DE 09-024 and DE 09-025
Algonquin Power Systems Inc.
Applications for Class IV Certification pursuant to RSA 362-F

Dear Mr. Agnew:

On February 11, 2009, you submitted on behalf of Algonquin Power Systems Inc. (Algonquin Power) a series of applications requesting the Commission grant approval of nine small hydroelectric facilities in Laconia, Goffstown, Franklin, Tilton, Nashua, Lochmere, Suncook, and Milton, New Hampshire (small hydroelectric facilities) to produce Class IV renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard legislation. On March 3, 2009, you notified Commission Staff that based on the Commission's determination as set out in its Order No. 24,940 (February 6, 2009) that only hydroelectric facilities with both upstream and downstream fish passages were intended to be eligible to produce Class IV RECs, your applications were "null and void."

The Commission considers your applications withdrawn and has closed the above referenced dockets without prejudice.

Sincerely,

A handwritten signature in cursive script that reads "Debra A. Howland".

Debra A. Howland
Executive Director
