**PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE
d/b/a EVERSOURCE ENERGY**

Petition For Adjustment of Stranded Cost Recovery Charge

Procedural Order Re: Record Requests

The Commission requests that Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource) respond to the following record requests on or before the close of business on February 20, 2024:

Record Request 6

Eversource is requested to provide a complete accounting of the derivation of the (approximately) \$71 million Cumulative Reduction Factor (CRF) balance presented by the Company in this proceeding, beginning with the first overmarket dollar (since the commencement of plant operation). We note that the current total overmarket amount is approximately \$171 million. Use Jan 31, 2024 as the end date.

Record Request 7

Eversource is requested to update its SCRC rate calculations to incorporate its current actual expenditures, position on REC's and capacity netting against the CRF balance, and latest forecast on Burgess-related costs within the Chapter 340 and Part 2 SCRC rate components, for rates effective on March 1, 2024.

Record Request 8

Eversource is requested to update its reconciliation figures for the SCRC (for the February 1, 2023 through January 31, 2024 SCRC year) using actual figures through the end of January 2024.

Record Request 9

Eversource is requested to provide projection scenarios for the expected costs to ratepayers for these two potential outcomes for Burgess:

(1) The Burgess PPA is severed immediately and the CRF balance is abrogated in full with no further payments made to Burgess, using the company's estimate for the total CRF balance at the time of the severing;

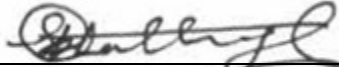

(2) Performance of the Burgess PPA is enforced according to the terms articulated by the Company at the January 19, 2024 SCRC hearing, through the end of the PPA term

in Oct./Nov. 2033, with netting against the CRF balance reflected only for energy delivered to Eversource from Burgess.

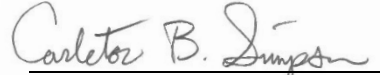

So ordered, this fifteenth day of February, 2024.
