Re: 400 RULES RESTRUCTURING PROJECT

- **Staff releases documents on September 20th**
- **Written comments due by September 30th**

INTRODUCTION: As required by statute, the 400 rules and 1300 rules must be repromulgated this year. Staff is nearing completion of its redrafting of the rules. In doing so, Staff has completely revised and consolidated the existing rules into Chapter 400 Rules for Telephone Service. The proposed rules have been organized such that all the relevant telephone rules for a provider may be found in discrete parts of the chapter.

ATTACHMENTS: Attached for your review is an initial draft of the table of contents.

Note the specific parts for Payphone Service Providers (PSPs); Public Interest Payphones (PIPs); Shared Tenant Services (STS); Non-Utility Providers for Customers in Temporary Accommodations (CTAs); Incumbent Local Exchange Carriers (ILECs); Competitive Local Exchange Carriers (CLECs) and Competitive Toll Providers (CTPs).

NEXT STEPS / KEY DATES:

- **September 20** - Documents listed below shall be released to all parties.
 1. Initial Draft "A" Chapter 400 Rules;
 2. Table of Contents;
 3. Matrix: mapping of rules from old structure to reorganized rules structure; and
 4. Forms key: identification of required report forms, by provider type, number and title.
- **September 30** - Written comments from Parties are due
Please submit your written responses to Jody.Carmody@puc.nh.gov.
