Hello Amanda,

Our office was contacted by Mary Calise in regard to water rate increase issues. I have attached her eform and contact information for your review. Thank you, Amanda.

26 Ripple Rd

Her eform-
Governor,

As I'm sure you are aware Pittsfield Aquaduct Company, North Country Division has put a request into the PUC for a rate increase of over 311%. When we moved into our home, water was not dependable. No one agrees that the improvements were necessary more than we do, however, the rate of the increase requested is less than fair & beyond what homeowners in this area should and most like can afford to pay. We have no choice, our lots are not large enough to accommodate wells and water is a necessity of life. On Sept. 30th I completed my 20th year of State Service. With the state deficit such a rate increase is inconceivable. I don't think I will get a raise next budget yet what we are asked to pay out only continues to go up. I ask you to please contact the PUC and say no.

Best,

Maurya
