RE: Docket No. DE 24-046, Public Service Company of New Hampshire
d/b/a Eversource Energy, 2024 Energy Service Solicitations
Proposal for Expanded Direct Wholesale Market Participation

Dear Chairman Goldner:

Pursuant to the Commission's *Order Approving Solicitations, and Requesting Re-Filing of Energy Service Rates by July 10, 2024*, Order No. 27,022 (June 20, 2024) (the "Order"), Public Service Company of New Hampshire d/b/a Eversource Energy (the "Company") was directed to file with the Commission, no later than August 1, 2024,

a proposal for the Company's upcoming February-July 2025 Energy Service period that would include the following components: (1) an ISO-New England market-based procurement tranche of at least 30 percent, with no upper bound, for the Small Customer Group, and full (100 percent) ISO-New England market-based procurement for the Large Customer Group, along the lines approved by the Commission in Order Nos. 26,994 and 27,005 and this instant Order, with the following adjustments, and with an explanation of the Company's choice of the given tranche size provided by the Company for the Small Customer Group; (2) a modification wherein the "proxy price" for these market-based procurement tranches for the Small Customer Group would be an average of (a) the four-year rolling weighted average of ISO-New England market prices in the New Hampshire load zone, and (b) the NYMEX futures prices for the upcoming six-month energy service period for ISO-New England; (3) a continuation of the monthly pricing approach for the Large Customer Group, with an appropriate proxy price.

The Company hereby submits its proposal for expanded limited direct ISO New England wholesale market participation for 30% of its Small Customer Group load, and 100% of its Large Customer Group load, for the six-month energy service rate period beginning on February 1, 2025, as set forth in the enclosed pre-filed joint testimony of Parker Littlehale and Yi-An Chen.

The Company respectfully requests that the Commission review and approve this proposal, through a further phase of the proceeding, in a timely manner and with a decision issued not later than October 15, 2024, in order to afford the Company sufficient time to prepare

to implement the limited direct market participation in conjunction with the competitive solicitation of third-party wholesale supply for the remaining tranches of its customer load.

Consistent with current Commission policy, this filing is being made electronically only and paper copies will not follow. If you should have any questions, please contact me.

Sincerely,

/s/ David K. Wiesner
