of each diameter (6” and larger) by the diameter in inches. The total number of “inch-foot” units in the distribution system will be determined as of January 1st each year and will be the base for computing the “inch- foot” charge for the entire year with one-fourth to be billed each quarter or one-twelfth to be billed each month.

Charge for each “inch-foot” unit to be

Current
Rate
\$0.12915per year

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on water bill.

INDEPENDENT AUDITOR'S REPORT

Board of Directors and Stockholder
Pennichuck Corporation and Subsidiaries

Opinion

We have audited the accompanying consolidated financial statements of Pennichuck Corporation and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2022 and 2021, and the related consolidated statements of income (loss), comprehensive income (loss), changes in stockholder's equity (deficit), and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Pennichuck Corporation and Subsidiaries as of December 31, 2022 and 2021, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United State of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of Pennichuck Corporation and Subsidiaries, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Merrimack, New Hampshire
Andover, Massachusetts
Greenfield, Massachusetts
Ellsworth, Maine

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pennichuck Corporation and Subsidiaries' ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pennichuck Corporation and Subsidiaries' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pennichuck Corporation and Subsidiaries' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

PENNICHUCK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

1. Description of Business and Summary of Significant Accounting Policies

Description of Business

Pennichuck Corporation (“the Company,” “we,” or “our”) is a holding company headquartered in Nashua, New Hampshire with five wholly owned operating subsidiaries: Pennichuck Water Works, Inc., (“Pennichuck Water”) Pennichuck East Utility, Inc., (“Pennichuck East”) and Pittsfield Aqueduct Company, Inc. (“PAC”) (collectively referred to as the Company’s “utility subsidiaries”), which are involved in regulated water supply and distribution to customers in New Hampshire; Pennichuck Water Service Corporation (“Service Corporation”) which conducts non-regulated water-related services; and The Southwood Corporation (“Southwood”) which has historically owned several parcels of undeveloped land.

The Company’s utility subsidiaries are engaged principally in the collection, storage, treatment and distribution of potable water to approximately 39,000 customers throughout the State of New Hampshire. The utility subsidiaries, which are regulated by the New Hampshire Public Utilities Commission (the “NHPUC”), are subject to the provisions of Accounting Standards Codification (“ASC”) Topic 980 “*Regulated Operations*.”

Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Consolidated Financial Statements

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property, Plant and Equipment

Property, plant and equipment, which includes principally the water utility assets of the Company's utility subsidiaries, is recorded at cost plus an allowance for funds used during construction on major, long-term projects and includes property funded with contributions in aid of construction.

Maintenance, repairs and minor improvements are charged to expense as incurred. Improvements which significantly increase the value of property, plant and equipment are capitalized.

Cash and Cash Equivalents

Cash and cash equivalents generally consist of cash, money market funds and other short-term liquid investments with original maturities of three months or less.

Restricted Cash – RSF

This restricted cash balance consists of funds maintained for the Rate Stabilization Funds ("RSF"), which was initially established in conformity with the requirements of NHPUC Order No. 25,292, as explained more fully in Note 14 of these consolidated financial statements. The RSF is a set of imprest funds of \$5 million in the aggregate, which is subject to funding above or below the imprest fund balance, reflecting actual revenue and/or expense performance as it relates to prescribed revenue and specific expense levels supported by the RSF. The excess or deficient amount (versus the \$5 million imprest balances) is subject to return or collection to rate payers over the succeeding three-year period of time, as of the rate order issued with the next promulgated rate case filing. On November 7, 2017, the NHPUC approved and issued Order No. 26,070 which established new rates for Pennichuck Water. In addition, the rate order then authorized the reallocation of the initial and existing \$5,000,000 RSF among the Company's utility subsidiaries. Such that, Pennichuck Water's allocated share of the RSF funds would now be \$3,920,000, with the remaining balance of \$1,080,000 to be allocated between Pennichuck East and PAC. Rate order No. 26,179, under docket DW 17-128 then allocated \$980,000 of the \$1,080,000 to Pennichuck East with the remaining \$100,000 to PAC (for which the approval to allocate these funds to PAC was approved in November 2021 with rate order No. 26,544, in docket DW 20-153). The purpose for splitting and allocating the original RSF funds amongst the regulated subsidiary companies was to provide additional reserves at the individual entity level, which would aid in ensuring sufficient capital reserve funds are available to each entity Company, to support its operations. For the years ended December 31, 2022 and 2021, the aggregated balances in the RSFs and restricted cash accounts were approximately \$10.8 million and \$11.6 million, respectively.

Restricted Cash – CIAC

This restricted cash balance consists of funds maintained for the income tax impact from Contributions in Aid of Construction (“CIAC”), which was established in conformity with the NHPUC approval provided to the Company’s regulated utilities on November 27, 2019. This amendment to the Company’s tariffs allows for the recovery from developers and other CIAC contributors, the tax costs needed to fully fund the associated tax liability created from the elimination of an exemption whereby CIAC to water utilities was exempt from taxation, was eliminated with the passage of the Tax Cuts and Jobs Act of 2017 (“the TCJA”). The Infrastructure Investment and Jobs act of 2021 retroactively made CIAC non-taxable for federal tax, reversing the effect federally of the TCJA, whereas the taxation of CIAC for NH Business Profits Taxes remained in effect. Subsequently, in April 2022, legislation was passed in New Hampshire to reinstate the non-taxability of water utility CIAC for Business Profits Taxes. As such, the Company was able to cease collection of these taxes for both Federal and State purposes, after effective dates that the exemptions were reinstated. For the years ended December 31, 2022 and 2021, the balances in this restricted cash account were approximately \$134,000 and \$1.0 million, respectively. In accordance with the amended tariffs, these funds are the first used to pay for income tax liability payments incurred by the Company, when and if actually incurred.

Restricted Cash – Bond Project Funds

This restricted cash balance consists of funds remaining from the issuance or funding of semiannual debt service requirements of the Series 2014, 2019, 2020, 2021 and 2022 tax-exempt bonds (the “Bonds”) in December of 2014, April of 2019, April and August of 2020, and April 2021 and April 2022, respectively. The proceeds from those bond issuance transactions are maintained in separate restricted cash accounts, with Trustee oversight, and are subject to withdrawal as a reimbursement of eligible capital project expenditures for the years 2014 through 2022, as defined by the indenture and issuance documents associated with each offering. The restricted cash accounts are also used as a “conduit” for the transfer of money from operating cash to restricted cash, allowing the Trustee to make the required payments to bondholders for principal and interest due semi-annually.

As of December 31, 2021, the funds in these restricted cash accounts totaled approximately \$255,000. During 2022, approximately \$258,000 was withdrawn from the restricted cash accounts to make the principal and interest payments for the Bonds, on January 1, July 1 and October 1. In December 2022, approximately \$222,000 was transferred into these restricted cash accounts from the Company’s operating cash accounts, to provide the funds needed to make the net principal and interest payments due on January 1, 2023 for the Bonds. As of December 31, 2022, the funds in these restricted cash accounts totaled approximately \$219,000.

Concentration of Credit Risks

Financial instruments that subject the Company to credit risk consist primarily of cash (including cash equivalents and restricted cash) and accounts receivable. Cash balances are invested in financial institutions insured by the Federal Deposit Insurance Corporation ("FDIC"). At December 31, 2022 and 2021, the Company had approximately \$14,000,000 and \$14,500,000 in excess of FDIC insured limits, respectively. Our accounts receivable balances primarily represent amounts due from the residential, commercial and industrial customers of our regulated water utility operations, as well as receivables from our Service Corporation customers.

Accounts Receivable – Billed, Net

Water utility accounts receivable (regulated) are recorded at invoiced amounts.

Non-regulated accounts receivable are recorded based upon contracted prices when the Company obtains an unconditional right to payment under the terms of the contract.

The allowance for doubtful accounts is our best estimate of the amount of probable credit losses in our existing accounts receivable and is determined based on historical write-off experience and the aging of account balances. We review the allowance for doubtful accounts quarterly. Account balances are written off against the allowance when it is probable the receivable will not be recovered.

Accounts Receivable – Unbilled, Net

We read our customer meters on a monthly basis and record revenues based on meter reading results. Information from the last meter reading date is used to estimate the value of unbilled revenues through the end of the accounting period. Estimates of water utility revenues for water delivered to customers but not yet billed are accrued at the end of each accounting period. Actual results could differ from those estimates.

Inventory

Inventory is stated at the lower of cost or net realizable value, cost being determined using the average cost method which approximates the first-in, first-out (FIFO) method.

Deferred Charges and Other Assets

Deferred charges include certain regulatory assets and other assets. Regulatory assets are amortized over the periods they are recovered through NHPUC-authorized water rates. The Company's utility subsidiaries have recorded certain regulatory assets in cases where the NHPUC has permitted, or is expected to permit, recovery of these costs over future periods. Currently, the regulatory assets are being amortized over periods ranging from 2 to 25 years.

Unamortized Debt Issuance Costs

Unamortized debt issuance costs are amortized over the original term of the related bonds and notes. The Company's utility subsidiaries have recorded unamortized debt issuance costs in cases where the NHPUC has permitted, or is expected to permit, recovery of these costs over future periods. The debt issuance costs are being amortized over the original lives of the associated debt.

Contributions in Aid of Construction

Under construction contracts with real estate developers and others, the Company's utility subsidiaries may receive non-refundable grants or advances for the cost of installing new water mains or other capital assets. These grants or advances are recorded as CIAC. The Company's utility subsidiaries also record to plant and CIAC the fair market value of developer installed mains and any excess of fair market value over the cost of community water systems purchased from developers. CIAC are amortized over the life of the related properties.

Paycheck Protection Program Loan

The Company accounted for its Paycheck Protection Program (PPP) loan in accordance with the guidelines established by the Financial Accounting Standards Board (FASB) ASC 470, "Debt". The guidance required the Company to account for the proceeds from the PPP loan as debt and apply interest considering the ten-month interest payment deferral allowed for the loan. The Company elected to report the PPP loan as long-term debt until forgiveness was received or denied.

Revenue Recognition – Regulated Entities

Standard charges for water utility services to customers are recorded as revenue, based upon meter readings and contract service, as services are provided. The majority of the Company's water revenues are based on rates approved by the NHPUC. Estimates of unbilled service revenues are recorded in the period the services are provided. Provision is made in the consolidated financial statements for estimated uncollectible accounts.

Revenue Recognition – Non-Regulated Entities

The Company derives its non-regulated revenues primarily from water management services which include contract operations and maintenance, and water testing and billing services to municipalities and small, privately owned community water systems. Revenue is measured based on consideration specified in contracts with customers. The Company recognizes revenue when it satisfies performance obligations under the terms of the contract which generally occurs with the transfer of control of the services to the customer. Revenues from unplanned additional work are based upon time and materials incurred in connection with activities not specifically identified in the contract, or for which work levels exceed contracted amounts.

Revenues from real estate operations, other than undistributed earnings or losses from equity method joint ventures, are recorded upon completion of a sale of real property. The Company's real estate holdings outside of the Company's utility subsidiaries are comprised primarily of undeveloped land.

The Company does not have any significant financing components as payment is received at or shortly after the point of sale.

Contract Combination

To determine the proper revenue recognition method for contracts, the Company evaluates whether two or more contracts should be combined and accounted for as one single contract and whether the combined or single contract should be accounted for as more than one performance obligation. This evaluation requires significant judgment and the decision to combine a group of contracts or separate a combined or single contract into multiple performance obligations could change the amount of revenue and profit recorded in a given period. Contracts are considered to have a single performance obligation if the promise to transfer the individual goods or services is not separately identifiable from other promises in the contracts, which is mainly because the Company provides a significant service of integrating a complex set of tasks and components into a single project or capability.

For contracts with multiple performance obligations, the Company allocates the transaction price to each performance obligation using management's best estimate of the standalone selling price of each distinct good or service in the contract. In cases where the Company does not provide the distinct good or service on a standalone basis, the primary method used to estimate standalone selling price is the expected cost plus a margin approach, under which management forecasts the Company's expected costs of satisfying a performance obligation and then adds an appropriate margin for that distinct good or service.

Performance Obligations

For performance obligations related to operations, planned maintenance, and water testing and billing services, control transfers to the customer over time as the services are provided. These services are sold primarily to municipalities or small, privately owned community water systems. The majority of the Company's unplanned maintenance contracts are billed on a time and materials basis and revenue is recognized over time as the services are performed. The majority of the Company's operations, planned maintenance, and water testing and billing contracts are billed on a fixed price basis. For fixed price contracts, the Company measures its progress towards complete satisfaction of the performance obligation using a time-based measure. This method is used because management considers time elapsed to be the best available measure of progress on contracts.

Contract Estimates and Modifications

Due to the nature of the work required to be performed on many of the Company's performance obligations, the estimation of total revenue and cost at completion is complex, subject to many variables and requires significant judgment.

As a significant change in one or more of these estimates could affect the profitability of the Company's contracts, management reviews and updates the Company's contract-related estimates regularly through a Company-wide project review process in which management reviews the progress and execution of the Company's performance obligations and the estimate at completion. As part of this process, management reviews information including, but not limited to, any outstanding key contract matters, progress towards completion and the related program schedule, and the related changes in estimates of revenues and costs. Management must make assumptions and estimates regarding labor productivity and availability, the complexity of the work to be performed, the cost and availability of materials, among other variables.

The Company recognizes adjustments in estimated profit on contracts under the cumulative catch-up method. Under this method, the impact of the adjustment on profit recorded to date is recognized in the period the adjustment is identified. Revenue and profit in future periods of contract performance is recognized using the adjusted estimate. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, the Company recognizes the total loss in the period it is identified.

Variable Consideration

Variable consideration is estimated at the most likely amount to which the Company is expected to be entitled. Any variable consideration is included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration and the determination of whether to include estimated amounts in the transaction price are based largely on assessments of legal enforceability, the Company's performance, and all information (historical, current, and forecasted) that is reasonably available to management.

Variable consideration is allocated entirely to a performance obligation or to a distinct good or service within a performance obligation if it relates specifically to efforts to satisfy the performance obligation or transfer the distinct good or service, and the allocation depicts the amount of consideration the Company expects to be entitled.

Significant Judgments

The Company recognizes contract revenue for financial reporting purposes over time. Progress toward completion of the Company's contracts is measured using a time-based criterion for each contract and requires significant judgment. This method is used because management considers time-elapsed to be the best available measure of progress on contracts.

Contract Assets and Liabilities

Billing practices are governed by the contract terms of each project based upon achievement of milestones or pre-agreed schedules. Billings do not necessarily correlate with revenue recognized using a time-elapsed method of revenue recognition. Contract assets include unbilled amounts typically resulting from revenue under long-term contracts when the time-elapsed method of revenue recognition is utilized and revenue recognized exceeds the amount billed to the customer, and right to payment is not unconditional. Contract liabilities consist of deferred revenue.

Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period. The Company classifies deferred revenue as current or noncurrent based on the timing of when revenue is expected to be recognized. The current portion of deferred revenue is included in current liabilities in the Consolidated Balance Sheets.

Practical Expedients

The Company generally expenses pre-contract costs when incurred because the amortization period would have been one year or less.

Leases

The Company is the lessee in several noncancellable operating leases, for corporate office space and other office equipment. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right-of-use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate. The Company generally does not have access to the rate implicit in the lease, and therefore the Company utilizes its incremental borrowing rate as the discount rate for real estate and the risk-free rate as the discount rate for office equipment at the lease commencement date for all classes of underlying assets. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease cost for operating lease payments is recognized on a straight-line basis over the lease term. Lease cost for finance lease payments is recognized on a straight-line basis over the lease term for the ROU asset amortization plus interest expense for the period.

The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease cost associated with short-term leases on a straight-line basis over the lease term. The Company made an accounting policy election by class of underlying asset, for office equipment, to account for each separate lease component of a contract and its associated non-lease components (lessor-provided maintenance) as a single lease component.

Income Taxes

Income taxes are recorded using the accrual method and the provision for federal and state income taxes is based on income reported in the consolidated financial statements, adjusted for items not recognized for income tax purposes. Provisions for deferred income taxes are recognized for accelerated depreciation and other temporary differences. A valuation allowance is provided to offset any net deferred tax assets if, based upon available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Investment tax credits previously realized for income tax purposes are amortized for financial statement purposes over the life of the property, giving rise to the credit.

Adoption of New Accounting Standards

Effective January 1, 2022, the Company adopted FASB ASC 842, *Leases*. The Company determines if an arrangement contains a lease at inception based on whether the Company has the right to control the asset during the contract period and other facts and circumstances. The Company elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allowed it to carry forward the historical lease classification. The Company elected the short-term lease recognition exemption for all leases that qualify. Consequently, for those leases that qualify, the Company will not recognize right-of-use assets or lease liabilities on the consolidated balance sheet. The Company generally does not have access to the rate implicit in the lease, and therefore the Company utilizes its incremental borrowing for real estate and the risk-free rate for office equipment as the discount rate.

Adoption of ASC 842 resulted in the recognition of ROU assets of \$5,400,762 and operating lease liabilities of \$5,400,762 as of January 1, 2022. Results for periods beginning prior to January 1, 2022 continue to be reported in accordance with the Company's historical accounting treatment. Adoption of ASC 842 did not have a material impact on the Company's results of operations and cash flows. See Note 7.

See *Summary of Significant Accounting Policies, Leases*, above for further discussion of the effects of adopting ASC 842 on our significant accounting policies.

2. Property, Plant and Equipment

The components of property, plant and equipment as of December 31, 2022 and 2021 were as follows:

| (in thousands) | <u>2022</u> | <u>2021</u> | <u>Useful Lives (in years)</u> |
|---|-------------------|-------------------|------------------------------------|
| Utility Property: | | | |
| Land and land rights | \$ 5,963 | \$ 5,956 | - |
| Source of supply | 73,535 | 74,318 | 3 - 70 |
| Pumping and purification | 32,901 | 32,374 | 7 - 64 |
| Transmission and distribution, including services, meters and hydrants | 206,375 | 202,139 | 15 - 91 |
| General and other equipment | 17,626 | 17,017 | 7 - 75 |
| Intangible plant | 790 | 790 | 20 |
| Construction work in progress | <u>1,234</u> | <u>376</u> | |
| Total utility property | 338,424 | 332,970 | |
| Total non-utility property | <u>5</u> | <u>5</u> | 5 - 10 |
| Total property, plant and equipment | 338,429 | 332,975 | |
| Less accumulated depreciation | <u>(91,367)</u> | <u>(87,778)</u> | |
| Property, Plant and Equipment, net | <u>\$ 247,062</u> | <u>\$ 245,197</u> | |

The provision for depreciation is computed on the straight-line method over the estimated useful lives of the assets, which range from 3 to 91 years. The weighted average composite depreciation rate was 2.42% and 2.44% in 2022 and 2021, respectively.

3. Restricted Cash

The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the consolidated balance sheets that sum to the total of the same such amounts shown in the consolidated statements of cash flows.

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|------------------|------------------|
| Cash and cash equivalents | \$ 3,138 | \$ 1,493 |
| Restricted cash - RSFs and Restricted Accounts | 10,837 | 11,619 |
| Restricted cash - CIAC | 134 | 1,037 |
| Restricted cash - Bond Project Funds | <u>219</u> | <u>255</u> |
| Total cash, cash equivalents and restricted cash shown in the consolidated statements of cash flows | <u>\$ 14,328</u> | <u>\$ 14,404</u> |

Amounts included in restricted cash represent those required to be set aside as outlined in Note 1.

4. Accounts Receivable

Accounts receivable consisted of the following at December 31, 2022 and 2021:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--------------------------------------|-----------------|-----------------|
| Accounts receivable - billed | \$ 5,118 | \$ 3,663 |
| Less allowance for doubtful accounts | <u>(70)</u> | <u>(87)</u> |
| Accounts receivable - billed, net | <u>\$ 5,048</u> | <u>\$ 3,576</u> |
| Accounts receivable - unbilled | \$ 3,277 | \$ 6,277 |
| Less allowance for doubtful accounts | <u>-</u> | <u>-</u> |
| Accounts receivable - unbilled, net | <u>\$ 3,277</u> | <u>\$ 6,277</u> |

5. Deferred Charges and Other Assets

Deferred charges and other assets as of December 31, 2022 and 2021 consisted of the following:

| (in thousands) | <u>2022</u> | <u>2021</u> | <u>Recovery Period (in years)</u> |
|---|-----------------|------------------|---|
| Regulatory assets: | | | |
| Source development charges | \$ 908 | \$ 1,016 | 5 - 25 |
| Miscellaneous studies | 1,031 | 1,099 | 2 - 25 |
| Unrecovered pension and post-retirement benefits expense | <u>1,379</u> | <u>9,560</u> | (1) |
| Total regulatory assets | 3,318 | 11,675 | |
| Supplemental executive retirement plan asset | <u>866</u> | <u>841</u> | |
| Total deferred charges and other assets | <u>\$ 4,184</u> | <u>\$ 12,516</u> | |

⁽¹⁾ We expect to recover these amounts consistent with the anticipated expense recognition of these assets.

6. Post-Retirement Benefit Plans

Pension Plan and Other Post-Retirement Benefits

The Company has a non-contributory, defined benefit pension plan (the “DB Plan”) that covers substantially all employees. The benefits are based on years of service and participant compensation levels. The Company’s funding policy is to contribute annual amounts that meet the requirements for funding under the U.S. Department of Labor’s Pension Protection Act. Contributions are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future.

Post-retirement medical benefits are provided for eligible retired employees through one of two plans (collectively referred to as our “OPEB Plans”). For employees who retire on or after the normal retirement age of 65, benefits are provided through a post-retirement plan (the “Post-65 Plan”). For eligible non-union employees who retire prior to their normal retirement age and who have met certain age and service requirements, benefits are provided through a post-employment medical plan (the “Post-employment Plan”). Future benefits under the Post-65 Plan increase annually based on the actual percentage of wage and salary increases earned from the plan inception date to the normal retirement date. The benefits under the Post-employment Plan allow for the continuity of medical benefits coverage at group rates from the employee’s retirement date until the employee becomes eligible for Medicare, which are fully funded by the retiree. The liability related to the Post-65 Plan will be funded from the general assets of our Company.

Upon retirement, if a qualifying employee elects to receive medical benefits under our Post-65 Plan, we pay up to a maximum monthly benefit of \$393 based on years of service.

The following table sets forth information regarding our DB Plan and our OPEB Plans as of December 31, 2022 and for the year then ended:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|--|-------------------|-------------------|
| Projected benefit obligations | \$ 29,787 | \$ 3,878 |
| Employer contribution | 863 | 11 |
| Benefits paid, excluding expenses | (862) | (91) |
| Fair value of plan assets | 23,610 | 524 |
| Accumulated benefit obligation | 27,616 | - |
| Funded status | (6,177) | (3,401) |
| Net periodic benefit cost | 1,310 | 368 |
| Amount of the funded status recognized in the Consolidated Balance Sheet consisted of: | | |
| Current liability | - | - |
| Non-current liability | <u>(6,177)</u> | <u>(3,401)</u> |
| Total | <u>\$ (6,177)</u> | <u>\$ (3,401)</u> |

The following table sets forth information regarding our DB Plan and our OPEB Plans as of December 31, 2021 and for the year then ended:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|--|--------------------|-------------------|
| Projected benefit obligations | \$ 39,455 | \$ 5,443 |
| Employer contribution | 1,144 | 11 |
| Benefits paid, excluding expenses | (839) | (85) |
| Fair value of plan assets | 27,296 | 695 |
| Accumulated benefit obligation | 35,558 | - |
| Funded status | (12,159) | (4,748) |
| Net periodic benefit cost | 1,950 | 415 |
| Amount of the funded status recognized in the Consolidated Balance Sheet consisted of: | | |
| Current liability | - | - |
| Non-current liability | <u>(12,159)</u> | <u>(4,748)</u> |
| Total | <u>\$ (12,159)</u> | <u>\$ (4,748)</u> |

The components of net periodic benefit cost other than the service cost component are included in the line item operations and maintenance in the consolidated statements of income (loss), as the amounts are immaterial to these consolidated financial statements.

Changes in plan assets and benefit obligations recognized in regulatory assets, for the year ended December 31, 2022, were as follows:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|---|-----------------|-------------------|
| Regulatory asset balance, beginning of period | \$ 8,454 | \$ 1,106 |
| Net actuarial gain incurred during the period | (6,099) | (1,730) |
| Prior service cost incurred during the period | - | 16 |
| Recognized net actuarial gain | <u>(330)</u> | <u>(38)</u> |
| Regulatory asset balance, end of period | <u>\$ 2,025</u> | <u>\$ (646)</u> |

Changes in plan assets and benefit obligations recognized in regulatory assets, for the year ended December 31, 2021, were as follows:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|---|-----------------|-------------------|
| Regulatory asset balance, beginning of period | \$ 12,525 | \$ 1,672 |
| Net actuarial gain incurred during the period | (3,420) | (510) |
| Prior service cost incurred during the period | - | 16 |
| Recognized net actuarial gain | <u>(651)</u> | <u>(72)</u> |
| Regulatory asset balance, end of period | <u>\$ 8,454</u> | <u>\$ 1,106</u> |

Amounts recognized in regulatory assets for the DB and OPEB Plans that have not yet been recognized as components of net periodic benefit cost of the following as of December 31, 2022:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|---------------------------|-----------------|-------------------|
| Net actuarial (gain) loss | \$ 2,025 | \$ (563) |
| Prior service cost | <u>-</u> | <u>(83)</u> |
| Regulatory asset | <u>\$ 2,025</u> | <u>\$ (646)</u> |

Amounts recognized in regulatory assets for the DB and OPEB Plans that have not yet been recognized as components of net periodic benefit cost of the following as of December 31, 2021:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|--------------------|-----------------|-------------------|
| Net actuarial loss | \$ 8,454 | \$ 1,205 |
| Prior service cost | <u>-</u> | <u>(99)</u> |
| Regulatory asset | <u>\$ 8,454</u> | <u>\$ 1,106</u> |

The key assumptions used to value benefit obligations and calculate net periodic benefit cost for our DB and OPEB Plans include the following:

| | <u>2022</u> | <u>2021</u> |
|--|-------------|-------------|
| Discount rate for net periodic benefit cost, beginning of year | 2.74% | 2.39% |
| Discount rate for benefit obligations, end of year ^(a) | 4.98% | 2.74% |
| Expected return on plan assets for the period (net of investment expenses) | 7.00% | 7.00% |
| Rate of compensation increase, beginning of year | 3.00% | 3.00% |
| Healthcare cost trend rate (applicable only to OPEB Plans) | 5.00% | 5.50% |

^(a) An increase or decrease in the discount rate of 0.5% would result in a change in the funded status as of December 31, 2022, for the DB Plan and the OPEB Plans of approximately \$2.0 million and \$291 thousand, respectively.

The estimated net actuarial loss for our DB Plan that will be amortized in 2023 from the regulatory assets into net periodic benefit costs is \$2,025. The estimated net actuarial gain and prior service cost for our OPEB Plans that will be amortized in 2023 from the regulatory assets into net periodic benefit costs is \$646.

In establishing its investment policy, the Company has considered the fact that the DB Plan is a major retirement vehicle for its employees and the basic goal underlying the establishment of the policy is to provide that the assets of the DB Plan are invested in accordance with the asset allocation range targets to achieve our expected return on DB Plan assets. The Company's investment strategy applies to its OPEB Plans as well as the DB Plan. The expected long-term rate of return on DB Plan and OPEB Plan assets is based on the Plans' expected asset allocation, expected returns on various classes of Plan assets, as well as historical returns.

The assets of our Post-65 Plan are held in two separate Voluntary Employee Beneficiary Association ("VEBA") trusts. The VEBA plan assets are maintained in directed trust accounts at a commercial bank.

The investment strategy for the Company's DB Plan and OPEB Plans utilizes several different asset classes with varying risk/return characteristics. The following table indicates the asset allocation percentages of the fair value of the DB Plan and OPEB Plans' assets for each major type of plan asset as of December 31, 2022, as well as the targeted allocation range:

| | DB Plan | | OPEB Plans | |
|---------------------------|-------------|------------------------------|-------------|------------------------------|
| | | Asset Allocation Range | | Asset Allocation Range |
| Equities | 61% | 30% - 100% | 71% | 30% - 100% |
| Fixed income | 15% | 20% - 70% | 16% | 0% - 50% |
| Cash and cash equivalents | <u>24%</u> | 0% - 15% | <u>13%</u> | 0% - 15% |
| Total | <u>100%</u> | | <u>100%</u> | |

The following table indicates the asset allocation percentages of the fair value of the DB Plan and OPEB Plans' assets for each major type of plan asset as of December 31, 2021, as well as the targeted allocation range:

| | DB Plan | | OPEB Plans | |
|---------------------------|-------------|------------------------------|-------------|------------------------------|
| | | Asset Allocation Range | | Asset Allocation Range |
| Equities | 61% | 30% - 100% | 74% | 30% - 100% |
| Fixed income | 15% | 20% - 70% | 17% | 0% - 50% |
| Cash and cash equivalents | <u>24%</u> | 0% - 15% | <u>9%</u> | 0% - 15% |
| Total | <u>100%</u> | | <u>100%</u> | |

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts that we could realize in a sales transaction for these instruments. The estimated fair value amounts have been measured as of year-end and have not been reevaluated or updated for purposes of these consolidated financial statements subsequent to those respective dates.

Investments in common stock and mutual funds are stated at fair value by reference to quoted market prices. Money market funds are valued utilizing the net asset value per unit based on the fair value of the underlying assets as determined by the directed trustee.

The DB Plan also holds assets under an immediate participation guarantee group annuity contract with a life insurance company. The assets under the contract are invested in pooled separate accounts and in a general investment account. The pooled separate accounts are valued based on net asset value (NAV) per unit of participation in the fund. The NAV is used as a practical expedient to estimate fair values. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than that reported at NAV. These accounts have no unfunded commitments or significant redemption restrictions at year-end. The value of these units is determined by the trustee based on the current market values of the underlying assets of the pooled separate accounts. Therefore, the value of the pooled separate accounts is deemed to be at estimated fair value.

The general investment account is not actively traded, and significant other observable inputs are not available. The fair value of the general investment account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

A fair value hierarchy which prioritizes the inputs to valuation methods is used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The fair value of DB Plan and OPEB Plan assets by levels within the fair value hierarchy used as of December 31, 2022 was as follows:

| (in thousands) | <u>Fair Value</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|--|-------------------|----------------|----------------|-----------------|
| DB Plan: | | | | |
| Guaranteed Interest Accounts | \$ <u>5,668</u> | \$ <u>-</u> | \$ <u>-</u> | \$ <u>5,668</u> |
| Total Assets in the Fair Value Hierarchy | 5,668 | - | - | 5,668 |
| Investments measured at net asset value ^(a) | <u>17,942</u> | <u>-</u> | <u>-</u> | <u>-</u> |
| DB Plan Investments, at Fair Value | <u>23,610</u> | <u>-</u> | <u>-</u> | <u>5,668</u> |
| OPEB Plans: | | | | |
| Common stocks | 276 | 276 | - | - |
| Mutual funds | 96 | 96 | - | - |
| Fixed income funds | 85 | 85 | - | - |
| Money market funds | <u>67</u> | <u>-</u> | <u>67</u> | <u>-</u> |
| Total Assets in the Fair Value Hierarchy | 524 | 457 | 67 | - |
| Investments measured at net asset value ^(a) | <u>-</u> | <u>-</u> | <u>-</u> | <u>-</u> |
| OPEB Plans Investments, at Fair Value | <u>524</u> | <u>457</u> | <u>67</u> | <u>-</u> |
| Totals | \$ <u>24,134</u> | \$ <u>457</u> | \$ <u>67</u> | \$ <u>5,668</u> |

(a) In accordance with Subtopic 820-10, certain investments that were measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of assets available for benefits of the Plans.

The fair value of DB Plan and OPEB Plan assets by levels within the fair value hierarchy used as of December 31, 2021 was as follows:

| (in thousands) | <u>Fair Value</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|--|-------------------|----------------|----------------|-----------------|
| DB Plan: | | | | |
| Guaranteed Interest Accounts | \$ 6,642 | \$ - | \$ - | \$ 6,642 |
| Total Assets in the Fair Value Hierarchy | 6,642 | - | - | 6,642 |
| Investments measured at net asset value ^(a) | <u>20,654</u> | <u>-</u> | <u>-</u> | <u>-</u> |
| DB Plan Investments, at Fair Value | <u>27,296</u> | <u>-</u> | <u>-</u> | <u>6,642</u> |
| OPEB Plans: | | | | |
| Common stocks | 373 | 373 | - | - |
| Mutual funds | 138 | 138 | - | - |
| Fixed income funds | 120 | 120 | - | - |
| Money market funds | <u>63</u> | <u>-</u> | <u>63</u> | <u>-</u> |
| Total Assets in the Fair Value Hierarchy | 694 | 631 | 63 | - |
| Investments measured at net asset value ^(a) | <u>-</u> | <u>-</u> | <u>-</u> | <u>-</u> |
| OPEB Plans Investments, at Fair Value | <u>694</u> | <u>631</u> | <u>63</u> | <u>-</u> |
| Totals | <u>\$ 27,990</u> | <u>\$ 631</u> | <u>\$ 63</u> | <u>\$ 6,642</u> |

(a) In accordance with Subtopic 820-10, certain investments that were measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of assets available for benefits of the Plans.

Level 1: Based on quoted prices in active markets for identical assets.

Level 2: Based on significant observable inputs.

Level 3: Based on significant unobservable inputs.

The following table summarizes investments at fair value based on NAV per share as of December 31, 2022 and 2021, respectively:

| (in thousands) | <u>Fair Value</u> |
|--------------------------------|-------------------|
| December 31, 2022 | |
| Pooled Separate Accounts: | |
| Equities | \$ 14,377 |
| Fixed Income | <u>3,565</u> |
| Total Pooled Separate Accounts | <u>\$ 17,942</u> |
| December 31, 2021 | |
| Pooled Separate Accounts: | |
| Equities | \$ 16,648 |
| Fixed Income | <u>4,006</u> |
| Total Pooled Separate Accounts | <u>\$ 20,654</u> |

The following table presents a period-end reconciliation of DB Plan assets measured and recorded at fair value on a recurring basis, using significant unobservable inputs (Level 3):

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|-----------------|-----------------|
| Balance, beginning of year | \$ 6,642 | \$ 5,731 |
| Plan transfers | (381) | 202 |
| Contributions | 216 | 599 |
| Benefits paid | (874) | - |
| Return on plan assets (net of investment expenses) | <u>65</u> | <u>110</u> |
| Balance, end of year | <u>\$ 5,668</u> | <u>\$ 6,642</u> |

In order to satisfy the minimum funding requirements of the Employee Retirement Income Security Act of 1974, applicable to defined benefit pension plans, the Company anticipates it will contribute approximately \$0.75 million to the DB Plan in 2023.

The following maximum benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

| (in thousands) | <u>DB Plan</u> | <u>OPEB Plans</u> |
|---------------------|------------------|-------------------|
| 2023 | \$ 1,225 | \$ 115 |
| 2024 | 1,401 | 129 |
| 2025 | 1,521 | 140 |
| 2026 | 1,589 | 151 |
| 2027 | 1,736 | 169 |
| 2028 and thereafter | <u>10,429</u> | <u>1,060</u> |
| Total | <u>\$ 17,901</u> | <u>\$ 1,764</u> |

Because the Company is subject to regulation in the state in which it operates, we are required to maintain our accounts in accordance with the regulatory authority's rules and regulations. In those instances, we follow the guidance of ASC Topic 980 ("Regulated Operations"). Based on prior regulatory practice, we recorded underfunded DB Plan and OPEB Plan obligations as a regulatory asset, and we expect to recover those costs in rates charged to customers.

Defined Contribution Plan

In addition to the defined benefit plan, the Company provides and maintains a defined contribution plan covering substantially all employees. Under this plan, the Company matches 100% of the first 3% of each participating employee's eligible compensation contributed to the plan. The matching employer's contributions, recorded as operating expenses, were approximately \$311,000 and \$294,000 for the years ended December 31, 2022 and 2021, respectively.

7. Leases

The Company leases its corporate office facilities and office equipment for various terms under long-term, noncancelable operating lease agreements. The leases expire at various dates through 2025 and provide for renewal options ranging from 3 months to 5 years. The exercise of these renewal options is at the sole discretion of the Company, and only lease options that the Company believes are reasonably certain to exercise are included in the measurement of the lease assets and liabilities. In the normal course of business, it is expected that these leases will be renewed or replaced by leases on other properties.

Operating lease costs were approximately \$383,000 during the year ended December 31, 2022. These costs are primarily related to long-term operating leases but may also include immaterial amounts for variable lease payments and short-term leases with terms greater than 30 days.

During the year ended December 31, 2022, the Company had the following cash and non-cash activities related to leases:

(in thousands)

Cash paid for amounts included in the measurement of lease liabilities:

| | | |
|---|----|-----|
| Operating cash flows for operating leases | \$ | 383 |
|---|----|-----|

Non-cash investing and financing activities:

ROU assets obtained in exchange

for lease liabilities:

| | | |
|------------------|----|------|
| Operating leases | \$ | 5401 |
|------------------|----|------|

Weighted average lease term and discount rate as of December 31, 2022 were as follows:

| | |
|---------------------------------------|-------|
| Weighted average remaining lease term | 9.88 |
| Weighted average discount rate | 5.00% |

Maturities of lease liabilities under noncancellable operating leases as of December 31, 2022, are as follows for the years ending December 31:

| | | |
|----------------------------------|----|---------------------|
| (in thousands) | | |
| 2023 | \$ | 380 |
| 2024 | | 380 |
| 2025 | | 380 |
| 2026 | | 380 |
| 2027 | | 380 |
| Thereafter | | <u>8,729</u> |
| Total lease payments | | 10,629 |
| Less imputed interest | | <u>(5,528)</u> |
| Present value of lease liability | \$ | <u><u>5,101</u></u> |

Rent expense, as previously defined under FASB ASC 840, for all operating leases was \$385,300 for the year ended December 31, 2021

8. Financial Measurement and Fair Value of Financial Instruments

Management uses its best judgment in estimating the fair value of its financial instruments. However, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts that we could realize in a sales transaction for these instruments. The estimated fair value amounts have been measured as of the period end and have not been reevaluated or updated for purposes of these consolidated financial statements subsequent to those respective dates.

A fair value hierarchy is used, which prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

Level 1: Based on quoted prices in active markets for identical assets.

Level 2: Based on significant observable inputs.

Level 3: Based on significant unobservable inputs.

An asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For assets and liabilities measured at fair value on a recurring basis, the fair value measurement by levels within the fair value hierarchy used as of December 31, 2022 and 2021 were as follows:

| (in thousands) | <u>December 31, 2022</u> | | | |
|--------------------|--------------------------|----------------|----------------|----------------|
| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
| Liabilities: | | | | |
| Interest rate swap | \$ <u>(10)</u> | \$ <u>-</u> | \$ <u>(10)</u> | \$ <u>-</u> |

| (in thousands) | <u>December 31, 2021</u> | | | |
|--------------------|--------------------------|----------------|-----------------|----------------|
| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
| Liabilities: | | | | |
| Interest rate swap | \$ <u>(290)</u> | \$ <u>-</u> | \$ <u>(290)</u> | \$ <u>-</u> |

The carrying value of certain financial instruments included in the accompanying Consolidated Balance Sheets, along with the related fair value, as of December 31, 2022 and 2021 was as follows:

| (in thousands) | <u>2022</u> | | <u>2021</u> | |
|------------------------------|-----------------------|-------------------|-----------------------|-------------------|
| | <u>Carrying Value</u> | <u>Fair Value</u> | <u>Carrying Value</u> | <u>Fair Value</u> |
| Liabilities: | | | | |
| Interest rate swap liability | \$ <u>(10)</u> | \$ <u>(10)</u> | \$ <u>(290)</u> | \$ <u>(290)</u> |

The fair market value of the interest rate swap represents the estimated cost to terminate this agreement as of December 31, 2022 and 2021 based upon the then-current interest rates and the related credit risk.

The carrying values of our cash and cash equivalents, restricted cash, accounts receivable and accounts payable approximate their fair values because of their short-term maturity dates. The carrying value of CIAC approximates its fair value because it is expected that this is the amount that will be recovered in future rates. The carrying values of lines of credit and long-term debt approximate fair value, as interest rates approximate market rates.

9. Revenue from Contracts with Customers – Non-Regulated Entities

Revenue is recognized when control of the promised goods or services is transferred to customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services.

Disaggregation of Revenue

For the years ended December 31, 2022 and 2021, revenue recognized for goods and services transferred over time totaled \$2,857,868 and \$3,339,069, respectively.

For the year ended December 31, 2022, approximately 48% of revenues were from large-contract customers, 31% of revenues were from small contract customers (con-ops), and 21% of revenues were from residential maintenance and other customers. For the year ended December 31, 2021, approximately 58% of revenues were from large-contract customers, 25% of revenues were from small contract customers (con-ops), and 17% of revenues were from residential maintenance and other customers. In addition, substantially all of the Company's contracts were service-related type contracts.

10. Income Taxes

The components of the federal and state income tax provision (benefit) as of December 31, 2022 and 2021 were as follows:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|-----------------|-----------------|
| Federal | \$ (391) | \$ (151) |
| State | (163) | (5) |
| Amortization of investment tax credits | <u>(33)</u> | <u>(33)</u> |
| Total | <u>\$ (587)</u> | <u>\$ (189)</u> |
| Current | \$ - | \$ (127) |
| Deferred | <u>(587)</u> | <u>(62)</u> |
| Total | <u>\$ (587)</u> | <u>\$ (189)</u> |

The following is a reconciliation between the statutory federal income tax rate and the effective income tax rate for 2022 and 2021:

| | <u>2022</u> | <u>2021</u> |
|---|---------------|--------------|
| Statutory federal rate | 21.0 % | 21.0 % |
| State tax rate, net of federal benefits | 6.1 | 6.1 |
| Permanent differences | (2.9) | (23.0) |
| Amortization of investment tax credits | <u>1.4</u> | <u>0.9</u> |
| Effective tax rate | <u>25.6 %</u> | <u>5.0 %</u> |

The temporary items that give rise to the net deferred tax liability as of December 31, 2022 and 2021 were as follows:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|------------------------------------|------------------|------------------|
| Liabilities: | | |
| Property-related, net | \$ 23,668 | \$ 23,417 |
| Other | <u>922</u> | <u>740</u> |
| Total liabilities | <u>24,590</u> | <u>24,157</u> |
| Assets: | | |
| Pension accrued liability | 2,043 | 1,817 |
| Net operating loss carryforward | 7,105 | 6,331 |
| Alternative minimum tax credit | 476 | 476 |
| NH Business Enterprise Tax credits | 967 | 1,103 |
| Other | <u>548</u> | <u>682</u> |
| | 11,139 | 10,409 |
| Less valuation allowance | <u>(967)</u> | <u>(1,102)</u> |
| Total assets | <u>10,172</u> | <u>9,307</u> |
| Net deferred income tax liability | <u>\$ 14,418</u> | <u>\$ 14,850</u> |

The Company has accumulated federal net operating losses. The federal tax benefit of the cumulative net operating losses is approximately \$5.3 million, begins to expire in 2033, and is included in deferred income taxes in the Consolidated Balance Sheet as of December 31, 2022. Approximately 75% of the net operating losses are 100% available to be applied to taxable income in future years and are not subject to the TCJA as they were generated prior to the 2018 tax year. The enactment of the TCJA now limits the net operating loss shelter to 80% of taxable income, for post-2017 tax year losses. The TCJA also provides for net operating losses to be carried forward indefinitely instead of limited to 20 years, as is the case for pre-2018 losses; however, carrybacks of these losses are no longer permitted. Approximately 25% of the net operating losses were generated in 2019 through 2021 and therefore are subject to the 80% limitation.

The Company has accumulated New Hampshire net operating losses. The New Hampshire tax benefit of the cumulative net operating loss is approximately \$1.8 million which begins to expire in 2023 and is included in deferred income taxes in the Consolidated Balance Sheet as of December 31, 2022.

As of December 31, 2022 and 2021, it is estimated that approximately \$476,000 and \$476,000, respectively, of cumulative federal alternative minimum tax credits may be carried forward indefinitely as a credit against our regular tax liability.

As of December 31, 2022 and 2021, the Company had New Hampshire Business Enterprise Tax (“NHBET”) credits of approximately \$967,000 and \$1,100,000, respectively. NHBET credits begin to expire in 2023. It is anticipated that these NHBET credits will not be fully utilized before they expire; therefore, a valuation allowance has been recorded related to these credits. The valuation allowance decreased by approximately \$135,000 and \$146,000 in the years ended December 31, 2022 and 2021, respectively.

Investment tax credits resulting from utility plant additions are deferred and amortized. The unamortized investment tax credits are being amortized through the year 2033.

The Company had a regulatory liability related to income taxes of approximately \$9,894,000 and \$9,906,000 as of December 31, 2022 and 2021, respectively. This represents the estimated future reduction in revenues associated with deferred taxes which were collected at rates higher than the currently enacted rates and the amortization of deferred investment tax credits.

A review of the portfolio of uncertain tax positions was performed. In this regard, an uncertain tax position represents the expected treatment of a tax position taken in a filed tax return, or as planned to be taken in a future tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. As a result of this review, it was determined that the Company had no material uncertain tax positions, and tax planning strategies will be used, if required and when possible, to avoid the expiration of any future net operating loss and/or tax credits.

The Company’s practice is to recognize interest and/or penalties related to income tax matters in “Other, Net” in the Consolidated Statements of Income. We incurred no interest in 2022 and 2021. We incurred no penalties during the years ended December 31, 2022 and 2021.

11. Long-Term Debt

Long-term debt as of December 31, 2022 and 2021 consisted of the following:

| (in thousands) | 2022 | |
|---|------------|---------------------------------|
| | Principal | Unamortized Debt Issuance Costs |
| Unsecured note payable to City of Nashua, 5.75%, due 12/25/2041 | \$ 96,937 | \$ - |
| Unsecured Business Finance Authority: | | |
| Revenue Bonds (Series 2014B), 4.50%, due January 1, 2045 | 4,615 | 96 |
| Revenue Bonds (Series 2018A), interest rates from 4.375% to 5.00%, due April 1, 2048 | 4,460 | 226 |
| Revenue Bonds (Series 2018B), 4.33%, due April 1, 2028 | 705 | 37 |
| Revenue Bonds (Series 2019A), interest rates from 2.19% to 4.15%, due April 1, 2049 | 7,805 | 258 |
| Revenue Bonds (Series 2020A), interest rates from 3.15% to 4%, due April 1, 2050 | 7,000 | 265 |
| Revenue Bonds (Series 2020B), 5.25%, due April 1, 2023 | 125 | 1 |
| Revenue Bonds (Series 2020C), interest rates from 1.25% to 4.02%, due September 1, 2055 (3) | 71,195 | 5,018 |
| Revenue Bonds (Series 2021A), interest rates from 4% to 5%, due April 1, 2051 | 4,985 | 234 |
| Revenue Bonds (Series 2021B), 1.05%, due April 1, 2024 | 85 | - |
| Revenue Bonds (Series 2022A), interest rate 4 to 5%, due April 1, 2052 | 6,695 | 262 |
| Revenue Bonds (Series 2022B), 3.63%, due April 1, 2025 | 90 | - |
| Unsecured notes payable to bank, floating-rate, due March 1, 2030 | 2,030 | 9 |
| Unsecured notes payable to bank, 3.62%, due June 20, 2023 | 1,060 | 1 |
| Unsecured notes payable to bank, 4.20%, due December 20, 2041 | 1,058 | 5 |
| Unsecured notes payable to bank, 4.83%, due December 20, 2041 | 815 | 4 |
| Unsecured notes payable to bank, 4.25%, due June 20, 2033 | 583 | 5 |
| Unsecured notes payable to bank, 4.90%, due March 6, 2040 | 506 | 28 |
| Unsecured notes payable to bank, 5.33%, due June 20, 2043 | 316 | 9 |
| Unsecured notes payable to bank, 4.38%, due September 20, 2044 | 1,063 | 14 |
| Unsecured notes payable to bank, 3.98%, due January 1, 2046 | 761 | 12 |
| Unsecured notes payable to bank, 4.18%, due October 20, 2046 | 1,105 | 10 |
| Unsecured notes payable to bank, 4.25%, due December 20, 2046 | 2,489 | 13 |
| Unsecured notes payable to bank, 7.16%, due October 1, 2047 | 654 | 6 |
| Unsecured New Hampshire State Revolving Fund ("SRF") notes (1) | 21,269 | 157 |
| Unsecured New Hampshire Drinking Water & Groundwater Trust Fund ("DWGTF") notes (2) | 8,337 | 20 |
| Unamortized debt issuance costs for defeased obligations, allowed by regulation | - | 2,751 |
| Total | 246,743 | \$ 9,441 |
| Less current portion | (7,999) | |
| Less unamortized debt issuance costs | (9,441) | |
| Total long-term debt, less current portion and unamortized debt issuance costs | \$ 229,303 | |

(1) SRF notes are due through 2051 at interest rates ranging from 1% to 3.8%. These notes are payable in 120 to 360 consecutive monthly installments of principal and interest. The 1% rate applies to construction projects still in process until the earlier of (i) the date of substantial completion of the improvements, or (ii) various dates specified in the note (such earlier date being the interest rate change date). Commencing on the interest rate change date, the interest rate changes to the lower of (i) the rate as stated in the note or (ii) 80% of the established 11 General Obligations Bond Index published during the specified time period before the interest rate change date.

(2) DWGTF notes are due through 2051 at interest rates ranging from 2.7% to 3.4%. These notes are payable in 360 consecutive monthly installments of principle and interest. The 1% rate applies to construction projects still in process until the earlier of (i) the date of substantial completion of the improvements or (ii) June 1, 2020 as specified in the note (such earlier date being the interest rate change date). Commencing on the interest rate change date, the interest rate change to the rate as stated in the note.

(3) Revenue Bonds (2020C) proceeds were partially used to advance refund the 2014A, 2015A and 2015B bonds with maturity dates of January 1, 2045, January 1, 2046, and January 1, 2031, respectively. The advance refunding proceeds are held in escrow until their future call dates of December 2023 and December 2024, to then be used to facilitate retirement of the bonds. Of the remaining \$5,018 of Unamortized Debt Issuance Costs as of December 31, 2020 generated by the September 2nd issuance, \$3,713 are directly tied the advance refunding and will fully-amortize on a straight-line basis until their respective call dates.

| (in thousands) | 2021 | |
|--|-------------------|---------------------------------------|
| | Principal | Unamortized Debt Issuance Costs |

| Paycheck Protection Program Loan, 1.00%, due May 7, 2022 | 2,544 | 2 |
| Unamortized debt issuance costs for defeased obligations, allowed by regulation | - | 2,952 |
| Total | 248,454 | \$ 12,242 |
| Less current portion | (9,149) | |
| Less unamortized debt issuance costs | (12,242) | |
| Total long-term debt, less current portion and unamortized debt issuance costs | \$ 227,063 | |

(1) SRF notes are due through 2051 at interest rates ranging from 1% to 3.8%. These notes are payable in 120 to 240 consecutive monthly installments of principal and interest. The 1% rate applies to construction projects still in process until the earlier of (i) the date of substantial completion of the improvements, or (ii) various dates specified in the note (such earlier date being the interest rate change date). Commencing on the interest rate change date, the interest rate changes to the lower of (i) the rate as stated in the note or (ii) 80% of the established 11 General Obligations Bond Index published during the specified time period before the interest rate change date.

(2) DWGTF notes are due through 2050 at interest rates ranging from 2.7% to 3.4%. These notes are payable in 360 consecutive monthly installments of principle and interest. The 1% rate applies to construction projects still in process until the earlier of (i) the date of substantial completion of the improvements or (ii) June 1, 2020 as specified in the note (such earlier date being the interest rate change date). Commencing on the interest rate change date, the interest rate change to the rate as stated in the note.

(3) Revenue Bonds (2020C) proceeds were partially used to advance refund the 2014A, 2015A and 2015B bonds with maturity dates of January 1, 2045, January 1, 2046, and January 1, 2031, respectively. The advance refunding proceeds are held in escrow until their future call dates of December 2023 and December 2024, to then be used to facilitate retirement of the bonds. Of the remaining \$7,836 of Unamortized Debt Issuance Costs as of December 31, 2020 generated by the September 2nd issuance, \$6,491 are directly tied the advance refunding and will fully-amortize on a straight-line basis until their respective call dates.

The aggregate principal payment requirements subsequent to December 31, 2022 are as follows:

| (in thousands) | <u>Amount</u> |
|---------------------|-------------------|
| 2023 | \$ 7,999 |
| 2024 | 7,231 |
| 2025 | 7,500 |
| 2026 | 7,796 |
| 2027 | 8,086 |
| 2028 and thereafter | <u>208,131</u> |
| Total | <u>\$ 246,743</u> |

Several of Pennichuck Water’s loan agreements contain a covenant that prevents Pennichuck Water from declaring dividends if Pennichuck Water does not maintain a minimum net worth of \$4.5 million. As of December 31, 2022 and 2021, Pennichuck Water’s net worth was \$92.0 million and \$97.8 million, respectively.

The 2014B, 2018A, 2018B, 2019A, 2020A, 2020B, 2020C, 2021A, 2021B, 2022A and 2022B bonds were issued under a new bond indenture and loan and trust agreement, established with the issuance of the 2014 Series Bonds, which contains certain covenant obligations upon Pennichuck Water, which are as follows:

Debt to Capital Covenant - Pennichuck Water cannot create, issue, incur, assume or guarantee any short-term debt if (1) the sum of the short-term debt plus its funded debt (“Debt”) shall exceed 85% of the sum of its short-term debt, funded debt and capital stock plus surplus accounts (“Capital”), unless the short-term debt issued in excess of the 85% is subordinated to the Series 2014 bonds. Thereby, the ratio of Debt to Capital must be equal to or less than 1.0. As of December 31, 2022 and 2021, Pennichuck Water has a Debt to Capital Coverage ratio of 0.7 and 0.7, respectively.

All Bonds Test - Additionally, Pennichuck Water cannot create, issue, incur, assume or guarantee any new funded debt, if the total outstanding funded debt (“Total Funded Debt”) will exceed the sum of MARA (as defined in Note 14 of these consolidated financial statements) and 85% of its Net Capital Properties (“MARA and Capital Properties”), and unless net revenues or EBITDA (earnings before interest, taxes, depreciation and amortization) shall equal or exceed for at least 12 consecutive months out of the 15 months preceding the issuance of the new funded debt by 1.1 times the maximum amount for which Pennichuck Water will be obligated to pay in any future year (“Max Amount Due”), as a result of the new funded debt being incurred. Thereby, the ratio of Total Funded Debt to MARA and Capital Properties must be equal to or less than 1.0; as of December 31, 2022 and 2021, this coverage ratio was 0.6 and 0.6, respectively. Also, the ratio of EBITDA to the Max Amount Due must be equal to or greater than 1.1; as of December 31, 2022 and 2021, this ratio was 1.9 and 2.3, respectively.

Rate Covenant Test - If during any fiscal year, the EBITDA of Pennichuck Water shall not equal at least 1.1 times all amounts paid or required to be paid during that year (“Amounts Paid”), then the Company shall undertake reasonable efforts to initiate a rate-making proceeding with the NHPUC, to rectify this coverage requirement in the succeeding fiscal years. Thereby, the ratio of EBITDA to Amounts Paid must be equal to or greater than 1.1; as of December 31, 2022 and 2021, the Rate Covenant coverage ratio was 1.75 and 2.19, respectively.

Pennichuck East’s loan agreement for its unsecured notes payable to a bank of \$12.4 million and \$12.4 million at December 31, 2022 and 2021, respectively, contains a minimum debt service coverage ratio requirement of 1.10. At December 31, 2022 and 2021, this ratio was 1.41 and 1.47, respectively.

On September 2, 2020, Pennichuck Water issued approximately \$73.6 million of taxable bonds through the New Hampshire Business Finance Authority to: (1) advance refund and refinance Pennichuck Water’s series 2014A, 2015A, and 2015B bonds; (2) early retire an AULI bank loan set to mature on March 1, 2021 with a “bullet” maturity due at that date; (3) complete the replenishment of the Material Operating Expense Revenue Requirement (MOERR) RSF for Pennichuck Water back to nearly its authorized imprest value; and (4) repay Pennichuck Water’s Fixed Asset Line of Credit (FALOC) for monies borrowed while awaiting rate relief from this bonding event and the Pennichuck Water rate case approved by NHPUC Order No. 26,425. The bond issuance was approved by the Company’s Board of Directors and the Sole Stockholder. This issuance received NHPUC approval in Order No. 26,383 dated July 24, 2020, which authorized up to \$75.0 million in bonds.

On October 29, 2021, the NHPUC issued NISI Order No. 26,538, with an effective date of November 30, 2021, approving Pennichuck East Utility’s request to borrow \$2,546,632 from CoBank, ACB for a 25-year term. This financing was used to fund a “one time” refill and replenishment of the Company’s Material Operating Expense Revenue Requirement (MOERR) RSF, as well as repay intercompany debt incurred to support the Company as it waited for final permanent rate relief, and the reestablishment of its RSF funds. On November 30, 2021, Pennichuck East Utility closed on this term loan financing transaction with CoBank, ACB in the amount of \$2,546,632 for a term of 25 years at an interest rate of 4.25%.

As of December 31, 2022 and 2021, the Company had a \$2.0 million and \$2.3 million, respectively, interest rate swap which qualifies as a derivative. This financial derivative is designated as a cash flow hedge. This financial instrument is used to mitigate interest rate risk associated with our outstanding \$2.0 million loan which has a floating interest rate based on the three-month London Interbank Offered Rate (“LIBOR”) plus 1.88% as of December 31, 2022. The combined effect of the LIBOR-based borrowing formula and the swap produces an “all-in fixed borrowing cost” equal to 5.95%. The fair value of the financial derivative, as of December 31, 2022 and 2021, included in our Consolidated Balance Sheets under “Other Liabilities and Deferred Credits” as “Derivative instrument” was \$10,000 and \$290,000, respectively. Changes in the fair value of this derivative were deferred in accumulated other comprehensive income.

As of March 31, 2023, the LIBOR rate will cease to be available as a market-based rate for debt instruments. As of that date, all of the debt instruments outstanding and forward-looking will be based upon the Secured Overnight Financing Rate (“SOFR”) to replace the LIBOR rate. Instead of a calculated rate of LIBOR plus 1.88%, the new rate will be SOFR plus 1.85%. The Swap agreement will be repriced as of that date, as well, to reflect a new rate based upon SOFR that will allow for a net borrowing cost equal to or less than the existing 5.95% “all in fixed borrowing cost.”

Swap settlements are recorded in the consolidated statements of income (loss) with the hedged item as interest expense. During the years ended December 31, 2022 and 2021, \$73,000 income and \$68,000 loss, respectively, was reclassified pre-tax from accumulated other comprehensive income (loss) to interest expense as a result of swap settlements. The Company expects to reclassify approximately \$(11,000), pre-tax, from accumulated other comprehensive income to interest expense as a result of swap settlements, over the next twelve months.

Paycheck Protection Program Loan

On May 7, 2020, the Company received loan proceeds in the amount of approximately \$2,543,600 under the Small Business Administration (SBA) PPP. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which was enacted March 27, 2020, provides for loans to qualifying businesses for amounts up to 2.5 times the average monthly payroll expenses of the qualifying business.

Any unforgiven portion of the PPP loan is payable over two years, from the date of the initial approval of the loan, at an interest rate of 1%, with deferral of payments for the first ten months. Early in 2022, the Company’s application for forgiveness was denied and as of December 31, 2021 the PPP loan has been reclassified to current portion of long-term debt with a maturity date of May 7, 2022.

12. Lines of Credit

The Company's existing Working Capital Line of Credit (WCLOC) was renewed and extended to expire on June 30, 2024. Pennichuck Water's \$12 million Fixed Asset Line of Credit (PWW FALOC) expires on June 30, 2023, with PWW currently in negotiation on a renewal and extension of this multi-year facility. Pennichuck East's \$3 million Fixed Asset Line of Credit (PEU FALOC) is set to expire on September 30, 2023, with PEU currently in negotiation on a renewal and extension of this multi-year facility. The two Fixed Asset Lines of Credit (FALOC and PEU FALOC) are used to fund construction work in progress on capital projects, which are refinanced into long-term term loan obligations or issued bond indebtedness, annually.

Short-term borrowing activity under the Company's WCLOC for the years ended December 31, 2022 and 2021 was:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|-------------|-------------|
| Established line as of December 31, | \$ 4,000 | \$ 4,000 |
| Maximum amount outstanding during period | 2,236 | 2,312 |
| Average amount outstanding during period | 785 | 942 |
| Amount outstanding as of December 31, | 785 | - |
| Weighted average interest rate during period | 3.42% | 1.88% |
| Interest rate as of December 31, | 6.07% | 1.84% |

Short-term borrowing activity under Pennichuck Water's FALOC for the years ended December 31, 2022 and 2021 was:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|-------------|-------------|
| Established line as of December 31, | \$ 12,000 | \$ 12,000 |
| Maximum amount outstanding during period | 7,138 | 5,851 |
| Average amount outstanding during period | 3,552 | 3,775 |
| Amount outstanding as of December 31, | 4,628 | 5,851 |
| Weighted average interest rate during period | 3.07% | 1.88% |
| Interest rate as of December 31, | 5.81% | 1.84% |

Short-term borrowing activity under Pennichuck East’s FALOC for the years ended December 31, 2022 and 2021 was:

| (in thousands) | <u>2022</u> | <u>2021</u> |
|--|-------------|-------------|
| Established line as of December 31, | \$ 3,000 | \$ 3,000 |
| Maximum amount outstanding during period | 833 | 1,171 |
| Average amount outstanding during period | 678 | 909 |
| Amount outstanding as of December 31, | 833 | 757 |
| Weighted average interest rate during period | 3.01% | 2.13% |
| Interest rate as of December 31, | 6.46% | 2.09% |

The Company’s revolving credit loan facilities with TD Bank contain certain covenant obligations upon Pennichuck Water, which are as follows:

Debt to Capital Covenant - Pennichuck Water cannot create, issue, incur, assume or guarantee any short-term debt if (1) the sum of the short-term debt plus its funded debt (“Debt”) shall exceed 85% of the sum of its short-term debt, funded debt and capital stock plus surplus accounts (“Capital”), unless the short-term debt issued in excess of the 85% is subordinated to the loan facility. Thereby, the ratio of Debt to Capital must be equal to or less than 1.0. As of December 31, 2022 and 2021, Pennichuck Water has a Debt to Capital Coverage ratio of 0.7 and 0.7, respectively.

All Bonds Test - Additionally, Pennichuck Water cannot create, issue, incur, assume or guarantee any new funded debt, if the total outstanding funded debt (“Total Funded Debt”) will exceed the sum of MARA (as defined in Note 14 of these consolidated financial statements) and 85% of its Net Capital Properties (“MARA and Capital Properties”), and unless net revenues or EBITDA (earnings before interest, taxes, depreciation and amortization) shall equal or exceed for at least 12 consecutive months out of the 15 months preceding the issuance of the new funded debt by 1.1 times the maximum amount for which Pennichuck Water will be obligated to pay in any future year (“Max Amount Due”), as a result of the new funded debt being incurred. Thereby, the ratio of Total Funded Debt to MARA and Capital Properties must be equal to or less than 1.0; as of December 31, 2022 and 2021, this coverage ratio was 0.6 and 0.6, respectively. Also, the ratio of EBITDA to the Max Amount Due must be equal to or greater than 1.1; as of December 31, 2022 and 2021 this ratio was 1.9 and 2.3, respectively.

Rate Covenant Test - If during any fiscal year, the EBITDA of Pennichuck Water shall not equal at least 1.1 times all amounts paid or required to be paid during that year (“Amounts Paid”), then the Company shall undertake reasonable efforts to initiate a rate-making proceeding with the NHPUC, to rectify this coverage requirement in the succeeding fiscal years. Thereby, the ratio of EBITDA to Amounts Paid must be equal to or greater than 1.1; as of December 31, 2022 and 2021, the Rate Covenant coverage ratio was 1.75 and 2.19, respectively.

13. Accumulated Other Comprehensive Income

The following table presents changes in accumulated other comprehensive income by component for the years ended December 31, 2022 and 2021:

| (in thousands) | <u>Interest Rate Contract</u> | |
|--|-------------------------------|---------------|
| | <u>2022</u> | <u>2021</u> |
| Beginning balance | \$ 356 | \$ 254 |
| Other comprehensive income before reclassifications | 124 | 43 |
| Amounts reclassified from accumulated other comprehensive income | <u>44</u> | <u>59</u> |
| Net current period other comprehensive income | <u>168</u> | <u>102</u> |
| Ending balance | <u>\$ 524</u> | <u>\$ 356</u> |

The following table presents reclassifications out of accumulated other comprehensive income for the years ended December 31, 2022 and 2021:

| <u>Details about Accumulated Other Comprehensive Income Components</u> | <u>Amounts Reclassified from Accumulated Other Comprehensive Income</u> | | <u>Affected Line Item in the Statement Where Net Income is Presented</u> |
|--|---|--------------|--|
| | <u>2022</u> | <u>2021</u> | |
| (in thousands) | | | |
| Gain on cash flow hedges: | | | |
| Interest rate contracts | \$ 73 | \$ 98 | Interest expense |
| | <u>(29)</u> | <u>(39)</u> | Tax expense |
| Amounts reclassified from accumulated other comprehensive income | <u>\$ 44</u> | <u>\$ 59</u> | Net of tax |

14. Transaction with the City of Nashua

On January 25, 2012, in full settlement of an ongoing Eminent Domain lawsuit filed by the City of Nashua (“City”) and with the approval of the NHPUC, the City acquired all of the outstanding shares of the Company and, thereby, indirect acquisition of its regulated subsidiaries. The total amount of the acquisition was \$150.6 million (“Acquisition Price”) of which \$138.4 million was for the purchase of the outstanding shares, \$5.0 million for the establishment of a Rate Stabilization Fund, \$2.6 million for legal and due diligence costs, \$2.3 million for severance costs, \$1.3 million for underwriting fees, and \$1.0 million for bond discount and issue costs. The entire purchase of \$150.6 million was funded by General Obligation Bonds (“Bonds”) issued by the City of Nashua. The Company is not a party to the Bonds and has not guaranteed nor is obligated in any manner for the repayment of the Bonds. The Company remains an independent corporation with an independent Board of Directors, with the City of Nashua as its sole stockholder.

Pennichuck Water, Pennichuck East, PAC, Service Corporation, and Southwood will continue as subsidiaries of Pennichuck Corporation and Pennichuck Water, Pennichuck East and PAC will continue as regulated companies under the jurisdiction of the NHPUC. The terms of the merger and the requisite accounting and rate-setting mechanisms were agreed to in the NHPUC Order No. 25,292 (“PUC Order”) dated November 23, 2011.

Transactions with Related Party – City of Nashua

The Company issued a promissory note to the City of Nashua in the amount of approximately \$120 million to be repaid over a thirty (30) year period with monthly payments of approximately \$707,000, including interest at 5.75%. The Company recorded an additional amount of approximately \$30.6 million as contributed capital. The remaining outstanding balance of the note payable to the City at December 31, 2022 and 2021 was approximately \$96.9 million and \$99.6 million, respectively, as disclosed in Note 11 to these consolidated financial statements. During 2022 and 2021, dividends of approximately \$278,000 and \$279,000, respectively, were declared and paid to the City. The dividends paid to the City during 2022 comprised approximately \$278,000 of regular quarterly dividends declared and paid; and no special dividend was declared or paid in 2022. The dividends paid to the City during 2021 comprised approximately \$279,000 of regular quarterly dividends declared and paid; and no special dividend was declared or paid in 2021.

Additional ongoing transactions occur in the normal course of business, between the Company and the City, related to municipal water usage, fire protection and sewer billing support services, and property taxes related to real property owned by the Company within the City of Nashua. For the years ended December 31, 2022 and 2021, respectively, approximately \$3.9 million and \$3.9 million were paid to the Company by the City for municipal water consumption, fire protection charges, and sewer billing support services. Conversely, the Company paid property taxes to the City of Nashua of approximately \$2.3 million for the year ended December 31, 2022, and approximately \$2.3 million for the year ended December 31, 2021.

Rate Stabilization Fund – Restricted Cash

As a part of the acquisition, the Company agreed to contribute \$5,000,000 of the proceeds from the settlement transaction to Pennichuck Water, which was used to establish an RSF, allowing for the maintenance of stable water utility rates and providing a mechanism to ensure the Company’s continued ability to meet its obligations under the promissory note to the City, in the event of adverse revenue developments. Restricted cash consists of amounts set aside in the RSF account and is adjusted monthly as required in the NHPUC Order, as discussed in Note 1 of these consolidated financial statements.

Municipal Acquisition Regulatory Asset (“MARA”)

Pursuant to the NHPUC Order, the Company established a new Regulatory asset (MARA) which represents the amount that the Acquisition Price exceeded the net book assets of the Company’s regulated subsidiaries (Pennichuck Water, Pennichuck East, and PAC) at December 31, 2011. The initial amount of the MARA was approximately \$89 million for the regulated companies, offset by a non-regulated amount of approximately \$4.8 million. The MARA is to be amortized over a thirty (30) year period in the same manner as the repayment of debt service for the City’s acquisition bonds. The balance in the MARA at December 31, 2022 was approximately \$66.6 million, reduced by the non-regulated credit of approximately \$3.7 million.

Aggregate amortization expense for the years ended December 31, 2022 and 2021 totaled approximately \$2,183,000 and \$2,119,000, respectively.

The following table represents the total estimated amortization of MARA:

| (in thousands) | Estimated Amortization Expense |
|---------------------|--------------------------------------|
| 2023 | \$ 2,253 |
| 2024 | 2,328 |
| 2025 | 2,409 |
| 2026 | 2,498 |
| 2027 | 2,590 |
| 2026 and thereafter | <u>50,821</u> |
| Total | <u>\$ 62,899</u> |

15. Segment Reporting

For the years ended December 31, 2022 and 2021, and as of those dates, the following financial results were generated by the segments of the Company:

| (in thousands) | 2022 | 2021 |
|---|-----------|-----------|
| <u>Operating Revenues:</u> | | |
| Pennichuck Water | \$ 39,837 | \$ 38,024 |

16. Rate Cases

Pennichuck Water-Emergency Special Water Contract

On October 21, 2021, Pennichuck Water filed an emergency tariff sheet request for approval with the NHPUC. The Company's emergency tariff filing was on behalf of a single customer, the Merrimack Village District (MVD), which would allow this customer to purchase bulk water at Pennichuck Water's variable cost of production. The initial rate to be billed was determined to be \$0.67 per cubic feet. This emergency tariff would allow MVD access to Pennichuck Water's bulk water supply in late 2021 and throughout 2022, while MVD's water supply systems were brought into compliance with water quality regulations for per- and polyfluoralkyl (PFAS) contaminants, with the installation of treatment facilities on their existing wells.

On November 12, 2021, the NHPUC issued Order No. 26,552, with an effective date of November 20, 2021, approving Pennichuck Water's request for an emergency tariff filing on behalf of a single customer, the MVD. This emergency tariff was granted on a temporary basis and must not exceed a term longer than six months from the effective date.

In conjunction with this, Pennichuck Water also opened a docket under DW 21-134 for the approval of a special contract for these emergency rates, in order to bring those rates into full force and effect (preceding and succeeding the emergency rate tariff), upon approval, for the time period from which the emergency usage of this water was initiated on October 20, 2021, for a period not to exceed a termination date of December 31, 2022. On March 25, 2022, the NHPUC issued Order No. 26,597, approving this special contract with the MVD from October 1, 2021, until December 31, 2022.

Pennichuck Water-Increase in Permanent Rates

On June 27, 2022, Pennichuck Water filed a request with the NHPUC for a rate increase of 13.06% over its current rates for the test year 2021. As the Company’s financial performance in the 2021 test year did not support the approval of temporary rates, it was denied temporary rates at current rates, which would have provided permanent rate relief back to the “order of notice” date for the case on August 1, 2022. As such, this rate increase will be earned prospectively once ordered and approved. The overall rate increase is subject to the normal regulatory filing process with the NHPUC. The 13.06% rate increase would be inclusive of a 3.90% Qualified Capital Project Adjustment Charge (QCPAC) surcharge which was approved on December 9, 2021 in Order No. 26,555 and a 1.56% QCPAC surcharge which was approved on March 29, 2022 in Order No. 26,598, as well as a 1.80% QCPAC surcharge which was approved on October 11, 2022 in Order No. 26,697, all of which in the aggregate account for 7.26% of the overall requested increase. Final approval by the NHPUC on new permanent rates for PWW is expected in the summer of 2023.

Pennichuck East-Increase in Permanent Rates

On November 24, 2020, Pennichuck East filed a request with the NHPUC for a rate increase of 21.05% over its current rates for the test year 2019, effective December 24, 2020, for which 15.00% of this increase was related to a request for a temporary rate increase effective for services rendered on or after December 24, 2020. The temporary rate increase was subject to approval by the Commission which is separate and distinct from the final rate increase approval, as the Commission’s final determination on the permanent rate increase request is processed to completion. The 15.00% temporary rate increase would be inclusive of a 2.98% QCPAC surcharge which was approved on December 6, 2019 in Order No. 26,313 and a 1.97% QCPAC surcharge which is currently pending in DW 20-019.

On August 16, 2021, the NHPUC issued Order No. 26,508 approving temporary rates at 14.03% effective on a service rendered basis as of December 24, 2020. The temporary rate increase was inclusive of a QCPAC surcharge of 2.98% which was approved in 2019 within order No. 26,313.

In addition to the rate increase requested, Pennichuck East requested certain modifications to its ratemaking structure which were similarly approved for Pennichuck Water on July 24, 2020 by NHPUC Order No. 26,383. These modifications included:

- creating a Material Operating Expense Factor (MOEF), an expense factor on top of its material operating expenses to cover inflationary increases between rate filings, as a component of that portion of its allowed revenues in determining permanent rates;
- inclusion of actual NHBET cash payments in its revenue requirement calculation;
- reprioritizing the use of Debt Service Revenue Requirement (DSRR) 0.1 funds;
- recovery of State Revolving Loan Fund and Drinking Water Groundwater Trust Fund debt issuance costs; and

- re-establishment of imprest levels of the components of the RSF account and the retention of a previously approved reconciliation mechanism.

On February 18, 2022, the NHPUC issued Order No. 26,586 approving an overall permanent rate increase of 16.79%, which became effective with services rendered back to December 24, 2020. In addition, the Order approved the requested modifications to its ratemaking structure.

Pennichuck Water-Qualified Capital Project Adjustment Charge

On February 11, 2021, Pennichuck Water filed a petition with the NHPUC for a 1.50% QCPAC surcharge on all capital improvements completed and placed in service by Pennichuck Water in 2020.

On March 29, 2022, the NHPUC issued Order No. 26,598 approving a QCPAC surcharge of 1.56% for capital projects placed in service in 2020. This order became effective with services rendered back to April 2, 2021 and allows for recovery in the form of a monthly recoupment surcharge, to be collected over a twelve-month period from the date of the order.

On February 14, 2022, Pennichuck Water filed a petition with the NHPUC for a 1.75% QCPAC surcharge on all capital improvements completed and placed in service by Pennichuck Water in 2021.

On October 11, 2022, the NHPUC issued Order No. 26,697 approving a QCPAC surcharge of 1.8% for capital projects placed in service in 2021. This order became effective with services rendered back to April 26, 2022 and allowed for recovery in the form of a monthly recoupment surcharge, to be collected over a three-month period from the date of the order.

Pennichuck East-Qualified Capital Project Adjustment Charge

On February 11, 2021, Pennichuck East filed a petition with the NHPUC for a 4.28% surcharge on all capital improvements completed and placed in service by Pennichuck East in 2020.

On April 8, 2022, the NHPUC issued Order No. 26,608 approving a QCPAC surcharge of 4.02% for capital projects placed in service in 2020. This order became effective with services rendered back to September 29, 2021 and allowed for recovery in the form of a monthly recoupment surcharge, to be collected over a five-month period from the date of the order.

On February 10, 2022, Pennichuck East filed a petition with the NHPUC for a 0.84% surcharge on all capital improvements completed and placed in service by Pennichuck East in 2021.

The Commission has not issued an Order approving this requested surcharge. When the Commission issues the Order the surcharge will become effective retroactively on services rendered basis back to October 18, 2022. The Order will allow recoupment of the surcharge from all its customers based on their actual bills incurred between October 18, 2022 and the final effective date of the Order. Final approval by the NHPUC on this QCPAC surcharge is expected to be received in early 2023 (see Subsequent Events Note 18).

17. COVID-19 Pandemic Impact

In March 2020, the World Health Organization (“WHO”) recognized COVID-19 as a global pandemic and the President of the United States of America declared the COVID-19 outbreak in the United States a national emergency. This prompted many national, regional, and local governments to implement preventative or protective measures, such as travel and business restrictions, temporary business closures, and wide-sweeping quarantines and stay-at-home orders.

During the COVID-19 pandemic, the Company’s services have generally been considered essential in nature and have not been materially interrupted. As the situation continues to evolve, management is closely monitoring the impact of the COVID-19 pandemic on all aspects of the Company’s business, including how it impacts customers, subcontractors, suppliers, vendors, and employees, in addition to how the COVID-19 pandemic impacts the Company’s ability to provide services to customers. We believe the ultimate impact of the COVID-19 pandemic on operating results, cash flows and financial condition is likely to be determined by factors which are uncertain, unpredictable, and outside of our control. The situation surrounding COVID-19 remains fluid, and if disruptions do arise, they could materially adversely impact our business.

18. Subsequent Events

The Company has evaluated the events and transactions that have occurred through March 21, 2023, the date that these consolidated financial statements were available for issuance.

Pennichuck East Utility Financing

Pennichuck East Utility filed a petition with the PUC to refinance its currently outstanding \$1.25 million balloon maturity note payable to CoBank, which matures on June 20, 2023. This proposed refinancing will replace the balloon maturity payment due in June 2023, with a new fully amortizing 10-year obligation for the remainder of the term of repayment of the debt, which in the aggregate will be 26 years, and less than the overall aggregate useful lives of those initially funded capital projects.

Pennichuck Water-Qualified Capital Project Adjustment Charge

On February 14, 2023, Pennichuck Water filed a petition with the NHPUC for a 1.37% surcharge on all capital improvements completed and placed in service by Pennichuck Water in 2022. The Commission has not issued an Order approving this requested surcharge. When the Commission issues the Order the approved surcharge will become effective retroactively on a services rendered basis. The Order will allow recoupment of the surcharge from all its customers based on their actual bills incurred between the services rendered date and the final effective date of the Order. Final approval by the NHPUC on this QCPAC surcharge is expected to be received in late 2023.

Pennichuck East-Qualified Capital Project Adjustment Charge

On January 27, 2023, the NHPUC issued Order Nisi No. 26,767 approving a QCPAC surcharge of 0.94% for capital projects placed in service in 2021. This order became effective with services rendered back to October 18, 2022 and allowed for recovery in the form of a monthly recoupment surcharge, to be collected over a three-month period from the date of the order.

On February 14, 2023, Pennichuck East filed a petition with the NHPUC for a 1.36% surcharge on all capital improvements completed and placed in service by Pennichuck East in 2022. The Commission has not issued an Order approving this requested surcharge. When the Commission issues the order, the approved surcharge will become effective retroactively on a services rendered basis. The Order will allow recoupment of the surcharge from all its customers based on their actual bills incurred between the services rendered date and the final effective date of the Order. Final approval by the NHPUC on this QCPAC surcharge is expected to be received in late 2023.

*Note: Rate of Return based on YTD NBV/12*months

Tier 1 - use the corporate expense allocation between TSC, PWSC and regulated utilities. The allocation among utilities will be based on total assets and customers.

Tier 2 - allocate to PWW, PEU, PAC and PWSC based on total assets and customers

Tier 3 - allocate to PWW, PEU and PWSC based on total assets and customers

Tier 4 - allocate to the regulated utilities (PWW, PEU and PAC) based on total assets and customers.

Note: Laboratory Equipment not included. Currently, PWW charges a \$15 fee for all lab work which is considered to be a competitive price and \$5 higher than charged by the State of New Hampshire.

Project Description

New Dump Truck to Replace #7, 2009 Peterbuilt 335, 100K Miles, 6000 hrs Continuous High Maintenance, suspension electrical issues

Single Family, Owner Build, New Homes

Replacement of Failed Services

Replacement of non functional hydrants

Replacement of Failed Gate Valves

New Radios for new customers (200)

Year 3 of 10 Replacement of all PWW Radios installed in 2007 (2800) by contractor

New meters for new customers (200). Replacement of failed meters (200)

New Meters for PFOA customers (25)

New Utility Truck to replace existing high mileage/maintenance vehicles #84 2014 Ford F350 100K+ miles, body rot

New Utility Truck to replace existing high mileage/maintenance vehicles #9 2014 Ford F350 110K+ miles, body rot

New Full Sized Pickup to Replace existing Veh #22 2013 Chevy Equinox w/150K miles that has been retired due to no inspection

New Full Sized Pickup to replace Disconnect Vehicle #346 - 2017 Chevy Express 2500 Van w/67K miles - that will be Painting Van

Protectus Meter Upgrade

Miscellaneous Construction Equipment

New Forman's Truck to replace #357- 2018 Kenworth T170, 6K Hrs, 70K Miles - Continuous maintenance, electrical is: compressor needs to be replaced, No onboard air system, underpowered engine.

Upgrade of Ford Meter Test Bench to replace failed computer components and associated hardware fittings

Upgrade of Hardware & Software needed as part of the N360 meter reading upgrade - 13 R900 Belt Clip Tranceivers, Mobile Data Collectors, N360 Software subscription for 38K customers.

Replacing 160 LF of 1953 2" main with 4" PVC

Replacing 160 LF of 1948 1.25" main with 4" PVC

Replacing 470 LF of 1938 8" CI main with 8" DI

Replacing 140 LF of 1947 1.25" main with 6" DI

Replacing 1450 LF of 1888-1951 6" CI main with 12" DI

Replacing 1450 LF of 1888-1927 4" & 6" CI main with 6" DI

Replacing 450 LF of 1954 1.5" & 2" main with 4" PVC

Replacing 570 LF of 1887 8" CI main with 12" DI

Replacing 520 LF of 1909-1978 1.25"-4" main with 12" DI

Replacing 3080 LF of 1888-1912 6" CI main with 8" DI

Replacing 975 LF of 1888 8" CI main with 12" DI

Replacing 2300 LF of 1887 8" CI main with 8" DI

Replacing 840 LF of 1888 4" CI main with 8" DI

Replacing 2395 LF of 1893-1916 4" & 6" CI main with 8" DI

| |
|---|
| Carry over shared paving cost with City of Nashua - Spring 2023 |
| 10+/- trees died and need replaced in spring 2023 - funds held in retainage until complete |
| Total Project Cost exclusive of NHDOT contribution |
| 150 of 8" DI with Meter Vault plus Station Demolition and Well Abandonment |
| 1600 LF of new 4 inch PVC watermain and Treatment Equipment |
| Create new HP area with 1600 LF of Water Main and Check Valves |
| New Domestic flow and pressure booster station |
| Projects associated with the City of Nashua Sewer Replacement program (Design) |
| Replacing 430 LF of 1931-1938 8" CI main with 12" DI - Design only. Construction in 2024 |
| Replacing 260 LF of 1936 8" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 210 LF of 1893 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 1885 LF of 1941-1949 6" & 8" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 420 LF of 1908-1926 6" CI main with 6" DI- Design only. Construction in 2024 |
| Replacing 1620 LF of 1896-1907 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 1225 LF of 1911-1923 8" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 225 LF of 1901 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 490 LF of 1906 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 420 LF of 1890 4" CI main with 6" DI- Design only. Construction in 2024 |
| Replacing 330 LF of 1892 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 2250 LF of 1888-1940 6" & 8" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing 1690 LF of 1888 6" CI main with 8" DI- Design only. Construction in 2024 |
| Replacing remaining 2" PE mains that were not completed in 2021- Design only. Construction in 2024 |
| Replacing 180 LF of 1.5 inch Galv with 4inch PVC |
| Abandon Replacing 290 LF of 1.5" & 2" |
| Replacing 435 feet of 1.5 & 8 inch with 4 inch PVC & 8 inch DI |
| Replacing 210 LF of 1893 6" CI main with 8" DI |
| Replacing 1885 LF of 1941-1949 6" & 8" CI main with 8" DI |
| Replacing 225 LF of 1901 6" CI main with 8" DI |
| Replacing 490 LF of 1906 6" CI main with 8" DI |
| Replacing 330 LF of 1892 6" CI main with 8" DI |
| Replacing 2250 LF of 1888-1940 6" & 8" CI main with 8" DI |
| Final Design, Permitting and Bidding |
| Interconnection of the English Woods Station to the Donald Street Area with building expansion to remove chloramine |
| Implement Recommendations Evaluated in 2021 |
| Level Monitors, Pressure Monitors and Flow Monitors |
| SUV Replaces 2010 SUV #33 with over 118,000 miles. Deferred from 2022 |
| SUV Replaces (#34) 2010 with over 196,000 miles. Deferred from 2022 |
| Grant Match with other Stakeholders \$40k year 2 of 5. |
| 1x Annual Revenue |
| Booster Pump replacement/rebuild |
| Well Pump replacements |
| Chemical Feed pump replacements |
| Replace Radio Comms, various stations |
| Replace Roof, backwash return pump station |
| Misc. Structural Improvements |
| Miscellaneous Equipment Purchased |
| Miscellaneous SCADA/Electrical |
| Rebuild 1 High lift/Intermediate pump |
| WTP Structural/HVAC |
| Purchase new lab equipment |
| Miscellaneous Fencing and Security projects |
| vehicle replacement #39, 2012 w/ 120,000 + miles |

| |
|--|
| vehicle replacement #40 2014 w/>100K miles, rust |
| Re-paint FWPS ceiling |
| Replace 6 filter turbidimeters (manufacturer no longer supports current units) |
| Replace Filter Media 5A thru 6B |
| Cameras for WTP |
| ESRI Utility Network |
| There is a need at this facility to have multiple intercom updates since the original system was installed and an update |
| On premise appliance that will sift through server logs looking for anomalies and notify IT of issues. |
| This server is one of 2 servers that were replaced in 2017. This replacement will flatten out our replacements over the |
| Replacement Desktop Hardware for Jason, and Laptop for Steve |
| Due to the retirement of ClickSoft by the vendor, a replacement must be purchased and implemented. |
| Replacement of iPad hardware as it becomes obsolete for field use. |
| Replace Existing DoForms with Clarios Data collection for WTP field staff |
| Miscellaneous Software |
| Miscellaneous Hardware |
| Interest incurred to finance 2023 Capex until permanent financing is achieved |

| Project Description |
|---|
| Single Family, Owner Build, New Homes |
| Replacement of Failed Services |
| Replacement of non-functional hydrants |
| Replacement of Failed Gate Valves |
| New Radios for new customers (200) |
| New Radios for PFOA Customers (25) |
| Year 4 of 10 Replacment of all PWW Radios installed in 2007 (2800) by contractor |
| New meters for new customers (200). Replacement of failed meters(200) |
| New meters for PFOA customers (25) |
| New Utility Truck to replace existing high mileage/maintenance vehicles |
| New Utility Truck to replace existing high mileage/maintenance vehicles |
| New Full Sized Pickup to Replace existing high mileage/maintenance pickup |
| New Utility Van to replace existing high mileage/maintenance vehicles |
| Protectus Meter Upgrade |
| Miscellaneous Construction Equipment |
| New Hydrant/Crane Truck to replace #19 - 2011 Ford F-450 High Mileage & Hours, Extensive Vehicle & Crane Maint |
| New Dump Truck to replace #10, 2008 Peterbilt 335, 100K+ miles, 9000hrs, body rot & high Maint & repair costs |
| New Vacuum Excavator Truck for LCR pothole excavation & safe excavation around other utilities, minimize excavation costs, pavement repairs and reliance on outside contractors. Very safe excavation in tight places w/multiple utilities. |
| Replacing 160 LF of 1953 2" main with 4" PVC - Final Pavement and Restoration |
| Replacing 160 LF of 1948 1.25" main with 4" PVC - Final Pavement and Restoration |
| Replacing 470 LF of 1938 8" CI main with 8" DI - Final Pavement and Restoration |
| Replacing 140 LF of 1947 1.25" main with 6" DI - Final Pavement and Restoration |
| Replacing 1450 LF of 1888-1951 6" CI main with 12" DI - Final Pavement and Restoration |
| Replacing 1450 LF of 1888-1927 4" & 6" CI main with 6" DI - Final Pavement and Restoration |
| Replacing 450 LF of 1954 1.5" & 2" main with 4" PVC - Final Pavement and Restoration |
| Replacing 570 LF of 1887 8" CI main with 12" DI - Final Pavement and Restoration |
| Replacing 520 LF of 1909-1978 1.25"-4" main with 12" DI - Final Pavement and Restoration |
| Replacing 3080 LF of 1888-1912 6" CI main with 8" DI - Final Pavement and Restoration |
| Replacing 975 LF of 1888 8" CI main with 12" DI - Final Pavement and Restoration |
| Replacing 2300 LF of 1887 8" CI main with 8" DI - Final Pavement and Restoration |
| Replacing 840 LF of 1888 4" CI main with 8" DI - Final Pavement and Restoration |
| Replacing 2395 LF of 1893-1916 4" & 6" CI main with 8" DI - Final Pavement and Restoration |
| Replacing 430 LF of 1931-1938 8" CI main with 12" DI |
| Replacing 260 LF of 1936 8" CI main with 8" DI |

*Note: Rate of Return based on YTD NBV/12*months

Tier 1 - use the corporate expense allocation between TSC, PWSC and regulated utilities. The allocation among utilities will be based on total assets and customers.

Tier 2 - allocate to PWW, PEU, PAC and PWSC based on total assets and customers

Tier 3 - allocate to PWW, PEU and PWSC based on total assets and customers

Tier 4 - allocate to the regulated utilities (PWW, PEU and PAC) based on total assets and customers.

Note: Laboratory Equipment not included. Currently, PWW charges a \$15 fee for all lab work which is considered to be a competitive price and \$5 higher than charged by the State of New Hampshire.

Summary of Rate Case Expenses and Estimate

Puc 1905.01(a)

Rate Case Expense Report - #1

Puc 1905.01(a)

Pursuant to N.H. Code Admin. R. Puc 1905.01(a), PWW, PEU, and PAC hereby provide the following rate case expense information:

1. Puc 1905.01(a)(1)(a), The name of the service provider

N.H. Brown Law, PLLC (for legal services)
Concentric Energy Advisors, Inc. (for cost of service study)
Direct Mail of Maine, Inc. (DMM)

2. Puc 1905.01(a)(1)(b), The procurement process

PWW, PEU, and PAC conducted a thorough, competitively bid selection process to secure outside consultant services for its rate case. PWW solicited proposals and interviewed multiple firms. The Companies selected N.H. Brown Law, PLLC for its legal services. The Companies selected Concentric Energy Advisors, Inc. for the cost of service study. The Companies selected DMM for its print and marketing services through a prior competitive search.

3. Puc 1905.01(a)(1)(c), The amount of the expense

To date, legal and consulting services have not yet been billed.

4. Puc 1905.01(a)(1)(d), A description of the charge or service rendered

Please also see response to item #1 and #2 above.

5. Puc 1905.01(a)(2) A list of all services to be rendered on behalf of the utility in the full rate case by any vendor; and

There are no additional vendors than listed above.

6. Puc 1905.01(a)(3), The total estimated costs of each service.

NH Brown Law, PLLC legal fees are projected to cost \$80,000.
Concentric Energy Advisors, Inc. services are projected to cost approximately \$60,000.
DMM's services are projected to cost approximately \$70,000.
PWW, PEU, and PAC have budgeted \$7,000 for the Commission's transcription costs.
