PUBLIC UTILITIES COMMISSION**

**DE 17-160**

**PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE d/b/a EVERSOURCE ENERGY**

**Petition for Recovery of Annual Assessment and Consultant Costs**

**ORDER OF NOTICE**

On October 20, 2017, Public Service Company of New Hampshire d/b/a Eversource Energy (Eversource) filed a petition for recovery of annual assessment and consultant costs. The petition requests an adjustment to its distribution rates to recover such costs for effect with service rendered on and after January 1, 2018.

Pursuant to RSA 363-A, the Commission bills, or assesses, Eversource for a portion of the Commission's annual expenses, and Eversource recovers the costs of the assessment from ratepayers through its distribution rates. In Order No. 25,743 (Dec. 29, 2014), the Commission approved the rate by which Eversource would recover the adjusted assessment costs for fiscal year 2015. Despite minor fluctuations in the amount of the assessment, Eversource's distribution rates have not been adjusted to account for any change in the assessment since that time. For fiscal year 2018, the assessment is approximately \$874,000 higher than the amount presently recovered, and Eversource seeks through this petition approval to adjust distribution rates to recover the full costs of the assessment. Eversource proposes to increase distribution rates by 0.012 cents per kilowatt hour (kWh) to recover assessment costs.

Eversource is also seeking recovery of certain consultant costs incurred by the Office of Consumer Advocate and Commission Staff from 2016 to the present that have been invoiced to Eversource in the Grid Modernization and Net Metering Dockets (Docket Nos. IR 15-296 and

DE 16-567, respectively). The two proceedings concluded in 2017. According to Eversource, the costs associated with the Grid Modernization docket total \$140,000, and similar costs associated with the New Metering docket totals \$291,000, for a combined sum of \$431,000. Eversource is proposing that the consultant costs be recovered over a one year period beginning January 1, 2018 at a rate of 0.005 cents per kWh (kWh). If approved the result would be an increase in distribution rates of 0.017 cents per kWh, effective with services rendered on and after January 1, 2018.

The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at [www.puc.nh.gov](http://www.puc.nh.gov).

The filing raises, inter alia, issues related to whether the calculation of assessment and consultant costs is accurate, and whether the resulting rates are just and reasonable pursuant to RSA 378:5 and 7, and RSA 374:1. Each party has the right to have an attorney represent the party at the party's own expense.

**Based upon the foregoing, it is hereby**

**ORDERED**, that a Hearing, pursuant to N.H. Code Admin. Rules Puc 203.12, be held before the Commission located at 21 S. Fruit St., Suite 10, Concord, New Hampshire on December 19, 2017 at 10:00 a.m., at which each party will provide a preliminary statement of its position with regard to the petition and any of the issues set forth in N.H. **FURTHER ORDERED**, that any party objecting to a Petition to Intervene make said Objection on or before December 19, 2017.
