TOWN OF LOUDON

Request for Approval of Loudon Community Power Plan

Commission Approval of Amended Community Power Aggregation Plan

ORDER NO. 27,040

July 25, 2024

In this order, the Commission approves the Town of Loudon's (Loudon or the Town) Amended Community Power Electric Aggregation Plan (Amended Plan).

I. BACKGROUND

The Town's initial request for approval of a community power aggregation plan was submitted on January 17, 2024. No comments were received, and the Commission approved the Plan in Order No. 26,965 on March 13, 2024. After the issuance of Order No. 26,965, the Commission was notified by the New Hampshire Electric Cooperative (NHEC) that the NHEC, who is an electric distribution utility servicing the Town, was omitted from the Plan. On May 9, 2024, the Commission issued a procedural order directing the Town to file an amended plan to include provisions pertaining to the NHEC by June 5, 2024.

The Amended Plan was filed with the Commission on June 5, 2024. On June 5, 2024, the Commission issued a supplemental order of notice establishing a deadline for comment on the Amended Plan.

NHEC submitted a comment, on June 14, 2024, in support of the Amended Plan and appreciation for the clarification provided.

All docket filings, other than information for which confidential treatment is requested of or granted by the Commission, are posted to the Commission's website at <https://www.puc.nh.gov/Regulatory/Docketbk/2024/24-013.html>

II. COMMISSION ANALYSIS

The Commission has reviewed the Amended Plan pursuant to RSA 53-E:7, II, as amended, which states that

The commission shall approve any plan submitted to it unless it finds that it does not meet the requirements of this chapter and other applicable rules and shall detail in writing addressed to the governing bodies of the municipalities or counties concerned, the specific respects in which the proposed plan substantially fails to meet the requirements of this chapter and applicable rules.

RSA 53-E:7, II, provides specific direction on the process to be used for the submission of such plans, including the following requirements: 1) on the same day the plan is submitted to the Commission, copies shall be provided to the Office of the Consumer Advocate and any electric distribution utility providing service within the jurisdiction of the municipality; 2) the Commission shall accept public comments for 21 days thereafter; and 3) the Commission's review of the plan and comments shall not require a contested case. N.H. Admin R. Puc 2204.01(a) also requires notification of aggregation plan filings be made with the New Hampshire Department of Energy. The Town's submission complied with these procedural requirements.

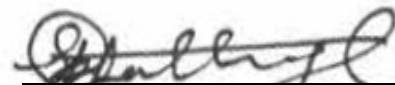

Loudon's Amended Plan assumes, but does not require, that Loudon will participate fully in the Community Power Coalition of New Hampshire (CPCNH) to provide electric energy supply and related program services. CPCNH is a joint powers agency authorized under RSA 53-A, where member-municipalities utilize joint resources with each other, including shared third-party services, staff support, power solicitations, local project development, information sharing, and public advocacy.

Based on our review of the Amended Plan, we have determined that the Amended Plan does not substantially fail to meet applicable requirements of RSA chapter 53-E or applicable rules. The Amended Plan contains an adequate level of detail of RSA 53-E:6's statutory criteria, other applicable statutory requirements, and applicable rules including Puc ch. 2200.

Based upon the foregoing, it is hereby determined that the Town of Loudon's Request for Amended Plan Approval is GRANTED.

By order of the Public Utilities Commission of New Hampshire this twenty-fifth day of July, 2024.

Daniel C. Goldner
