

Michael Ty Clark

RESUME

January 2025

Address:

Laurits R. Christensen Associates, Inc.
800 University Bay Drive, Suite 400
Madison, WI 53705-2299
Telephone: 608.231.2266
Fax: 608.231.2108
Email: mtclark@LRCA.com

Academic Background:

PhD – Florida State University, 2015, Economics
MS – Florida State University, 2013, Economics
BA – Utah State University, 2011, Economics

Positions Held:

Vice President, Laurits R. Christensen Associates, Inc., 2022-present
Senior Economist, Laurits R. Christensen Associates, Inc., 2017-2021
Economist, Laurits R. Christensen Associates, Inc., 2015-2017
Instructor, Florida State University, Summer 2013-2014
Teaching Assistant, Florida State University, 2011-2015

Professional Experience:

Specialization in energy, antitrust, applied econometrics, data analysis, and microeconomic theory. My energy experience involves econometric application and data management, such as evaluating residential, commercial, or industrial demand response programs for utilities. I have provided testimony regarding load forecasting, marginal cost-of-service, and rate design issues including time-of-use and revenue decoupling. My antitrust experience includes class action lawsuits concerning price fixing and price discrimination matters; covering industries such as broilers, animation, electrical components, wholesale & retail gasoline, and airlines. I have implemented an array of quantitative techniques including various econometric models, demand estimation, machine learning, forecasting, and management of large complex datasets.

Major Projects:

Provided analysis and report of Southeastern distribution utility's marginal cost-of-service study.

Provided analysis of utility's Transmission Service Charge and comparison with other Network Integration Transmission Service and Public Policy Transmission Need filings.

Provided analysis and report of Northeastern distribution utility's marginal and embedded cost-of-service models.

Provided analysis of costing and pricing options for DC Fast Charging.

Michael Ty Clark

Provided direct testimony regarding the estimation of avoided costs for the use of evaluating the cost effectiveness of demand side management programs.

Provided report and analysis of a Real-Time Pricing pilot program for an Investor-Owned Utility.

Provided report and analysis of a Real-Time Pricing pilot program developed for agricultural customers of a Community Choice Aggregator.

Provided direct testimony evaluating the marginal cost-of-service study and rate design issues in a utility rate case. The rate design topic areas covered Time-of-Use, electric vehicle rates, and revenue decoupling.

Prepared load forecast and direct testimony for utility rate case including forecasts of energy, demand, electric vehicles, distributed generation, and energy efficiency. Provided direct testimony and analysis for Time-of-Use rate design.

Prepared revenue requirement forecast for utility including projections of energy, generation capacity, and transmission capacity costs. Provided rate design recommendations for Critical Peak Pricing (CPP) and DC Fast Charging (DCFC) options.

Estimated long-term marginal costs in the Florida Reliability Coordinating Council region as part of an evaluation to determine the cost effectiveness of LED lighting.

Provided long-term forecast of utility loads, including simulations of electric vehicle and solar generation adoptions paths and their effect on system loads.

Provided bill-impact analysis and support for utility as part of their general rate case.

Estimated Real-Time Pricing (RTP) load impacts as well as forecasted RTP impacts over various simulations.

Econometric pass-through analysis in antitrust class action (multi-district) supply fixing case.

Estimated Covid-19 related load impacts of Shelter-in-Place (SIP) orders for residential customers. Provided rate comparisons assuming different SIP durations.

Developed and implemented methodology to estimate load impacts for electric vehicle TOU rates by identifying the date customers begin charging electric vehicle via structural breaks in usage.

Provided econometric support in antitrust price discrimination (*i.e.*, Robinson Patman Act) class action case.

Provided support in antitrust price discrimination case regarding wholesale and retail gasoline sales.

Econometric analysis and report of utility pilot program implementing TOU rate and CPP events with customer-installed Wi-Fi thermostats. Analysis included demand response, energy efficiency, and bill impacts.

Michael Ty Clark

Estimated TOU load impacts for residential customers with rooftop solar systems (*i.e.*, net energy metering).

Evaluated load impacts associated with installing rooftop solar for residential customers; simulated photovoltaic distributed generation profiles.

Econometric analysis and report of electricity and gas energy efficiency impacts regarding the installation of Wi-Fi thermostats.

Evaluated residential demand response pilot programs with programmable-controllable thermostats; provided weather specific forecasts. Modeled discrete choice event opt-out behavior.

Provided econometric support and data management in multi-district antitrust price fixing case.

Assisted in the development of wholesale electricity transmission prices.

Assisted developing a report regarding the assumptions of non-hydro renewable generation in the Clean Power Plan Regulatory Impact Analysis.

Professional Papers:

"2023 Statewide Load Impact Evaluation of Non-Residential Critical Peak Pricing (CPP) Rates" with Daniel G. Hansen, Xueting Wang, and Daniel McLeod, 2024.

"2023 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Corey Lott and Andi Romanovs-Malovrh, 2024.

"2023 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and Michael Vigdor, 2024.

"Mid-Term Evaluation of Valley Clean Energy's Agricultural Pumping Dynamic Rate Pilot" with Daniel G. Hansen, December 22, 2023.

"Mid-Term Evaluation of Southern California Edison's Dynamic Rate Pilot" with Daniel G. Hansen, December 22, 2023.

"2022 Statewide Load Impact Evaluation of Non-Residential Critical Peak Pricing (CPP) Rates" with Daniel G. Hansen, Corey Lott, and Xueting Wang, 2023.

"2022 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Nick Crowley, and Aidan Glaser Schoff, 2023.

"2022 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and Michael Vigdor, 2023.

"2021 Statewide Load Impact Evaluation of Non-Residential Critical Peak Pricing (CPP) Rates" with Daniel G. Hansen, Corey Lott, Xueting Wang, and Michael Vigdor, 2022.

Michael Ty Clark

"2021 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Daniel G. Hansen, Nick Crowley, and Aidan Glaser Schoff, 2022.

"2021 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and Michael Vigdor, 2022.

"2020 Load Impact Evaluation of San Diego Gas and Electric's Electric Vehicle Rates" with Daniel G. Hansen, 2021.

"2020 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Daniel G. Hansen, Nick Crowley, and Navya Kataria, 2021.

"2020 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen, 2021.

"2019 Load Impact Evaluation of San Diego Gas and Electric's Electric Vehicle Rates" with Daniel G. Hansen, and Nick Crowley, 2020.

"2019 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Daniel G. Hansen, Nick Crowley, and David A. Armstrong, 2020.

"2019 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and David A. Armstrong, 2020.

"2018 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Daniel G. Hansen and Nick Crowley, 2019.

"2018 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and David A. Armstrong, 2019.

"2017 Statewide Load Impact Evaluation of Non-Residential Critical Peak Pricing (CPP) Rates" with Daniel G. Hansen, Corey Lott, and Nick Crowley, 2018.

"2017 Load Impact Evaluation of California Statewide Base Interruptible Programs (BIP) for Non-Residential Customers: Ex-post and Ex-ante Report" with Daniel G. Hansen and Nick Crowley, 2018.

"2017 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates" with Daniel G. Hansen and Nick Crowley, 2018.

"2016 Load Impact Evaluation of Sacramento Municipal Utility District's No Opt-Out PowerStat Pilot Program" with Daniel G. Hansen, Michael J. Thacker, and Steven D. Braithwait, 2017.

Michael Ty Clark

"2016 Load Impact Evaluation of Sacramento Municipal Utility District's PowerStat Pilot Program" with Daniel G. Hansen, Michael J. Thacker, and Steven D. Braithwait, 2017.

"2016 Load Impact Evaluation of Pacific Gas and Electric Company's Residential Time-Based Pricing Programs: Ex-post and Ex-ante Report for Customers with Net Energy Metering," with Daniel G. Hansen and Nick Crowley, 2017.

"2016 Load Impact Evaluation of Pacific Gas and Electric Company's Mandatory Time-of-Use Rates for Small, Medium, and Agricultural Non-residential Customers: *Ex-post* and *Ex-ante* Report," with Daniel G. Hansen and Nick Crowley, 2017.

"2016 Load Impact Evaluation of San Diego Gas and Electric's Voluntary Residential Critical Peak Pricing (CPP) and Time-of-Use (TOU) Rates," with Steven D. Braithwait and Daniel G. Hansen, 2017.

"2015 Load Impact Evaluation of California Statewide Demand Bidding Programs (DBP) for Non-Residential Customers: Ex-post and Ex-ante Report," with Daniel G. Hansen, 2016.

Public Testimony

Florida Public Utilities Company, Florida Public Utilities Commission Docket No. 20240015-EG: Testimony on behalf of the Florida Public Utilities Company regarding the development of avoided costs used in a technological potential study that evaluated proposed demand side management goals, as required by the Florida Energy Efficiency and Conservation Act, April 2, 2024.

New Hampshire Department of Energy, New Hampshire Public Utilities Commission Docket No. DE 23-039: Testimony on behalf of the New Hampshire Department of Energy reviewing Liberty Utilities' marginal cost-of-service study and rate design issues relating to Time-of-Use, electric vehicles, and revenue decoupling, December 13, 2023.

Alpena Power Company, Michigan Public Service Commission Case No. U-21488: Testimony regarding the development of utility load forecast and Time-of-Use rate design on behalf of Alpena Power Company, December 11, 2023.

Conference and Workshop Presentations:

2024 WPUI Energy Utilities Basics (Madison, WI)
2024 EEI Electric Rates Course (Madison, WI)
2024 EUCI Avoided Costs of Electricity Services Conference (Virtual)
2023 EEI Electric Rates Course (Madison, WI)
2023 DRMEC Load Impact Evaluation and Enrollment Workshop (Virtual)
2022 DRMEC Load Impact Evaluation and Enrollment Workshop (Virtual)
2021 EUCI TOU/Residential Demand Charges Workshop (Virtual)
2021 DRMEC Load Impact Evaluation and Enrollment Workshop (Virtual)
2017 EUCI Rate Design Post-Conference TOU Workshop (Baltimore, MD)
2017 DRMEC Load Impact Evaluation and Enrollment Workshop (San Francisco, CA)
2016 DRMEC Load Impact Evaluation and Enrollment Workshop (San Francisco, CA)
2014 Southern Economic Association (Atlanta, GA)
2011 Association of Private Enterprise Education (Nassau, Bahamas)

Journal Articles:

"The Law of the Taxi: Informal Property Rights Institutions in the Uninhibited State" with Diana W. Thomas, Humberto Alba Castillo, and Kevin D. Gomez), *Journal of Private Enterprise*, 35(3): 49-62, 2020.

Unpublished Papers:

"Passenger Welfare Effects from Post-Merger Route Adjustments," with Gary M. Fournier.

"Predicting Network Efficiency Gains in Airline Mergers for Antitrust Review," with Gary M. Fournier.

"Slot Transfers as a Remedy in Airline Mergers: UA-CO Divestitures at Newark," with Gary M. Fournier.

Fellowships & Awards:

Dec. 2014 Rockwood Teaching Award, Florida State University

2012-2015 Manuel and Mary Johnson Endowed Graduate Fellowship, Florida State University

2011-2012 Manly Johnson Doctoral Fellowship, Florida State University

Computer/Programming Skills: Stata, SAS, R, LaTeX, MS Office suite

Public Service Company of New Hampshire d/b/a Eversource Energy
Docket No. DE 24-070

Date Request Received: October 28, 2024
Data Request No. DOE 12-233

Date of Response: November 13, 2024
Page 1 of 1

Request from: Department of Energy

Witness: Davis, Edward A.

Request:

Questions Pertaining to Direct Testimony of Edward A. Davis, *Permanent Rates and Tariff Changes*:

Reference file "Attachment DOE 9-191.xlsx" demonstrates declining sales in 2023. Please provide an explanation regarding factors that have impacted the sales decline.

Response:

Unlike previous years where the COVID-19 pandemic had a macro-level impact on energy usage, weather appears to be a significant factor in decreased sales in 2023 compared with 2022. Increased supply prices may also be a significant factor impacting lower 2023 sales during this period.

Public Service Company of New Hampshire d/b/a Eversource Energy
Docket No. DE 24-070

Date Request Received: September 26, 2024
Data Request No. DOE 9-191

Date of Response: October 10, 2024
Page 1 of 1

Request from: Department of Energy

Witness: Davis, Edward A.

Request:

Please provide monthly number of customers served and total sales by rate class for the previous ten years. The rate classes should correspond to those listed in Attachment ES-EAD-17.

Response:

Please refer to Attachment DOE 9-191.

Public Service Company of New Hampshire d/b/a Eversource Energy
Docket No. DE 24-070

Date Request Received: September 26, 2024
Data Request No. DOE 9-191 Supplemental

Date of Response: October 30, 2024
Page 1 of 1

Request from: Department of Energy

Witness: Davis, Edward A.

Request:

Please provide monthly number of customers served and total sales by rate class for the previous ten years. The rate classes should correspond to those listed in Attachment ES-EAD-17.

Supplemental Response

Please see Attachment DOE 9-191(REV) with corrected values for April, November, and December 2022.

Original Response:

Please refer to Attachment DOE 9-191.

Docket No. DE 24-070

Request:

Questions Pertaining to Direct Testimony of Edward A. Davis, *Permanent Rates and Tariff Changes*:

Please provide monthly cooling and heating degree days for the most relevant weather station, or for any average of weather stations that PSNH has created to reflect its overall system conditions beginning in 2015.

Response:

Please see Attachment DOE 12-234 for the monthly cooling and heating degree days.

Public Service Company of New Hampshire d/b/a Eversource Energy
Docket No. DE 24-070

Date Request Received: September 26, 2024
Data Request No. DOE 9-193

Date of Response: October 10, 2024
Page 1 of 2

Request from: Department of Energy

Witness: Nieto, Amparo

Request:

Please describe differences between the minimum system study classification factors provided in the current testimony and the 2019 testimony (see Direct Testimony of Amparo Nieto, *Allocated Cost of Service Study*, Docket No. DE 19-057, Table 1). Specifically, please describe why the demand classification of OH Transformers increased from 17.6% in the 2019 testimony to 58.5% in the 2024 testimony.

Response:

As explained in the Company's response to Data Request No. DOE 9-192, the classification factors that are shown in Table 1 of the Testimony of Amparo Nieto at Bates Page 19198, do not reflect the values that were used in the ACOS study for FERC Accounts 364 (poles) and 368 (Transformers). Instead, they reflect results from an earlier study draft that was superseded for those two accounts but the table was inadvertently not updated.

The corrected figures are shown in Table 1 included below. This table is consistent with the values used in the ACOS study for all accounts. See the corresponding Proforma and Per-Books ACOS Models ("Attachment ES-ACOSS-2 CONFIDENTIAL.xlsx", tab "MIN SYSTEM", and in "Attachment ES-ACOSS-3 CONFIDENTIAL.xlsx" tab "MIN SYSTEM"). The demand classification that was used in the ACOSS for OH Transformers was 17.6% and not 58.5%. The Company made the decision to retain the results as per the prior rate case's Minimum System (MS) Study (Docket No. DE 19-057) for Accounts 364 (poles) and 368 (Transformers). The classification factors for all other FERC accounts were updated as per the Company's 2024 MS Study.

The Company's decision not to use the updated study values for Acc. 364 and 368 was made on the basis that the results obtained with regards to Acc. 364 and 368, were significantly out of line with those seen in recent historical MS studies, leading to potentially unsupported cost-shifting among customer classes. A misalignment existed in the updated MS study for these accounts between the year 2023 installed cost of the minimum size as provided by engineering and the total plant population in service today, stated in year 2023 dollars after applying the Handy-Whitman index for this plant type, compared to prior studies. This led to a drastic change in the demand factor that did not appear to be justified.
