**Overview**

The New Hampshire Public Utilities Commission (Commission) has traditionally required regulated industries to submit a variety of reports in printed format, including an original and seven copies. In order to assure efficient agency operations and to avoid unnecessary burdens on the utilities it regulates, the Commission directed its staff during the summer of 2003 to conduct a review of all reports provided to the Commission. Staff completed this review, in part, to determine whether certain reporting requirements should be eliminated because they were no longer useful or contained duplicate information provided in other reports. In its review, the staff also identified which reports and forms could be filed electronically. As part of [Order Number, 24,223](#), issued on October 24, 2003, the Commission found that the filing requirement would be satisfied by filing one electronic copy and one paper copy with the Commission.

The Electronic Report Filing System (ERF) provides Commission stakeholders with a web based means of submitting these reports. The process is relatively simple and is accessible from the Commission's Regulatory page.

**What's involved?**

The Electronic Report Filing (ERF) process at the New Hampshire Public Utilities Commission involves several steps:

1) Completing an on-line registration form
2) Waiting for notification from the Commission that you have been activated as a user
3) Logging in at the Commission site using your Email address and a password you requested during registration
4) Making a few simple selections at the File Upload page and then attaching the files you wish to send to the Commission.

The ERF application supports recent versions of Microsoft Internet Explorer, Firefox and Google Chrome, as well as Apple Safari.
