This Interconnection Agreement ("Agreement") is made effective as of the date last signed below by and between Teliix, Inc., a corporation organized under the laws of Colorado with offices at 2150 W. 29th Ave., Suite 200, Denver, CO 80211 ("Teliix") and Consolidated Communications Company of Northern New England Company, LLC ("Consolidated") a limited liability company organized under the laws of the State of Delaware, with principal offices at 2116 South 17th Street, Mattoon, IL 61938. Consolidated and Teliix may also be referred to herein singularly as a "Party" or collectively as the "Parties."

RECITALS

WHEREAS, Consolidated is an incumbent local exchange carrier ("Consolidated") and Teliix is a competitive local exchange carrier and both Parties are authorized by the New Hampshire Public Utilities Commission ("Commission") to provide telecommunications services in the State of New Hampshire; and

WHEREAS, Sections 251 and 252 of the Communications Act of 1934 as amended by the Telecommunications Act of 1996 (the "Act") have specific requirements for interconnection, and the Parties intend to comply with these requirements; and

WHEREAS, The Parties desire to interconnect their respective networks to allow either Party to exchange Local Traffic and Tandem Transit Traffic with the other Party; and

WHEREAS the Parties are entering into this Agreement to set forth the respective obligations of the Parties and the terms and conditions under which the Parties will interconnect their networks and provide other services as required by the Act and applicable law; and

WHEREAS, the Parties have arrived at this Agreement through negotiations undertaken pursuant to the Act.

NOW THEREFORE, in consideration of the mutual obligations set forth below, the Parties agree to the following terms and conditions:

1. Scope of Agreement

- 1.1 This Agreement addresses the terms and conditions under which Teliix and Consolidated agree to exchange only Local Traffic between their respective End Users, at rates as specified in Schedule I, by a direct or indirect connection at the Point of Interconnection (POI) in accordance with this Agreement. All traffic that either Party may deliver to the POI that falls outside of the definition of Local Traffic or Tandem Transit Traffic shall not be subject to the terms and conditions of this Agreement (the "Excluded Traffic") but may be subject to other arrangements and/or tariffs of the Parties which shall govern the intercarrier treatment of such Excluded Traffic. The Parties further agree that they will strictly construe the definition of Local Traffic and will ensure that they each will abide by the additional terms and conditions of Section 8 regarding facilities and traffic addressed under this Agreement. This Agreement also establishes the

methodology for the exchange of and compensation for traffic originated on the network of a third-party carrier that transits Teliix's network and is delivered by Teliix to Consolidated for termination.

- 1.2 All Local Traffic exchanged between the Parties shall be compensated in accordance with Section 4, below. All Tandem Transit Traffic shall be compensated in accordance with Section 9, below.
- 1.3 Each Party agrees that it will not knowingly provision any of its services in a manner that results in misclassification of traffic for circumvention of applicable switched access charges by the other Party ("Misclassified Traffic") and/or the utilization of the physical connecting arrangements described in this Agreement to permit the delivery to the other Party of Excluded Traffic through the POI. If a Party, through reasonable evaluation of its records, traffic data or other information identifies Misclassified Traffic and/or Excluded Traffic delivered through the POI, the Parties agree to invoke the Dispute Resolution provisions of this Agreement in Section 32.
 - 1.3.1 To the extent the dispute confirms origination or termination of Misclassified Traffic or Excluded Traffic by a Party, such Party agrees to take all reasonable steps to terminate and/or reroute any service to one of its End Users that permits that End User or any entity to send Misclassified Traffic or to utilize the POI for the delivery or receipt of Excluded Traffic through the POI.
 - 1.3.2 The Party that is allowing Misclassified Traffic to be exchanged or the POI to be used for the delivery of Excluded Traffic shall pay either terminating or originating access charges for all such traffic so identified based on the directionality of the traffic and pursuant to the applicable tariff of the other Party.
 - 1.3.3 Following the resolution of a dispute involving Misclassified Traffic, if it is confirmed that a Party continues to deliver the same Misclassified Traffic, that was subject to the dispute, to the other Party which constitutes more than two percent (2%) of the total traffic originated by such Party during any consecutive three (3)-month period, such Party shall be in Default of this Agreement, subject to Section 3 of the General Terms and Conditions of this Agreement. To the extent that the Parties have invoked the Dispute Resolution procedures to determine the proper treatment or quantity of the Misclassified Traffic, a Default shall not occur while such dispute is pending. Each Party shall make a good faith effort to resolve any such pending dispute within a reasonable time period.
- 1.4 The Parties enter into this Agreement without prejudice to any positions they have taken previously, or may take in the future in any legislative, regulatory, judicial

or other public forum addressing any matters, including matters related specifically to this Agreement, or other types of arrangements prescribed in this Agreement; provided, however, that this agreement shall remain binding on the Parties.

- 1.5 All references to Sections and Schedules are deemed to be references to the Sections of and the Schedules to this Agreement unless the context otherwise requires. Unless the context shall otherwise require, any reference to any agreement, other instrument (including offerings, guides or practices of either Party or other third party), statute, regulation, rule or tariff is to such agreement, instrument, statute, regulation, or rule or tariff as amended and supplemented from time to time (and, in the case of a statute, regulation, rule or tariff, to any successor provision).
- 1.6 The Parties agree that to the extent either Party delivers traffic to the POI that falls outside of the definition of Local Traffic and Tandem Transit Traffic such traffic will be subject to the applicable interstate or intrastate access tariffs of the Parties.
- 1.7 Each Party shall comply with all federal, state, and local statutes, regulations, rules, ordinances, judicial decisions, and administrative rulings applicable to its performance under this Agreement. Each Party shall promptly notify the other Party in writing of any governmental action that suspends, cancels, withdraws, limits, or otherwise materially affects its ability to perform its obligations hereunder.

2. Definitions

Except as otherwise specified herein, the following definitions will apply to all sections contained in this Agreement. Additional definitions that are specific to the matters covered in a particular section may appear in that section. Any term used in this Agreement that is not specifically defined shall have the meaning ascribed to such term in the Act. If no specific meaning exists for a specific term used in this Agreement, then normal usage in the telecommunications industry shall apply.

- 2.1 “Act,” as used in this Agreement, means the Communications Act of 1934 (47 U.S.C. Section 151 et seq.), as amended by the Telecommunications Act of 1996, and as from time to time interpreted in the duly authorized rules and regulations of the Federal Communications Commission ("FCC") or the Commission.

- 2.7 “DS3” is a digital signal transmission rate of 44.736 Mbps.
- 2.8 Intentionally left blank.
- 2.9 “ISP-Bound Traffic” for the purposes of this Agreement, is defined as traffic that is transmitted to an Internet Service Provider (“ISP”) consistent with the ISP Remand Order (FCC 01-131), 16 FCC Rcd. 9151 (2001).
- 2.10 “Interconnection” means the indirect or direct physical linking of two networks for the mutual exchange of traffic.
- 2.11 “Interconnected VoIP Provider (“IVP”)” means an entity that provides interconnected VoIP service, as that term is defined in 47 CFR §9.3 and that obtains numbering resources as described in the VoIP Numbering Order.
- 2.12 “Intra-LATA Toll Traffic” is as defined in the Act.

3. Interconnection Arrangements

- 3.1 Where the Parties directly interconnect, each Party shall be responsible for the cost and any requirements associated with the establishment, including but not limited to if applicable, ordering processes and access service request processes of providing trunks to the POI for the exchange of Local Traffic, Tandem Transit Traffic. The POI must be at or within Consolidated’s exchange area boundary. Each Party will be solely responsible for the costs and operation of its portion of the construction of facilities to the POI. Teliix is solely responsible for the costs and operation of its facilities and trunks that carry 911/E911 Service.
- 3.2 The Parties acknowledge that Teliix may lease direct interconnection facilities from Consolidated or an alternate third-party provider, or, construct its own facilities in order to achieve connection at the POI. Where a Party arranged for the leasing or construction by a third party of the facilities it requires to the POI, that Party shall ensure and be responsible for the activities of that third party including, but not limited to, the necessary coordination of that third party's activities with the other Party.
- 3.3 Indirect interconnection. Where a Consolidated end office subtends a non-Consolidated tandem and the Parties anticipate traffic exchanged between the Parties will be at a level that is de minimis, the Parties agree to indirectly interconnect through the use of a third party's transit service. At such time as the monthly two-way aggregate traffic exceeds the equivalent of a DS1 volume of traffic based on a six-month rolling average (“Direct Connection Threshold”), a direct connection will be established pursuant to 3.4; provided however, if the Parties mutually agree that direct interconnection is undesirable, then the Parties shall continue to exchange traffic indirectly. Notwithstanding the foregoing, after the Direct Connection Threshold is satisfied, if either Party desires direct interconnection, then direct interconnection shall be mandatory.
- 3.4 The Parties will interconnect their networks for the exchange of traffic at the rates

contained in Schedule I hereto and incorporated by reference. A new POI can be established, or the existing POI moved, only with the consent of both Parties; provided, however, that where one Party requests that the POI be moved, the Party requesting such move may be required to pay the costs of the other Party associated with the move.

- 3.5 The Parties will use the direct interconnection trunk group(s) established at the POI to route Local Traffic and Tandem Transit Traffic to one another, pursuant to the terms and conditions of this Section 3 of the Agreement.
- 3.6 This Agreement is applicable only for the exchange of Local Traffic, and Tandem Transit Traffic. Both Parties agree to deliver only traffic within the scope of this Agreement.
- 3.7 Each Party warrants and represents that it will not provision any of its services or exchange any traffic hereunder in a manner that permits the unlawful avoidance of the application of intrastate or interstate access charges by any other Party including, but not limited to, third party carriers, aggregators, resellers, and the Commission- defined unlawful resale or bridging of Local Traffic. Each Party also agrees to take all reasonable steps to terminate any service to one of its users that permits that user to unlawfully avoid the application of access charges by the other Party.
- 3.8 For the purpose of intercarrier compensation, the Parties will adopt the local calling areas that are identical to those used by Consolidated as defined by the Commission for the Local Traffic exchanged pursuant to this Agreement. When securing numbering resources, the Parties will assign whole NXX Codes to each Rate Center, or where, applicable, thousand number blocks within a NXX Code assigned to that Rate Center. The Parties agree to transmit CPN and/or Automatic Number Identification ("ANI") on at least ninety-five percent (95%) of all traffic delivered to the POI. Where CPN and/or ANI is not provided on 95% or more of all traffic delivered to the POI, the Parties agree that the Party receiving such traffic shall assess, and the delivering Party shall pay to the receiving Party, the applicable intrastate terminating access charges on that portion of traffic without CPN and/or ANI. Both Parties agree that they will engineer their respective networks and design their respective systems to deliver traffic in compliance with this Section 3.
- 3.9 This Agreement does not obligate either Party to provide any arrangements or services not specifically provided for herein. This Agreement has no effect on the definition of End User services that either Party offers to its End User customers, the services either Party chooses to offer to its respective End User customers, the rate levels or rate structures that either Party charges its End Users for services.
- 3.10 Each Party is solely responsible for 911/E911 traffic originated by its End Users. The Parties acknowledge and affirm that calls to 911/E911 services shall NOT be

routed over the interconnection trunk group(s). To the extent that a Party incorrectly routes such traffic over such arrangements, that Party shall fully indemnify and hold-harmless the other Party for any claims, including claims of third parties, related to such calls.

3.11 Each Party shall solely be responsible for its Communications Assistance for Law Enforcement Act ("CALEA") enforcement-related activity.

4. Compensation for Local Traffic

4.1 All Local Traffic shall be exchanged between the Parties on a Bill and Keep basis. Under a Bill and Keep compensation arrangement, each Party retains the revenues it receives from End User customer, and neither Party pays the other Party for transport and termination of the traffic which is subject to the Bill and Keep arrangement. The specific compensation terms and conditions set forth in this Section 4.1 are limited to the exchange of Local Traffic between the Parties.

4.2 Neither Party shall provide the other VNXX traffic. CLEC certifies that due to the mass availability and portability of IP-based CPE, some of the traffic it sends to ILEC for termination may be Nomadic Traffic. Nomadic Traffic is traffic originating from an Internet Protocol ("IP") device other than at the End User's service location. The Parties understand and agree that some small amount of Nomadic Traffic is likely to be exchanged and wish to ensure that ILEC is properly compensated for such traffic. As a result, the Parties will initially assume that 2% of traffic exchanged is Nomadic Traffic and ILEC will bill its applicable interstate switched access rates for 2% of the local traffic sent by CLEC for termination. CLEC agrees that it will update the percentage notice according to the notice provisions of this Agreement and ILEC may request that CLEC review and update such percentage on a not more often than a quarterly basis.

5. Compensation for Leased Facilities

Should Teliix lease facilities from Consolidated in order to achieve connection at the POI, as specified in Section 3.2 above, Teliix shall purchase such facilities out of the applicable Consolidated tariff or published price list.

6. Local Number Portability ("LNP")

6.1 The Parties shall exchange trading partner profile information and LNP business rules.

6.2 Each Party shall inform the other Party of any system updates that may affect the other Party's network and each Party shall, at the other Party's reasonable request and to the extent practical, perform tests to validate the operation of the network.

6.3 LNP shall only be provided in accordance with FCC orders, rules and regulations,

and North American Numbering Council (“NANC”) guidelines and recommendations accepted by the FCC. The term service provider portability has the meaning set forth in 47 CFR 52.21. Location portability, as defined in 47 CFR 52.21, will not be provided by the Parties unless otherwise so ordered by the FCC. The Parties will work cooperatively to implement any FCC ordered location portability in the timeline outlined in the order. If a Party acts as a Numbering Partner and ports on the behalf of another provider that Party is fully responsible for compliance with porting rules as defined in this Section 6. If either Party’s operations and network procedures conflict with the FCC’s rules and orders, the FCC’s rules and orders will prevail.

- 6.4 Each Party agrees to provide Customer Service Records (“CSR”) to the other Party upon request and at no charge.
- 6.5 Each Party will coordinate LNP activities with the Number Portability Administration Center (“NPAC”) as required.
- 6.6 When a ported telephone number becomes vacant, e.g., the telephone number is no longer in service by the original End User, the ported telephone number will be released back, as prescribed in NPAC process flows, to the NXX code holder, or if thousand block pooling is being used in the rate center, the thousand block holder.
- 6.7 The Parties agree that traffic will be routed via a Local Routing Number (“LRN”) assigned in accordance with industry guidelines and the originating Party shall perform the N-1 query.
- 6.8 Letter of Authorization (“LOA”). Each Party is responsible for obtaining an LOA from each End User that requests LNP from one Party to the other Party. Both Parties agree to adhere to the applicable federal and/or state requirements regarding LOAs and preferred carrier freezes.
- 6.9 Combined LNP Requests. Each Party will accept LNP requests from the other Party for one End User that includes multiple requests for LNP only where the End User will retain each of the telephone numbers identified in the LNP request.
- 6.10 Expedited Order Charge. Expedited order requests will be accepted where reasonable and practical and will be assessed an expedited order charge. The expedited order charge is as agreed to in Schedule I.
- 6.11 LNP Request Date Modifications/End User Not Ready. Either Party may request a change in due date prior to the originally scheduled due date without additional charges if the new LNP date is requested during normal business hours and no additional or alternate workforce is needed to complete the modification.
- 6.12 If an “LNP Request Date Modifications/End User Not Ready” request is made (i)

outside normal business hours (if available) or (ii) is made within normal business hours and requires additional internal or outside work force, the Requesting Party (i.e. the Porting Party or the New Service Provider) will be assessed an Expedited Order Charge/LNP Date Modification as found in Schedule I.

7 Traffic Identifiers and Audits

- 7.1 Each Party shall keep six (6) months of usage records for the traffic delivered by it to the POI. Either Party may request an audit of usage data on not less than forty-five (45) days' written notice; provided however, such request may be made only once in a twelve-month period. Any such audit shall be accomplished during normal business hours at the office of the Party being audited. Audits may be performed by a qualified independent auditor or consultant paid for by the Party requesting the audit.
- 7.2 In order to facilitate audits, the Parties must accommodate prospective data collection if prior period data is not available as contemplated in Section 7.1 above.
- 7.3 On all traffic exchanged pursuant to this Agreement, neither Party shall intentionally substitute nor implement any arrangement within its switch(es) that generates an incorrect ANI, CPN or other SS7 parameters than those associated with the originating End User. If through an audit under this Section 7 it is determined that a Party has intentionally substituted or generated such incorrect parameters on traffic exchanged pursuant to this Agreement, the Parties shall invoke Dispute Resolution and restitution pursuant to Section 1.3 of this Agreement.
- 7.4 In addition to the other requirements contained in this Section 7, either Party may, upon written notice to the other Party, conduct an audit, during normal business hours, only on the source data/documents as may contain information bearing upon the services being provided under the terms and conditions of this Agreement. An audit may be conducted no more frequently than once per twelve (12) month period, and only to verify the other Party's compliance with provisions of this Agreement. The notice requesting an audit must identify the date upon which it is requested to commence, the estimated duration, the materials to be reviewed, and the number of individuals who will be performing the audit. Each audit will be conducted expeditiously. Any audit is to be performed as follows: (i) following at least 60 days' prior written notice to the audited Party; (ii) subject to the reasonable scheduling requirements and limitations of the audited Party; (iii) at the auditing Party's sole cost and expense; (iv) of a reasonable scope and duration; (v) in a manner so as not to interfere with the audited Party's business operations. No original books or records of the Party being reviewed may leave the premises of the Party being reviewed. Prior to commencing the review, the Party being reviewed may request the execution of a confidentiality agreement to protect confidential information disclosed through the course of the review at its

sole discretion.

- 7.5 The Parties can employ a 3rd party, if they have an NDA and 30-day notice to the other Party. If an independent auditor is to be engaged, the Parties shall select an auditor by the thirtieth (30th) day following Audited Party's receipt of a written audit notice. Auditing Party shall cause the independent auditor to execute a nondisclosure agreement in a form agreed upon by the Parties.

8 Physical Interconnection

- 8.1 The Parties agree that unless mutually agreed to the contrary, where direct interconnection is implemented, all Local Traffic and Tandem Transit Traffic exchanged between them shall be transmitted on trunks solely dedicated to such traffic. Neither Party shall terminate Intra-LATA nor Inter-LATA toll switched access traffic or originate untranslated toll-free traffic, including but not limited to 550/55X/555/800/888/877/866/855/844/833 traffic, over dedicated interconnection trunks. Traffic exchange shall be provided via two-way interconnection trunks where technically and operationally feasible unless both Parties agree to implement one-way trunks.
- 8.2 The Parties will mutually agree on the appropriate sizing for facilities based on the standards set forth below. The capacity of Interconnection facilities provided by each Party will be based on mutual forecasts and sound engineering practice, as mutually agreed to by the Parties. The Interconnection facilities provided by each Party shall, where technically available, be formatted using Bipolar 8 Zero Substitution ("B8ZS"). The Grade of Service for all facilities between the Parties will be engineered and provisioned to achieve P.01 Grade of Service. Each Party shall make available to the other Party trunks over which the originating Party can terminate Local Traffic of the End Users of the originating Party to the End Users of the terminating Party.
- 8.3 The electrical interface at the POI will be for a DS1 level. If any other electrical interface is mutually agreed to by the Parties, then each will provide any required multiplexing to a DS1 level.
- 8.4 N11 codes (including but not limited to, 411, 611, & 911) shall not be sent between the networks of the Parties over the Local Traffic trunk groups.
- 8.5 Prior to establishment of the physical, direct connection of their respective networks at the POI as anticipated by this Agreement, each Party shall provide the other with a point of contact for the reconciliation of trunk forecasts, and escalation for ordering and provisioning related matters.

9 Tandem Transit Traffic

- 9.1 As used in this Section, Tandem Transit Traffic is Telephone Exchange Service

traffic that either originates or terminates on Teliix's network, and is transported through Consolidated's Tandem to the subtending End Office or its equivalent of another carrier (Teliix, ILEC other than Consolidated, Commercial Mobile Radio Service (CMRS) carrier, or other LEC ("Other Carrier")), when neither the originating nor terminating Customer is a Customer of Consolidated. For the avoidance of any doubt, under no circumstances shall Consolidated be required to transit traffic through a Consolidated Tandem to a Central Office that the LERG does not identify as subtending that particular Consolidated Tandem. Switched Exchange Access Service traffic is not Tandem Transit Traffic.

- 9.2 Tandem Transit Traffic Service provides Teliix with the transport of Tandem Transit Traffic as provided below.
- 9.3 Teliix may use Tandem Transit Traffic Service only for traffic that originates from Teliix's network and only to send traffic to Other Carrier. Teliix agrees it is solely responsible for intercarrier compensation due to the terminating Other Carrier.
- 9.4 Teliix shall pay Consolidated for Tandem Transit Traffic that it originates at the rates specified in the Pricing Attachment, Schedule I. Consolidated will not be liable for compensation to any Other Carrier for traffic originated by Teliix that is transported through Consolidated's Tandem and Consolidated reserves the right to assess to Teliix any additional charges or costs any Other Carrier imposes or levies on Consolidated for the delivery or termination of such traffic, including any Switched Exchange Access Service charges. In the event that Consolidated is billed and pays charges imposed by any Other Carrier for traffic originated by Teliix, Teliix shall reimburse Consolidated. Upon request by Teliix, Consolidated shall provide billing data adequate to validate such charges and payments. Notwithstanding the foregoing, Consolidated shall make commercially reasonable efforts to avoid accepting such charges from an Other Carrier, either under a contractual arrangement or otherwise and Consolidated shall provide notice to Teliix upon discovery of such billing from an Other Carrier. Upon receipt of such notice, Teliix shall immediately take commercially reasonable steps to have the Other Carrier remove previously billed charges and to not bill Consolidated for terminating traffic originated by Teliix.
- 9.5 If Teliix uses Tandem Transit Traffic Service for traffic volumes that exceed the Centum Call Seconds (Hundred Call Seconds) busy hour equivalent of 200,000 combined minutes of use per month (a DS1 equivalent) to the subtending End Office of a particular Other Carrier for any month (the "Threshold Level"), Teliix shall use good faith efforts to establish direct interconnection with such Other Carrier and reduce such traffic volumes below the Threshold level. If Consolidated believes that Teliix has not exercised good faith efforts promptly to obtain such direct interconnection, either Party may use the Dispute Resolution processes of this Agreement.
- 9.6 Neither Party shall take any actions to prevent the other Party from entering into

a direct and reciprocal traffic exchange arrangement with any carrier to which it originates, or from which it terminates, traffic.

10 Trunk Forecasting

The Parties will work towards the development of joint forecasting responsibilities for traffic utilization over interconnection trunk groups covered in this Agreement. Orders for trunks that exceed forecasted quantities for forecasted locations will be accommodated as facilities and/or equipment becomes available. Parties will make all reasonable efforts and cooperate in good faith to develop alternative solutions to accommodate orders when facilities are not available. Inter-company forecast information must be provided by the Parties to each other upon reasonable request, per Section 8 above.

11 Network Management

11.1 Protective Controls

Either Party may use protective network traffic management controls as available in their networks such as, but not limited to, 7-digit and 10-digit code gaps, on traffic toward each other's network, when required to protect the public switched network from congestion due to facility failures, switch congestion or failure or focused overload. Teliax and Consolidated will immediately notify each other of any protective control action planned or executed.

11.2 Network Congestion Due to Mass Calling

Teliax and Consolidated will cooperate and share pre-planning information regarding cross-network mass call-ins expected to generate large or focused temporary increases in call volumes. Both Parties will work cooperatively to reduce network congestion caused by such cross-network mass call-ins.

11.3 Network Harm

Neither Party will use any service related to or using any of the services provided in this Agreement in any manner that interferes with third parties in the use of their service, prevents third parties from using their service, impairs the quality of service to other carriers or to either Party's End Users; causes electrical hazards to either Party's personnel, damage to either Party's equipment or malfunction of either Party's billing equipment (individually and collectively, ("Network Harm")). If a Network Harm occurs or if a Party reasonably determines that a Network Harm is imminent, such Party will, where practicable, notify the other Party that temporary discontinuance or refusal of service may be required; provided, however, wherever prior notice is not practicable, such Party may temporarily discontinue or refuse service forthwith, if such action is reasonable under the circumstances. In case of such temporary discontinuance or refusal, such Party will:

- 11.3.1 Promptly notify the other Party of such temporary discontinuance or refusal;

11.3.2 Afford the other Party the opportunity to correct the situation which gave rise to such temporary discontinuance or refusal; and

11.3.3 Inform the other Party of its right to bring a complaint to the Commission or Federal Communications Commission ("FCC").

11.4 The Parties agree that each will share responsibility for all maintenance and repair of its trunks/trunk groups. The Parties agree to: (a) cooperatively plan and implement coordinated repair procedures for the meet point and local interconnection trunks and facilities to ensure trouble reports are resolved in a timely and appropriate manner; provide trained personnel with adequate and compatible test equipment to work with each other's technicians; (c) promptly notify each other when there is any change affecting the service requested, including the date service is to be started; (d) coordinate and schedule testing activities of their own personnel, and others as applicable, to ensure its interconnection trunks/trunk groups are installed per the interconnection order, meet agreed upon acceptance test requirements, and are placed in service by the due date; (e) perform sectionalization to determine if a trouble condition is located in its facility or its portion of the interconnection trunks prior to referring any trouble to each other; (f) provide each other with a trouble reporting number to the appropriate work center; (g) immediately report to each other any equipment failure which may affect the interconnection trunks. These tests are repeatable on demand by either Party upon reasonable notice.

11.5 A maintenance service charge applies whenever either Party requests the dispatch of the other Party's personnel for the purpose of performing maintenance activity on the interconnection trunks and any of the following conditions exist: (a) No trouble is found in the interconnection trunks; (b) The trouble condition results from equipment, facilities or systems not provided by the Party whose personnel were dispatched; or Trouble clearance did not otherwise require a dispatch, and upon dispatch requested for repair verification, the interconnection trunk does not exceed maintenance limits. If a maintenance service charge has been applied and trouble is subsequently found in the facilities of the Party whose personnel were dispatched, the charge will be canceled. Billing for maintenance service by either Party is based on each half-hour or fraction thereof expended to perform the work requested. The time worked is categorized and billed at one of the following three rates: (1) basic time; (2) overtime; or (3) premium time as defined in the billing Party's approved intrastate access tariff.

12 Office Code Translations

12.1 It shall be the responsibility of each Party to program and update its own switches and network systems in accordance with the information derived from such sources as the Local Exchange Routing Guide ("LERG") in order to recognize and route traffic to the other Party's assigned NXX codes at all times.

12.2 The Parties recognize that some of the traffic to be exchanged under this Agreement may be destined for telephone numbers that have been ported. Where traffic to be exchanged under this Agreement is destined for telephone numbers that have, in turn, been ported and when more than one carrier is involved in completing that traffic, the N-1 carrier has the responsibility to determine if a query is required, to launch the query, and to route the call to the appropriate switch or network in which the telephone number resides.

13 SS7 Signaling

In order to track and monitor the traffic that is being exchanged at the POI both Parties agree to utilize SS7 Common Channel Signaling between their respective networks for the traffic addressed in this Agreement. Both Parties will provide CCS connectivity in accordance with accepted industry practice and standard technical specifications. To the extent supported by a Party, for all traffic delivered to the POI, the Parties agree to exchange all appropriate unaltered CCS messages for call set-up, including without limitation ISDN User Part ("ISUP") and Transaction Capability User Part ("TCAP") messages to facilitate interoperability of CCS-based features and functions between their respective networks, including CLASS features and functions. All CCS signaling parameters, including, but not limited to, the Jurisdictional Indicator Parameter ("JIP"), when available, and the originating End User telephone number, will be provided by each Party in conjunction with all traffic it delivers to the POI.

15.5 Teliix shall be subject to the same limitations that Consolidated's Customers are subject to with respect to any Telecommunications Service that Consolidated grandfathered or discontinues offering. Without limiting the foregoing, except to the extent that Consolidated follows a different practice for Consolidated Customers in regard to a grandfathered Telecommunications Service, such grandfathered Telecommunications Service: (a) shall be available only to a Customer that already has such Telecommunications Service; (b) may not be moved to a new service location; and (c) will be furnished only to the extent that facilities continue to be available to provide such Telecommunications Service.

Teliix understands and agrees that certain of Consolidated's call blocking and call screening services are not guaranteed to block or screen all calls and that notwithstanding Teliix's purchase of such blocking or screening services, Teliix's end user Customers or other persons ordering, activating or using Telecommunications Services on the resold dial tone lines may complete or accept calls which Teliix intended to block. Notwithstanding the foregoing, Teliix shall be responsible for and shall pay Consolidated all charges for Telecommunications Services provided by Consolidated or provided by persons other than Consolidated and billed for by Consolidated in accordance with the terms of Section 15.1 above.

Any such identification of Consolidated's Telecommunications Services shall not constitute the grant of a license or other right to Teliix to use Consolidated's Marks.
- 18.2.2 To the extent required by applicable law, upon request by Teliix and at prices, terms and conditions to be negotiated by Teliix and Consolidated, Consolidated shall provide Consolidated Telecommunications Services for resale that are identified by Teliix's trade name, or that are not identified by trade name, trademark or service mark.

20 Term of Agreement, Regulatory Approvals and Filing

- 20.1 This Agreement shall commence when fully executed and approved by the Commission and have an initial term of one (1) year from the date of that Commission approval. This Agreement shall automatically renew for successive one (1) year periods, unless either Party gives written notice at least ninety (90) days prior to the expiration of the initial, or any renewal term, of its desire not to renew. If such termination notice is given, this Agreement shall not renew. However, the Parties will continue to exchange traffic to the mutual benefit of their respective End Users; provided, however, that physical termination of the connection of the Parties' respective networks established in this Agreement shall occur only in compliance with applicable rules and regulations of the Commission. During the period prior to termination, the Parties agree to cooperate with one another in ensuring that the exchange of Local Traffic as provided for in this Agreement is not disrupted and to respond to any Commission inquiry that may occur regarding the termination of this Agreement.
- 20.2 Each Party is responsible for obtaining and maintaining in effect all state regulatory commission approvals and certifications that are required for that Party's provision of local exchange and/or local exchange access services in the service areas covered by this Agreement.
- 20.3 The Parties agree to jointly file this Agreement with the Commission and to fully cooperate with each other in obtaining Commission approval.
- 20.4 If either Party terminates this Agreement pursuant to Section 20.1, either Party may request renegotiation of a successor agreement by providing written notice thereof to the other Party within sixty (60) days of receipt of the termination notice. Any such request shall be deemed by both Parties to be a request for Interconnection pursuant to Section 252 of the Act (or any successor provision), regardless of which Party made such request.
- 20.5 If either Party requests renegotiation of this Agreement pursuant to Sections 20.4 above, the rates, terms and conditions of this Agreement shall continue in full force and effect until the earlier of one hundred eighty (180) days from the expiration or termination of this Agreement or the effective date of its successor agreement, whether such successor agreement is established via negotiation, arbitration or pursuant to Section 252(i) of the Act. Recovery of said amount shall be the injured Party's sole and exclusive remedy against the providing Party for such failures, mistakes, omissions, interruptions, delays, errors, or defects. Because of the mutual nature of the exchange of traffic arrangement between the Parties pursuant to this Agreement, the Parties acknowledge that the amount of liability incurred under this Section 21.1 may be zero.
- 21.2 In no event shall either Party be liable to the other in connection with the provision or use of services offered under this Agreement for indirect, incidental, consequential, reliance or special damages, including (without limitation) damages for lost profits (collectively, "Consequential Damages"), regardless of the form of action, whether in contract, warranty, strict liability, or tort, including, without limitation, negligence of any kind, even if the other Party has been advised of the possibility of such damages; provided, that the foregoing shall not limit a Party's obligation under Section 22.
- 21.3 Except in the instance of harm resulting from an intentional or grossly negligent action or willful misconduct, the Parties agree that neither Party shall be liable to the customers of the other Party in connection with its provision of services to the other Party under this Agreement. Nothing in this Agreement shall be deemed to create a third party beneficiary relationship between the Party providing the service and the Customers of the Party purchasing the service. In the event of a dispute involving both Parties with a Customer of one Party, both Parties shall assert the applicability of any limitations on liability to customers that may be contained in either Party's applicable tariff(s).

22 Indemnification

- 22.1 Each Party agrees to release, indemnify, defend and hold harmless the other Party from and against all losses, claims, demands, damages, expenses, suits or other actions, or any liability whatsoever related to the subject matter of this Agreement, including, but not limited to, reasonable costs and attorneys' fees (collectively, a

Notwithstanding the foregoing indemnification, nothing in this Section 16 shall affect or limit any claims, remedies, or other actions the indemnifying Party may have against the indemnified Party under this Agreement, any other contract, or any applicable tariff(s), regulations or laws for the indemnified Party's provision of said services.

22.2 The indemnification provided herein shall be conditioned upon:

22.2.1 The indemnified Party shall promptly notify the indemnifying Party of any action taken against the indemnified Party relating to the indemnification.

22.2.2 The indemnifying Party shall have sole authority to defend any such action, including the selection of legal counsel, and the indemnified Party may engage separate legal counsel only at its sole cost and expense. Prior to retaining legal counsel pursuant to this Section 22.2.2, the indemnifying Party shall seek written assurances from the legal counsel chosen that such counsel does not have any conflict of interest with the indemnified Party.

22.2.3 In no event shall the indemnifying Party settle or consent to any judgment pertaining to any such action without the prior written consent of the indemnified Party, which consent shall not be unreasonably withheld.

22.2.4 The indemnified Party shall, in all cases, assert any and all provisions in its tariffs that limit liability to third parties as a bar to any recovery by the third party claimant in excess of such limitation of liability

22.2.5 The indemnified Party shall offer the indemnifying Party all reasonable cooperation and assistance in the defense of any such action.

22.3 To the extent permitted by law, and in addition to its indemnity obligations under Sections 22.1 and 22.2, each Party may provide, in its tariffs' that relate to any Telecommunications Service provided or contemplated under this Agreement, that in no case shall such Party or any of its agents, contractors or others retained by such parties be liable to any Customer or third party for (i) any Loss relating to or arising out of this Agreement, whether in contract or tort, that exceeds the amount such Party would have charged the applicable Customer for the service(s) or

function(s) that gave rise to such Loss, or (ii) any Consequential Damages (as defined in subsection 22.2, above)

23 Force Majeure

Neither Party shall be liable for any delay or failure in performance of any part of this Agreement from any cause beyond its control and without its fault or gross negligence, regardless of whether such delays or failures in performance were foreseen or foreseeable as of the date of this Agreement, including, without limitation, acts of God, acts of civil or military authority, embargoes, epidemics, war, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, power failure or blackouts, or adverse weather conditions, labor unrest, including without limitation, strikes, slowdowns, picketing, or boycotts. In the event of any such excused delay in the performance of a Party's obligation(s) under this Agreement, the due date for the performance of the original obligation(s) shall be extended by a term equal to the time lost by reason of the delay. In the event of such delay, the delaying Party shall perform its obligations at a performance level no less than that which it uses for its own operations.

24 Agency

Nothing contained herein shall constitute the Parties as joint venturers, partners, employees, or agents of one another, and neither Party shall have the right or power to bind or obligate the other.

25 Nondisclosure of Proprietary Information

25.1 The Parties agree that it may be necessary to exchange with each other certain confidential information during the term of this Agreement including, without limitation, technical and business plans, technical information, proposals, specifications, drawings, procedures, orders for services, usage information in any form, customer account data, call detail records, and Customer Proprietary Network Information ("CPNI") as that term is defined by the Communications Act of 1934, as amended, and the rules and regulations of the FCC and similar information (collectively, "Confidential Information"). terms of this Section. Confidential Information shall not be disclosed or used for any purpose other than to provide service as specified in this Agreement, or upon such other terms as may be agreed to by the Parties in writing. For purposes of this Section, the Disclosing Party shall mean the owner of the Confidential Information, and the Recipient shall mean the party to whom Confidential Information is disclosed.

- 25.2 Recipient shall have no obligation to safeguard Confidential Information (i) which was in the Recipient's possession free of restriction prior to its receipt from the Disclosing Party, (ii) after it becomes publicly known or available through no breach of this Agreement by Recipient, (iii) after it is rightfully acquired by Recipient free of restrictions on the Disclosing Party, or (iv) after it is independently developed by personnel of Recipient to whom the Disclosing Party's Confidential Information had not been previously disclosed. Recipient may disclose Confidential Information if required by law, a court, or governmental agency or to enforce or defend its actions under this Agreement, provided that the Disclosing Party has been notified of the requirement promptly after Recipient becomes aware of the requirement, and provided that Recipient undertakes all reasonable lawful measures to avoid disclosing such information until the Disclosing Party has had reasonable time to obtain a protective order. Recipient agrees to comply with any protective order that covers the Confidential Information to be disclosed.
- 25.3 Each Party agrees that the Disclosing Party would be irreparably injured by a breach of this Section 25 by Recipient or its representatives and that the Disclosing Party shall be entitled to seek equitable relief, including injunctive relief and specific performance, in the event of any breach of this paragraph. Such remedies shall not be exclusive, but shall be in addition to all other remedies available at law or in equity.
