Hi Adele,

I have attached an internet e-mail from our PUC account.

RE: Petition to increase Water Rates - Sunrise Estates, Middleton, NH

Regarding the May 23, 2008 Order No 24,857 notification of the need to raise rates, it is not clear what the benefit is to Sunrise Estates because it is not clear there have been improvements in the water quality or work done to increase the water quality.

Please itemize the improvements at Sunrise Estates which you are suggesting in the notification that supports a proposed rate increase. Specifically, the proposed permanent rate increase FROM current meter 5/8" charge rate \$123.24 (Volumetric Charge in 100 cubic feet charge \$158.40) TO meter 5/8" charge rate \$507.60 (Volumetric Charge in 100 cubic feet charge \$652.32) represents a unacceptable 311% increase for impacted consumers. Therefore, I am not able to support this proposal.

Sincerely,
 Susan Bradley
 28 Jordan Drive
 Middleton, NH 03887-6011
