**Cast Iron/Bare Steel Replacement Program Results**

**ORDER OF NOTICE**

On February 14, 2019, Commission Staff (Staff) filed a memorandum in DG 11-040 recommending termination of the Liberty Utilities (EnergyNorth Natural Gas) Corp., d/b/a Liberty Utilities (Liberty) Bare Steel and Cast Iron (CIBS) replacement and recovery program established in that docket. On February 26, 2019, the Commission issued a secretarial letter requiring Liberty to file a response to Staff's recommendation and a preliminary rate proposal for CIBS fiscal year 2019 (April 1, 2018, to March 31, 2019). On March 15, 2019, Liberty filed a response to Staff's recommendation and a preliminary rate proposal based on the fiscal year 2019 CIBS Replacement Program Results. Liberty opposed any modification of the CIBS program and proposed an annual revenue requirement increase of \$1,422,784 for CIBS work completed in fiscal year 2019, to be recovered through an increase in its base distribution rates effective July 1, 2019. Liberty calculated that the proposed revenue requirement increase would add \$6.04 to the \$1,170 total annual bill for a typical residential heating customer who uses 778 therms per year, a 0.52 percent increase. The program results and request for a rate increase will be updated and filed on or before April 15, 2019, pursuant to the settlement agreement in Docket No. DG 11-040 approved in *National Grid USA*, Order No. 25,370 (May 30, 2012). The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at [www.puc.nh.gov/Regulatory/Docketbk/2019/19-054.html](http://www.puc.nh.gov/Regulatory/Docketbk/2019/19-054.html).

The filing raises, inter alia, issues related to whether Liberty's filing conforms to the requirements of the pertinent settlement agreements, whether Liberty has appropriately accounted for the costs of the CIBS replacement program, whether Liberty's CIBS-related forecasts, budgets, and actual expenditures are reasonable and appropriate, whether Liberty has applied appropriate cost-control methods to its CIBS replacement program planning and construction work, road-resurfacing related "carry-over" costs, and whether the resulting rates are just and reasonable as required by RSA 378:5 and RSA 378:8. In addition, based on the recommendation filed by Commission Staff on February 14, 2019, and posted in this docket, Liberty's filing raises issues related to whether the accelerated recovery for CIBS replacement established in Docket DG 11-040 remains in the public interest, given the progress made through the CIBS program to-date and Liberty's plan to file for an increase in distribution rates in 2020. Each party has the right to have an attorney represent the party at the party's own expense.
