Re: Docket No. DE 09-124 Public Service Company of New Hampshire –  
Petition For License to Construct and Maintain Electric Lines Over and Across  
the Bellamy River in the City of Dover, New Hampshire

Dear Ms. Howland:

As a result of engineering review and re-design of the above-referenced proposed water crossing, PSNH has determined it is necessary to file a completely revised petition in this docket. This revision is based on revised design flood elevations and clearances to meet National Electrical Safety Code requirements. Accordingly, enclosed for filing with the Commission please find the original and 7 copies of a revised Petition of Public Service Company of New Hampshire for License to Construct and Maintain Electric Lines Over and Across the Bellamy River in the City of Dover, New Hampshire, with attached revised Appendix A, Exhibits 1 and 2, and FIGURES 1 through 6. Please substitute this revised filing for the original petition with attachments filed on July 2, in its entirety.

Should there be any technical questions concerning this filing, they may be directed to PSNH Supervisor-Civil Engineering Donald S. Di Buono, III, at 634-2875. Thank you.

Very truly yours,

  
Christopher J. Allwarden
