

**STATE OF NEW HAMPSHIRE
PUBLIC UTILITIES COMMISSION**

DE 20-170

ELECTRIC DISTRIBUTION UTILITIES

Electric Vehicle Time of Use Rates

Procedural Order Re: Record Requests

The Commission requests that Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource) respond to the following record requests on or before the close of business on Wednesday, February 8, 2023:

RR-1: Describe in detail the demand response programs in Connecticut and Massachusetts in which EV charging customers participate. The response should include:

- (i) a description of the specific types of financial and other incentives offered as part of the managed charging program in each jurisdiction;
- (ii) details on the number of customers by class participating in each of the respective programs;
- (iii) the results of any studies or reporting required in those states; and
- (iv) reference to dockets and orders authorizing the programs referred to above.

RR-2: Provide a description of whether Time-of-Use (TOU) rates are available or planned to be made available in other Eversource territories, including details on any associated timelines.

RR-3: In providing an overview of costs and manual system and billing changes associated with implementing TOU rates for its commercial-class customers, Eversource indicated in the hearing held on January 31, 2023, its preference for “other alternatives” to its proposed commercial TOU rates. The Commission requests that Eversource provide a detailed overview of these alternatives, along with any additional costs or system changes that may be necessary to apply those alternatives.

So ordered, this first day of February, 2023.

Daniel C. Goldner
Chairman

Pradip K. Chattopadhyay
Commissioner
