**Subject:** Pennichuck (Pittsfield Aquaduct price increases)

To Whom It May Concern,

As a Pennichuck customer in the Locke Lake Community, I would like to express my concerns over the ridiculous price increase put forth by the aforementioned water Company. To ask approx. 1700 customers to pay for services equaling \$900,000.00 to \$1 million dollars + to help increase revenues is absurd! We in the Locke Lake community currently paying \$30 per month will see an increase of \$93 increasing our costs to \$123 monthly. ( on a fore note we @ Locke Lake still often have silt or other black particles in our water. ) I have investigated the water bills in several other community's around NH and found that the vast majority are currently paying \$125. to \$150. per quarter. Should the PUC commision allow this increase to so few people would be detrimental to ours as well as the other community's involved. This rate hike is nothing more than stealing from the consumer. Please disallow this current proposal from Pennichuck as a farce. The proper way to increase revenues would be an across the board increase to all Pennichuck customers throughout the State of NH. . A 3% to 6% overall increase would more than adequetly increase revenues to sufficient levels.
