Re: DE 09-150, Ridgewood Rhode Island Generation, LLC
Certification Application for Class III Eligibility of the Johnston Landfill
Expansion Phase II Facility Pursuant to RSA 362-F

Dear Ms. Haggerty:

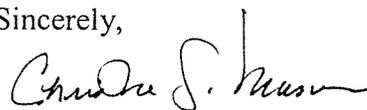

On August 20, 2009, Ridgewood Rhode Island Generation, LLC (Ridgewood) submitted an application requesting certification of its Johnston landfill expansion phase II facility (Johnston II facility) as eligible to produce Class III renewable energy certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed the application and recommended approval noting that the Ridgewood application was complete on August 20, 2009.

Class III eligibility requires a facility to have begun the production of electricity prior to January 1, 2006 using either eligible biomass technologies having a gross nameplate capacity of 25 megawatts or less or methane gas. The application indicates that the Johnston II facility has a gross nameplate capacity of 6.4 megawatts and entered commercial operation on July 31, 2005. The facility is located at 117 Shun Pike, Johnston, Rhode Island. The facility's NEPOOL generation information system facility code is MSS 10959

The Commission has reviewed the Ridgewood application and determined that it has provided all the necessary information to demonstrate that the Johnston II facility is eligible for certification as a Class III facility. Therefore, the Commission hereby certifies that the Johnston II facility is a Class III renewable energy source effective August 20, 2009 and is eligible to be issued New Hampshire Class III renewable energy certificates.

Attached please find a copy of the notice of this certification provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification code for the Johnston II landfill methane gas facility is NH-III-09-042.

Sincerely,

A handwritten signature in black ink, appearing to read "ChristiAne G. Mason". The signature is fluid and cursive, with a large initial 'C' and 'M'.

Re: DE 09-150, Ridgewood Rhode Island Generation, LLC
Certification of the Johnston Landfill Expansion Phase II Facility as a New Hampshire
RPS Class III Facility Pursuant to RSA 362-F
New Hampshire Certification Code NH-III-09-042

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Johnston Landfill Expansion Phase II facility (Johnston II facility) as a Class III renewable energy source effective August 20, 2009. Accordingly, the Johnston II facility is eligible to be issued New Hampshire Class III renewable energy certificates.

The Johnston II facility has a gross nameplate capacity of 6.4 megawatts, is fueled with methane gas and began operation on July 31, 2005. The facility is located at 117 Shun Pike, Johnston, Rhode Island. Its NEPOOL generation information system facility code is MSS 10959. The New Hampshire certification code is NH-III-09-042.

Sincerely,

A handwritten signature in black ink, appearing to read "ChristiAne G. Mason".
