1. Report under each of the plant accounts in column (a) all subclasses of plant for which a depreciation rate is determined and a subtotal for each primary account.
2. The net salvage factors in column (d) shall be shown as a percentage of original cost.
3. A "W" in column (b) indicates a whole life rate in column (f), an average service life in column (c) and average net salvage in column (d); and "R" indicates a remaining life rate in column (f), an average remaining life in column (c), a future net salvage in column (d).
4. For each plant account, report in column (f) the prescribed depreciation rate or those used by the utility in accordance with USOA.
