Sir/Madam,

I own a vacation house in Lake Ossipee Village, Freedom. When LRWC took the water service over from David Sands, they immediately raised the price to all customers. Lake Ossipee Village had the highest increase. Now they want another increase of 21%. When the first increase was requested, I wrote to the Commission that the great majority of Lake Ossipee Village residents are vacationers, who come on weekends and holidays only. For those people water meters should be installed. I hope that the Commission will find a way for a just solution.

Thanks
