Re: DM 09-116 Utility Analysts, LLC's Filing Notice of Intent to Provide Electric Aggregation Services in New Hampshire: First Deficiency Letter

Dear Ms. Baugher:

On June 18, 2009, the New Hampshire Public Utilities Commission (Commission) received a notice of intent to provide electric aggregation services in New Hampshire from Utility Analysts, LLC (UA). Staff has reviewed your application and has noted the following items which must be addressed before UA can be registered as an aggregator:

Puc 2003.02 (c) requires an electronic copy of the application to be filed on diskette. No diskette was submitted with the application.

Puc 2003.02 (c) (4) requires a "toll free telephone number of the customer service contact person". The telephone number on the application is not a toll free number. Please provide the Commission with a toll free number which can be used by customers.

Puc 2003.02 (c) (5) requires a "copy of the aggregator's authorization to do business in New Hampshire from the secretary of state". A copy of the company's application for authorization is not sufficient. Please submit a copy of the authorization when it is received from the office of the secretary of state.

Please address these discrepancies as soon as possible so that Staff may proceed with your request to register as an aggregator of electric services. Failure to respond in a timely manner may result in the Commission dismissing, without prejudice, UA's application. Also, please be advised that you should reference the docket number, DM 09-116, in all future

correspondence with the Commission. Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Henry J. Bergeron".

Henry J. Bergeron
