WATER
IS A
NECESSITY
OF LIFE!

PENNICHUCK WATER WORKS
ACCT. 100001571-1883
ATTENTION OF TARA O'KING
CUSTOMER SERVICE MANAGER
DEAR MS KING,

I am upset about the rise in the cost of water. Prices are up on everything, to me as well as you. Why should the little guy (me) help the big guy (your company)? It should be the other way around. Gasoline prices went up, so too for food, home fuel, electric, TV and every thing else for me. The economy is at it's worst. Foreclosures are rampant. Why penalize me more? Water is free. (over phase)

It falls from the sky, however,
nature, or whatever you want
to call it. It doesn't have
to be transported to you by
human touch.

As for the treatment plant,
I thought it was already state
of-the-art. I know there is a
cost of pumping it. It's anything
needs replacing, it should be
the way one hundred years old
pipes under the streets.
Again, why should the
little guy help the big guy?
I should say little guy
on several accounts.

Sincerely yours,

Herbert F. Brown

P.S. Why now this allowed by the NHPUC?
