**Request:**

Have the amounts recovered through the SCRC rate increased or decreased for the upcoming SCRC rate period and for the two prior SCRC rate periods, if the carry-over balances from prior periods are excluded. [Note it is unclear whether the PUC question is limited to just Part 2 costs or includes all SCRC rate components including the adders].

**Response:**

Please see Attachment RR-003, which provides the SCRC rate component amounts to be recovered, with the carry-over balances from prior periods excluded, for the period February 1, 2025 through January 31, 2026, as well as for the prior two SCRC rate periods ending January 31, 2025 and January 31, 2024, respectively. As shown on pages 1-3 of the attachment, the total amounts have decreased over that three-year period of time.
