Hello,

I live in Nashua but work in Boston and thus, cannot attend the 8/27 meeting.

I have to say that I was quite appalled at the percentage of the proposed water increase. While we have very good water and continuing that is essential, the naysayers re: government versus private ownership of Pennichuck may have had a point. In these tough economic times, no one's salary is increasing 11.27%, let alone 25.27%. I think the percentages are a bit extreme and I hope the Commission will do the right thing and reconsider the extent of increase, as well oversee that monies are being appropriately spent.

Thank you for your consideration,
