To: PUC:

I am writing to ask the PUC not to approve the increase of 16.57% distribution charge Eversource has requested in 24-070. On behalf of many who have endured increases in electricity bills from Eversource for years, I believe this has to be curtailed instead of escalating charges on consumers, all of whom must use electricity.

I have changed suppliers, turned off more lights, plugs, strips, bought energy efficient appliances, lowered heat significantly and used little to no AC to save on electricity, but it continues to go up. This inequality of using less energy and spending more on electricity is not sustainable for consumers. Please hear the ordinary people too.

Sincerely,
Linda Snorek
