Re: Docket No. DE 07-059  
Unitil Energy Systems, Inc.  
Investigation of Lead Lag Study  
Recommendation to Close Docket

Dear Ms. Howland:

The above-captioned docket was originally opened for the investigation of the methodology used by Unitil Energy Systems, Inc. (UES) in conducting its lead-lag study for purposes of developing its working capital costs requirements for default service. Subsequently, the investigation of the lead-lag study occurred in UES' default service docket (DE 07-013). Therefore, we recommend that the Commission close Docket No. DE 07-059. Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Suzanne G. Amidon".

Suzanne G. Amidon  
Staff Attorney/Hearings Examiner
