**Re: Unitil Energy Systems Inc. Request for Approval of Energy Efficiency Rates
Effective January 1, 2024**

Dear Chairman Goldner:

On December 1, 2023, Unitil Energy Systems Inc. ("UES") filed proposed Energy Efficiency rates for effect January 1, 2024. After filing, UES discovered that the charges listed for the Renewable Portfolio Standard ("RPS") Charge (Supply Rate) under the TOU-EV-G1 rate on the clean version of Tariff Page 5-A were not correct. The charges were incorrectly listed as:

| | |
|--------------|-----------|
| Off-Peak kWh | \$0.00686 |
| Mid-Peak kWh | \$0.00686 |
| On-Peak kWh | \$0.00686 |

However, the correct charges were listed on the redlined version of tariff Page 5-A as follows:

| | |
|--------------|-----------|
| Off-Peak kWh | \$0.00719 |
| Mid-Peak kWh | \$0.00719 |
| On-Peak kWh | \$0.00719 |

In order to correct this error, UES is resubmitting its filing with a corrected copy of the clean version of Tariff Page 5-A. This version reflects the correct RPS charge (i.e., \$0.00719) on both the clean and redlined versions of Tariff Page 5-A. In all other respects, the enclosed filing is unchanged from the December 1st filing. For ease of review, UES respectfully requests that the enclosed filing replace its December 1st filing in its entirety.

Request for Approval of EE Rates
