Re: DE 09-082, WM Renewable Energy, L.L.C.  
Certification Application for Class I Eligibility of its New Milford Landfill Facility  
Pursuant to RSA 362-F

Dear Ms. Glenn:

On April 30, 2009, WM Renewable Energy, L.L.C. (WMRE) submitted an application requesting certification of the New Milford landfill methane gas facility (New Milford facility) as eligible to produce Class I renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the WMRE application was complete on June 15, 2009.

Class I eligibility requires a facility to have begun the production of electricity after January 1, 2006 and to use certain sources to produce electricity, one of which is methane gas. The application indicates that the New Milford facility is powered by landfill methane gas, has a gross nameplate capacity of 2.4 megawatts and began commercial operation in April 2008. The facility is located at 182-2 Danbury Road, New Milford, Connecticut. The facility's NEPOOL generation information system facility code is MSS978.

Based on Staff's recommendation, the Commission has determined that WMRE has provided all the necessary information to demonstrate that the New Milford facility is eligible for certification as a Class I facility. Therefore, the Commission hereby certifies that the New Milford facility is a Class I renewable energy source effective June 15, 2009 and is eligible to be issued New Hampshire Class I renewable energy certificates.

July 21, 2009  
Page two

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the New Milford landfill methane gas facility is NH-I-09-026.

Sincerely,

Re: DE 09-082, WM Renewable Energy, L.L.C.  
Certification of its New Milford Landfill Facility as a New Hampshire RPS Class I  
Facility Pursuant to RSA 362-F  
New Hampshire Certification Code NH-I-09-026

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified WM Renewable Energy, L.L.C. (WMRE) New Milford landfill methane gas facility as a Class I renewable energy source effective June 15, 2009. Accordingly, WMRE's New Milford facility is eligible to be issued New Hampshire Class I renewable energy certificates.

The New Milford facility has a gross nameplate capacity of 2.4 megawatts, is powered by landfill methane gas and began commercial operation in April 2008. The facility is located at 182-2 Danbury Road, New Milford, Connecticut. The facility's NEPOOL generation information system facility code is MSS978. The New Hampshire RPS certification code is NH-I-09-026.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".
