Subject: investigation of electric utilities

Dear Sir/Madam:

Thank you for taking the time to investigate the extremely high winter energy rates of suppliers in New Hampshire. I read about the investigation in the article in the Union Leader on 4/21/2015 entitled "PUC: Why are utility bills so big in NH?"

I had a one bedroom apartment serviced by PSNH. My winter rates for 2014-2015 were DOUBLE what they were for the same apartment and the same use patterns as the year before. My March 2015 bill was \$132.17 for a one bedroom apartment. I question utility rates as well as the accuracy of meter readings. I am eager to learn of your findings.

Sincerely,
Danielle Grant
Manchester, NH
