RE: State Of New Hampshire PUC DW 08-052 Pittsfield Aqueduct Co. Rate Increase

Though I sympathize with the well written letter from Pennichuck Water pleading their case for a rate increase, I find it hard to comprehend how we, the public, can be held financially responsible for their mistakes and poor business planning.

Doing all their building and repairs to the Locke Lake System before funding was available is irresponsible.

I remind the Public Utilities Commission that you are here to protect the "Public" from the irresponsible actions of big business. I hope you will deny Pennichucks request for the total proposed 311% rate increase.

Thank you,

George Boden
