**New Hampshire Public Utilities Commission:**

I'm writing in opposition to the Aquarion rate increase. The rate increase they are asking for is outrageous. They were given an 18% three years ago. That should be sufficient for a long time. The last billed I paid was \$83.00, which is average per quarter. If I read this notice correctly, my billed will increase to \$125.52. We are retired people and these increases just make life more difficult. My husband's retirement is from the Worcester County Retirement since 1997, and his yearly cost of living increase is \$30.00, because they only give the increase on twelve hundred dollars. At this rate maybe we will have to limit our showers to once a week, and when the grandchildren come next summer, sorry no showers here.

P.S. Did we hear correctly over the week-end No. Utilities is also looking for an increase. It would be nice if one day, these utilities would take the seniors into consideration.

Thank you,

Patricia Kellicker
